

# Scrap Paper Mouse

This simple craft uses scrap paper to create a cute mouse. If you don't have colored paper, use markers or colored pencils to be creative and color the paper yourself!

## Supplies Needed:

Paper, pencil/pen, scissors, glue

1. Cut out two circles of equal size (it is best to trace them using a round item, such as a can).
2. Draw a heart in one of the circles and cut it out.
3. Fold the heart in half and fold the round parts of the heart down to make ears, drawing on a nose and eyes to make the mouse head.
4. Fold the other circle in half to make the body.
5. Curl a long, thin piece of paper to create a tail.
6. Glue on the tail and head to the body to complete a scrap paper mouse.
