Agenda and other materials are attached. Please plan to join 10-15 minutes in advance as we will start at the top of the hour. Speakers and presenters are welcome to join up to 30 minutes early to test audio.

Janet Coit, NOAA Fisheries Assistant Administrator, and Amanda Lefton, BOEM Director, are hosting a virtual summit to bring our two agencies together to provide clear leadership direction around the Biden-Harris Administration's offshore wind goals, acknowledge the importance of each agencies' mission, and discuss collaborative paths forward. We will have an opportunity to exchange information regarding ongoing activities, new initiatives, and to identify shared goals and tangible next steps for moving forward in a meaningful and constructive manner.

In order to have constructive conversations, we are limiting participation to key individuals from each relevant office and region. If you are unable to attend, please contact Candace Nachman (for NOAA Fisheries employees) or Isis Farmer (for BOEM employees) with the name of a recommended alternate to attend in your place.

Predecisional and deliberative

Hi all,

Holding this time on Friday for a discussion of clean energy and conservation off the coast of California. I think we want to keep the group relatively small to facilitate discussion and thinking about next steps, but if there's a key person or two from your agency/office that I missed, please let me know. Here is a draft agenda – edits welcome:

Thanks,
Matt

Importance: High

I apologize for the short notice, but I'm emailing to alert you of a pending Department announcement. I will invite you to a meeting at 1:15pm today, Friday, September 17, where a senior Department official will provide an overview of the pending announcement. BOEM zoom link, background and tips

Thu 10/7/2021 2:15 PM - 2:30 PM [🔗](#)

ZOOM LINK: [Click Here to Join](#)

We have a wonderful celebration event planned for BOEM's 10 Year Anniversary. As presenters, we have just a few tips to help our event run smoothly. We will have the event open an hour early so please do join no later than 30 minutes before the start time of the presentation to ensure everything is working properly on your end for the event.

DO NOT use the link in the calendar invite. You all should have received an individual Zoom presenters link. Please check for this link early so that we are not scrambling to locate it at the last minute. If you do not see it in your inbox, please check your junk email since it does come from an external source. This individual Zoom presenters link is the link you will need to use to enter the Zoom meeting's practice session before the actual event begins.

TIP TIME

1. Please use the attached anniversary backdrop. Download the image. Go into Zoom, click on the video drop down arrow and click "choose virtual background". Click on the plus sign, then "add image". Go to the location where you downloaded the anniversary background and choose it. You're done.
2. Close any applications you will not be using so as to not interfere with your bandwidth.
3. If you must have your email open, please silence your notifications during the event.
4. Leave your camera off until it is your turn to present. (bandwidth preservation)
5. Be sure to mute yourself and turn off your camera once you are done presenting.
6. When you are setting yourself up, make sure to have proper lighting. There is also a feature in zoom, in the video section called "adjust for low light". Put that on auto, it helps if your lighting isn't perfect.
7. Don't use a chair that swivels.
8. Have your script on a screen or paper taped up behind your screen right above your camera location. It will give the appearance that you are looking at everyone.
9. When presenting, don't have the Zoom gallery visible. It can be a distraction.
10. Position yourself in the screen where you are taking up about 2/3 of the screen. The top of your head should be right around the middle to lower section of the BOEM logo.
11. Enjoy yourself and be cheerful when you are presenting. It will be reflected in your voice.
12. Enjoy the rest of the event when you are not presenting!

If anyone has any additional helpful tips, please feel free to share it with everyone in this email. Looking forward to having a great anniversary celebration. If you have any questions or need any help, please feel free to contact me or Hillary McKey.

Thank you!

Meeting in preparation for Energy Policy Institute at the University of Chicago event on Monday November 15

Topic Description: The federal oil and gas leasing process plays a critical role in deciding whether, where and when oil and gas resources on public lands are developed, the revenue the government takes in, and the extent to which the local environment is protected. Yet, with the threat of climate change growing increasingly urgent, it is becoming apparent that the terms of U.S. lease agreements are not delivering a fair return for taxpayers and put the environment and public health at risk. Recognizing the need for reforms, President Joe Biden temporarily suspended oil and gas lease sales in January while his administration could review the program—a review that is still ongoing. The Biden administration has also signaled its commitment to clean up abandoned and orphaned oil and gas wells on federal lands, potentially putting displaced oil and gas workers to work cleaning up the wells. And all of this comes against the backdrop of intensified focus on addressing climate change not just within the administration but also in Congress and the broader public debate.

Hello everyone,

Because our potluck happens to coincide with Larry's last day and our first political all hands meeting in a while, we have decided to combine the two into a **glorious **virtual** potluck all hands meeting that will run from noon-1pm ET**. This will also allow all of us to eat indoors but stay COVID safe given the colder weather.

So, for Friday, here is the plan:

9-11:30am: Dish drop-off in Room 5160

For those of you bringing a dish, come by to drop it off any time starting at 9. We will have extension strips for crockpots and some sterno lights and trays, please note in the  [dish tracker](#) if you need a plug in or other heat source for your dish! If you have questions about what the set-up is please reach out to Amber and Abdiel. Please be mindful that we have appointees with food allergies and intolerances so please be prepared to provide information about your dish's ingredients, we will have notecards for this purpose.

11:30-noon: Masks on and Fix your plate!

Appointees should come by 5160 to fix their plate then bring their plate back to their office to eat. Please do not congregate in person to eat.

Noon-1pm – Political All Hands Meeting & Virtual potluck

We'll be fully virtual for our all hands meeting from noon-1pm. This will be Larry's last All Hands with us, so we are excited to celebrate his time with us here at the Department with this meal virtually together.

Thank you to all of you for your flexibility as we tweaked the plan for Friday so we can still gather but stay COVID safe as the weather changes! If you have any questions please don't hesitate to reach out.

Thanks,
-Maggie

Hi all, this call is a request from House and Senate Appropriations Majority staff to receive a briefing on the report referenced in the 11/26 press release below:

Interior Department Report Finds Significant Shortcomings in Oil and Gas Leasing Programs

Review Identifies Reforms to Ensure Fair Return to Taxpayers

WASHINGTON — The Department of the Interior today released its [report](#) on federal oil and gas leasing and permitting practices, following a review of onshore and offshore oil and gas programs. The report identifies significant reforms that should be made to ensure the programs provide a fair return to taxpayers, discourage speculation, hold operators responsible for remediation, and more fully include communities and Tribal, state, and local governments in decision-making.

“Our nation faces a profound climate crisis that is impacting every American. The Interior Department has an obligation to responsibly manage our public lands and waters – providing a fair return to the taxpayer and mitigating worsening climate

impacts – while staying steadfast in the pursuit of environmental justice,” said **Secretary Deb Haaland**. “This review outlines significant deficiencies in the federal oil and gas programs, and identifies important and urgent fiscal and programmatic reforms that will benefit the American people.”

The report completes the review of the federal oil and gas programs called for in [Executive Order 14008](#) and focuses primarily on necessary reforms to the fiscal terms, leasing process, and remediation requirements related to the federal oil and gas programs.

The Interior Department is committed to modernizing its oversight of oil and gas leasing and development to help address the climate and biodiversity crises and to advance environmental justice. The Biden-Harris administration is actively developing a National Climate Strategy for how the nation will reduce greenhouse gas emissions to achieve net zero to address the climate emergency.

In order to restore balance to the programs, the Department’s report makes a number of specific recommendations, including adjusting royalty and bonding rates, prioritizing leasing in areas with known resource potential, and avoiding leasing that conflicts with recreation, wildlife habitat, conservation, and historical and cultural resources, all of which are consistent with pending congressional proposals.

The Department will continue to conduct appropriate outreach to stakeholders including state and local governments, Tribes, conservation and environmental justice communities, and industry and labor.

The Department conducted an extensive review of oil and gas development on public lands and waters following Executive Order 14008, including hosting a [virtual public forum](#). The report reflects input received by the Department through robust engagement with state and local officials, members of Congress, and Tribes, as well as from a wide range of interests including the oil and gas industry, conservation groups, labor unions, Indigenous organizations, and the general public. The review also comes after years of the Government Accountability Office, the Department’s Office of Inspector General, and several congressional committees and members of Congress highlighting the need for meaningful modernization of the programs.

Hi Everyone,

We are excited to share that we will be joined by Ana Galindo-Marrone, Chief, Hatch Act Unit, U.S. Office of the Special Counsel on **Tuesday, December 7 at 2:30 pm ET** to provide a training on "What Every Federal Employee Needs to Know about the Hatch Act." As covered in Initial Ethics Training, the purpose of the Hatch Act is to prevent improper uses of Government resources for partisan political activities and governs certain actions taken by employees in both their personal and official capacities. The training will be followed by a question and answer session. The Secretary will also provide brief remarks to welcome appointees at the start of the training.

If you are joining the training virtually please use the Teams Invite to participate.

"Ana Galindo-Marrone is the Chief of the Hatch Act Unit for the U.S. Office of the Special Counsel. She began her employment at the Office of Special Counsel in 1998, and in 1999 she joined the prosecution division. She has been chief of the Hatch Act Unit since 2000. The Unit enforces compliance with the Act by investigating complaint allegations and litigating Hatch Act cases before the Merit Systems Protection Board. In addition, the Unit is responsible for a nationwide program that provides Hatch Act advisory opinions to federal, state, and local officials, as well as the public at large. Prior to joining OSC, Ms. Galindo-Marrone was a staff attorney for the School Board of Miami-Dade County, Florida. Hello everyone,

As we all are back in the building for the next couple of weeks, we wanted to give everyone the opportunity to learn more about the history of where we work! The DOI Museum Team have set up for times for appointees to come on an hour long tour to learn about the museum and the history of the building, including the historic murals throughout.

There are four different tours scheduled – please only confirm to this time option if you plan to attend so we can keep numbers spread out across the times.

Thank you so much!
-Maggie

Hello everyone,

As we all are back in the building for the next couple of weeks, we wanted to give everyone the opportunity to learn more about the history of where we work! The DOI Museum Team have set up for times for appointees to come on an hour long tour to learn about the museum and the history of the building, including the historic murals throughout.

There are four different tours scheduled – please only confirm to this time option if you plan to attend so we can keep numbers spread out across the times.

Thank you so much!

The USGS is releasing an updated assessment of oil & gas resources for the Williston Basin, including the Bakken Formation. This assessment will complete the update to the 2013 assessment of the Williston Basin. Earlier in 2021, the assessment of conventional resources for the Williston Basin was completed and published. The new assessment will include the continuous resources portion, which will account for a larger amount of the oil & gas resources. This assessment was undertaken at the behest of Senator John Hoeven (R-ND) and his office is very interested in the results. A news release and congressional notifications are being distributed to coincide with this briefing.

Hello everyone!

When the Secretary is back from travel next week we wanted to give folks the option to get together over lunch for a holiday gathering.

There is a lovely outdoor courtyard next to the cafeteria on the basement level, we invite you all to bring your lunch and gather there over the noon hour on Wednesday, December 15th.

We will also set up a hot chocolate bar and welcome folks bringing cookies or other holiday treats to share if you would like!

It has been wonderful seeing you all in the halls next week, look forward to gathering with you next week as well.

Thanks,

-Maggie

Hello everyone,

As we all are back in the building for the next couple of weeks, we wanted to give everyone the opportunity to learn more about the history of where we work! The DOI Museum Team have set up for times for appointees to come on an hour long tour to learn about the museum and the history of the building, including the historic murals throughout.

There are four different tours scheduled – please only confirm to this time option if you plan to attend so we can keep numbers spread out across the times.

Thank you so much!
