### OUR SERVICES

Project management efficiency and strong communication strategies can mean the difference between success and failure when it comes to complex or high-visibility projects.

IBC provides an objective, professional approach to managing a project or program. We employ proven practices to a range of projects such as system implementations, business transformation, IT systems initiatives, regulatory compliance, and other critical business and technology issues.

IBC's experienced federal team provides project management as a service throughout your organization's project life cycle. IBC employs stringent project controls, discipline, and leadership to break down functional silos, engage stakeholders, and ensure initiatives are completed within scope, schedule, and budget. This approach minimizes risk and improves stakeholder satisfaction. IBC will help your organization with the structure necessary to ensure effective communication flows and robust collaboration across every functional area.

IBC is an OMB-designated federal shared services provider offering financial management services, including accounting, eTravel services, financial systems implementation and support, project management, COR services, contract audit and indirect cost services.
