**Subject:** Embargoed until 11:30 - Interior Department Releases Final Rule to Support Safe, Responsible Hydraulic Fracturing Activities on Public and Tribal Lands  
**Date:** Friday, March 20, 2015 9:31:10 AM

---

Good morning!

The press release below on the final rule for hydraulic fracturing is embargoed until 11:30 am this morning when it will be released. I do not have the final link where the rule will be posted yet, but will forward that once it's available.

Thanks!

Date: March 20, 2015

## **Interior Department Releases Final Rule to Support Safe, Responsible Hydraulic Fracturing Activities on Public and Tribal Lands**

*Fundamental Standards Address Well Integrity, Water Protection, Disclosure of Chemicals*

**WASHINGTON, D.C.** – Following a robust and transparent public process that included more than 1.5 million public comments, Secretary of the Interior Sally Jewell today released final standards that will support safe and responsible hydraulic fracturing on public and American Indian lands. The commonsense standards will improve safety and help protect groundwater by updating requirements for well-bore integrity, wastewater disposal and public disclosure of chemicals.

There are more than 100,000 oil and gas wells on federally managed lands. Of wells currently being drilled, over 90 percent use hydraulic fracturing. The rule applies only to development on public and tribal lands and includes a process so that states and tribes may request variances from provisions for which they have an equal or more protective regulation in place. This will avoid duplication while enabling the development of more protective standards by state and tribal governments. Today's final rule is a major step in the Department of the Interior's agenda to support a balanced, prosperous energy future. Other reforms will also include important measures to target where oil and gas leasing occurs and protect sensitive areas that are too special to drill.

“Current federal well-drilling regulations are more than 30 years old and they simply have not kept pace with the technical complexities of today’s hydraulic fracturing operations,” Secretary Jewell said. “This updated and strengthened rule provides a framework of safeguards and disclosure protocols that will allow for the continued responsible development of our federal oil and gas resources. As we continue to offer millions of acres of public lands for conventional and renewable energy production, it is absolutely critical the public have confidence that transparent and effective safety and environmental protections are in place.”

Key components of the rule, which will take effect in 90 days include:

- Provisions for ensuring the protection of groundwater supplies by requiring a validation of well integrity and strong cement barriers between the wellbore and water zones through which the wellbore passes;
- Increased transparency by requiring companies to publicly disclose chemicals used in hydraulic fracturing to the Bureau of Land Management through the website FracFocus, within 30 days of completing fracturing operations;
- Higher standards for interim storage of recovered waste fluids from hydraulic fracturing to mitigate risks to air, water and wildlife;
- Measures to lower the risk of cross-well contamination with chemicals and fluids used in the fracturing operation, by requiring companies to submit more detailed information on the geology, depth, and location of preexisting wells to afford the BLM an opportunity to better evaluate and manage unique site characteristics.

“This rule will protect public health and the environment during and after hydraulic fracturing operations at a modest cost while both respecting the work previously done by the industry, the states and the tribes and promoting the adoption of more protective standards across the country,” said Assistant Secretary for Land and Minerals Management Janice Schneider. “It will be implemented in the most efficient way possible to avoid duplication or unnecessary activities by industry, other regulators, or BLM staff. We know how important it is to get this right.”

The new rule is the culmination of four years of extensive public involvement to bring onshore oil and gas drilling regulations into the 21st century. The BLM published both a draft rule and a supplemental draft rule, held regional forums and numerous stakeholder meetings on the proposal and reviewed more than 1.5 million public comments.

BLM staff studied state and tribal regulations and consulted with state and tribal regulators, industry, environmental experts, and the public, including communities affected by oil and gas

operations. In many instances, provisions in the new rule are similar to or based on existing state or tribal rules and industry best practices. The result of this careful consultation is a rule that will enhance environmental protection in a thoughtful and cost-effective way. BLM estimates the new rule will cost less than one-fourth of 1 percent of the cost of drilling a well, based on the Energy Information Administration's average per well cost of \$5.4 million.

“This rule was informed and shaped by the technical expertise, interests and concerns of all of our partners, and builds on the work of states and tribes to ensure best practices on a nationwide basis,” said BLM Director Neil Kornze. “The new regulations are essential to our mutual efforts to protect the environment and the communities that depend on vital water, land and wildlife resources. This rule is good government.”

The BLM oversees about 700 million subsurface acres of federal mineral estate and carries out regulatory duties of the Secretary of the Interior for an additional 56 million acres of Indian mineral estate across the United States. The Indian Mineral Leasing Act and other laws require that Indian lands and communities have the same protections as U.S. public lands.

## **Interior Department Releases Final Rule to Support Safe, Responsible Hydraulic Fracturing Activities on Public and Tribal Lands**

*Fundamental Standards Address Well Integrity, Water Protection, Disclosure of Chemicals*

**WASHINGTON, D.C.** – Following a robust and transparent public process that included more than 1.5 million public comments, Secretary of the Interior Sally Jewell today released final standards that will support safe and responsible hydraulic fracturing on public and American Indian lands. The commonsense standards will improve safety and help protect groundwater by updating requirements for well-bore integrity, wastewater disposal and public disclosure of chemicals.

There are more than 100,000 oil and gas wells on federally managed lands. Of wells currently being drilled, over 90 percent use hydraulic fracturing. The rule applies only to development on public and tribal lands and includes a process so that states and tribes may request variances from provisions for which they have an equal or more protective regulation in place. This will avoid duplication while enabling the development of more protective standards by state and tribal governments. Today's final rule is a major step in the Department of the Interior's agenda to support a balanced, prosperous energy future. Other reforms will also include important measures to target where oil and gas leasing occurs and protect sensitive areas that are too special to drill.

“Current federal well-drilling regulations are more than 30 years old and they simply have not kept pace with the technical complexities of today’s hydraulic fracturing operations,” Secretary Jewell said. “This updated and strengthened rule provides a framework of safeguards and disclosure protocols that will allow for the continued responsible development of our federal oil and gas resources. As we continue to offer millions of acres of public lands for conventional and renewable energy production, it is absolutely critical the public have confidence that transparent and effective safety and environmental protections are in place.”

Key components of the rule, which will take effect in 90 days include:

- Provisions for ensuring the protection of groundwater supplies by requiring a validation of well integrity and strong cement barriers between the wellbore and water zones through which the wellbore passes;
- Increased transparency by requiring companies to publicly disclose chemicals used in hydraulic fracturing to the Bureau of Land Management through the website FracFocus, within 30 days of completing fracturing operations;
- Higher standards for interim storage of recovered waste fluids from hydraulic fracturing to mitigate risks to air, water and wildlife;
- Measures to lower the risk of cross-well contamination with chemicals and fluids used in the fracturing operation, by requiring companies to submit more detailed information on the geology, depth, and location of preexisting wells to afford the BLM an opportunity to better evaluate and manage unique site characteristics.

“This rule will protect public health and the environment during and after hydraulic fracturing operations at a modest cost while both respecting the work previously done by the industry, the states and the tribes and promoting the adoption of more protective standards across the country,” said Assistant Secretary for Land and Minerals Management Janice Schneider. “It will be implemented in the most efficient way possible to avoid duplication or unnecessary activities by industry, other regulators, or BLM staff. We know how important it is to get this right.”

The new rule is the culmination of four years of extensive public involvement to bring onshore oil and gas drilling regulations into the 21st century. The BLM published both a draft rule and a supplemental draft rule, held regional forums and numerous stakeholder meetings on the proposal and reviewed more than 1.5 million public comments.

BLM staff studied state and tribal regulations and consulted with state and tribal regulators, industry, environmental experts, and the public, including communities affected by oil and gas

operations. In many instances, provisions in the new rule are similar to or based on existing state or tribal rules and industry best practices. The result of this careful consultation is a rule that will enhance environmental protection in a thoughtful and cost-effective way. BLM estimates the new rule will cost less than one-fourth of 1 percent of the cost of drilling a well, based on the Energy Information Administration's average per well cost of \$5.4 million.

“This rule was informed and shaped by the technical expertise, interests and concerns of all of our partners, and builds on the work of states and tribes to ensure best practices on a nationwide basis,” said BLM Director Neil Kornze. “The new regulations are essential to our mutual efforts to protect the environment and the communities that depend on vital water, land and wildlife resources. This rule is good government.”

**Interior Department Releases Final Rule to Support Safe, Responsible Hydraulic Fracturing Activities on Public and Tribal Lands**  
*Fundamental Standards Address Well Integrity, Water Protection, Disclosure of Chemicals*

**WASHINGTON, D.C.** – Following a robust and transparent public process that included more than 1.5 million public comments, Secretary of the Interior Sally Jewell today released final standards that will support safe and responsible hydraulic fracturing on public and American Indian lands. The commonsense standards will improve safety and help protect groundwater by updating requirements for well-bore integrity, wastewater disposal and public disclosure of chemicals.

There are more than 100,000 oil and gas wells on federally managed lands. Of wells currently being drilled, over 90 percent use hydraulic fracturing. The rule applies only to development on public and tribal lands and includes a process so that states and tribes may request variances from provisions for which they have an equal or more protective regulation in place. This will avoid duplication while enabling the development of more protective standards by state and tribal governments. Today’s final rule is a major step in the Department of the Interior’s agenda to support a balanced, prosperous energy future. Other reforms will also include important measures to target where oil and gas leasing occurs and protect sensitive areas that are too special to drill.

“Current federal well-drilling regulations are more than 30 years old and they simply have not

kept pace with the technical complexities of today's hydraulic fracturing operations," Secretary Jewell said. "This updated and strengthened rule provides a framework of safeguards and disclosure protocols that will allow for the continued responsible development of our federal oil and gas resources. As we continue to offer millions of acres of public lands for conventional and renewable energy production, it is absolutely critical the public have confidence that transparent and effective safety and environmental protections are in place."

Key components of the rule, which will take effect in 90 days include:

- Provisions for ensuring the protection of groundwater supplies by requiring a validation of well integrity and strong cement barriers between the wellbore and water zones through which the wellbore passes;
- Increased transparency by requiring companies to publicly disclose chemicals used in hydraulic fracturing to the Bureau of Land Management through the website FracFocus, within 30 days of completing fracturing operations;
- Higher standards for interim storage of recovered waste fluids from hydraulic fracturing to mitigate risks to air, water and wildlife;
- Measures to lower the risk of cross-well contamination with chemicals and fluids used in the fracturing operation, by requiring companies to submit more detailed information on the geology, depth, and location of preexisting wells to afford the BLM an opportunity to better evaluate and manage unique site characteristics.

"This rule will protect public health and the environment during and after hydraulic fracturing operations at a modest cost while both respecting the work previously done by the industry, the states and the tribes and promoting the adoption of more protective standards across the country," said Assistant Secretary for Land and Minerals Management Janice Schneider. "It will be implemented in the most efficient way possible to avoid duplication or unnecessary activities by industry, other regulators, or BLM staff. We know how important it is to get this right."

The new rule is the culmination of four years of extensive public involvement to bring onshore oil and gas drilling regulations into the 21st century. The BLM published both a draft rule and a supplemental draft rule, held regional forums and numerous stakeholder meetings on the proposal and reviewed more than 1.5 million public comments.

BLM staff studied state and tribal regulations and consulted with state and tribal regulators, industry, environmental experts, and the public, including communities affected by oil and gas operations. In many instances, provisions in the new rule are similar to or based on existing state or tribal rules and industry best practices. The result of this careful consultation is a rule that will enhance environmental protection in a thoughtful and cost-effective way. BLM estimates the new rule will cost less than one-fourth of 1 percent of the cost of drilling a well, based on the Energy Information Administration's average per well cost of \$5.4 million.

"This rule was informed and shaped by the technical expertise, interests and concerns of all of our partners, and builds on the work of states and tribes to ensure best practices on a

nationwide basis,” said BLM Director Neil Kornze. “The new regulations are essential to our mutual efforts to protect the environment and the communities that depend on vital water, land and wildlife resources. This rule is good government.”

The BLM oversees about 700 million subsurface acres of federal mineral estate and carries out regulatory duties of the Secretary of the Interior for an additional 56 million acres of Indian mineral estate across the United States. The Indian Mineral Leasing Act and other laws require that Indian lands and communities have the same protections as U.S. public lands.

## **Interior Department Releases Final Rule to Support Safe, Responsible Hydraulic Fracturing Activities on Public and Tribal Lands**

*Fundamental Standards Address Well Integrity, Water Protection, Disclosure of Chemicals*

**WASHINGTON, D.C.** – Following a robust and transparent public process that included more than 1.5 million public comments, Secretary of the Interior Sally Jewell today released final standards that will support safe and responsible hydraulic fracturing on public and American Indian lands. The commonsense standards will improve safety and help protect groundwater by updating requirements for well-bore integrity, wastewater disposal and public disclosure of chemicals.

There are more than 100,000 oil and gas wells on federally managed lands. Of wells currently being drilled, over 90 percent use hydraulic fracturing. The rule applies only to development on public and tribal lands and includes a process so that states and tribes may request variances from provisions for which they have an equal or more protective regulation in place. This will avoid duplication while enabling the development of more protective standards by state and tribal governments. Today's final rule is a major step in the Department of the Interior's agenda to support a balanced, prosperous energy future. Other reforms will also include important measures to target where oil and gas leasing occurs and protect sensitive areas that are too special to drill.

“Current federal well-drilling regulations are more than 30 years old and they simply have not kept pace with the technical complexities of today’s hydraulic fracturing operations,” Secretary Jewell said. “This updated and strengthened rule provides a framework of safeguards and disclosure protocols that will allow for the continued responsible development of our federal oil and gas resources. As we continue to offer millions of acres of public lands for conventional and renewable energy production, it is absolutely critical the public have confidence that transparent and effective safety and environmental protections are in place.”

Key components of the rule, which will take effect in 90 days include:

- Provisions for ensuring the protection of groundwater supplies by requiring a validation of well integrity and strong cement barriers between the wellbore and water zones through which the wellbore passes;
- Increased transparency by requiring companies to publicly disclose chemicals used in hydraulic fracturing to the Bureau of Land Management through the website FracFocus, within 30 days of completing fracturing operations;
- Higher standards for interim storage of recovered waste fluids from hydraulic fracturing to mitigate risks to air, water and wildlife;
- Measures to lower the risk of cross-well contamination with chemicals and fluids used in the fracturing operation, by requiring companies to submit more detailed information on the geology, depth, and location of preexisting wells to afford the BLM an opportunity to better evaluate and manage unique site characteristics.

“This rule will protect public health and the environment during and after hydraulic fracturing operations at a modest cost while both respecting the work previously done by the industry, the states and the tribes and promoting the adoption of more protective standards across the country,” said Assistant Secretary for Land and Minerals Management Janice Schneider. “It will be implemented in the most efficient way possible to avoid duplication or unnecessary activities by industry, other regulators, or BLM staff. We know how important it is to get this right.”

The new rule is the culmination of four years of extensive public involvement to bring onshore oil and gas drilling regulations into the 21st century. The BLM published both a draft rule and a supplemental draft rule, held regional forums and numerous stakeholder meetings on the proposal and reviewed more than 1.5 million public comments.

BLM staff studied state and tribal regulations and consulted with state and tribal regulators, industry, environmental experts, and the public, including communities affected by oil and gas

operations. In many instances, provisions in the new rule are similar to or based on existing state or tribal rules and industry best practices. The result of this careful consultation is a rule that will enhance environmental protection in a thoughtful and cost-effective way. BLM estimates the new rule will cost less than one-fourth of 1 percent of the cost of drilling a well, based on the Energy Information Administration's average per well cost of \$5.4 million.

“This rule was informed and shaped by the technical expertise, interests and concerns of all of our partners, and builds on the work of states and tribes to ensure best practices on a nationwide basis,” said BLM Director Neil Kornze. “The new regulations are essential to our mutual efforts to protect the environment and the communities that depend on vital water, land and wildlife resources. This rule is good government.”

The BLM oversees about 700 million subsurface acres of federal mineral estate and carries out regulatory duties of the Secretary of the Interior for an additional 56 million acres of Indian mineral estate across the United States. The Indian Mineral Leasing Act and other laws require that Indian lands and communities have the same protections as U.S. public lands.

# **Interior Department Releases Final Rule to Support Safe, Responsible Hydraulic Fracturing Activities on Public and Tribal Lands**

## *Fundamental Standards Address Well Integrity, Water Protection, Disclosure of Chemicals*

**WASHINGTON, D.C.** – Following a robust and transparent public process that included more than 1.5 million public comments, Secretary of the Interior Sally Jewell today released final standards that will support safe and responsible hydraulic fracturing on public and American Indian lands. The commonsense standards will improve safety and help protect groundwater by updating requirements for well-bore integrity, wastewater disposal and public disclosure of chemicals.

There are more than 100,000 oil and gas wells on federally managed lands. Of wells currently being drilled, over 90 percent use hydraulic fracturing. The rule applies only to development on public and tribal lands and includes a process so that states and tribes may request variances from provisions for which they have an equal or more protective regulation in place. This will avoid duplication while enabling the development of more protective standards by state and tribal governments. Today's final rule is a major step in the Department of the Interior's agenda to support a balanced, prosperous energy future. Other reforms will also include important measures to target where oil and gas leasing occurs and protect sensitive areas that are too special to drill.

“Current federal well-drilling regulations are more than 30 years old and they simply have not kept pace with the technical complexities of today's hydraulic fracturing operations,” Secretary Jewell said. “This updated and strengthened rule provides a framework of safeguards and disclosure protocols that will allow for the continued responsible development of our federal oil and gas resources. As we continue to offer millions of acres of public lands for conventional and renewable energy production, it is absolutely critical the public have confidence that transparent and effective safety and environmental protections are in place.”

Key components of the rule, which will take effect in 90 days include:

- Provisions for ensuring the protection of groundwater supplies by requiring a validation of well integrity and strong cement barriers between the wellbore and water zones through which the wellbore passes;
- Increased transparency by requiring companies to publicly disclose chemicals used in hydraulic fracturing to the Bureau of Land Management through the website FracFocus, within 30 days of completing fracturing operations;
- Higher standards for interim storage of recovered waste fluids from hydraulic fracturing to mitigate risks to air, water and wildlife;
- Measures to lower the risk of cross-well contamination with chemicals and fluids used in the fracturing operation, by requiring companies to submit more detailed information on the geology, depth, and location of preexisting wells to afford the BLM an opportunity to better evaluate and manage unique site characteristics.

“This rule will protect public health and the environment during and after hydraulic fracturing operations at a modest cost while both respecting the work previously done by the industry,

the states and the tribes and promoting the adoption of more protective standards across the country,” said Assistant Secretary for Land and Minerals Management Janice Schneider. “It will be implemented in the most efficient way possible to avoid duplication or unnecessary activities by industry, other regulators, or BLM staff. We know how important it is to get this right.”

The new rule is the culmination of four years of extensive public involvement to bring onshore oil and gas drilling regulations into the 21st century. The BLM published both a draft rule and a supplemental draft rule, held regional forums and numerous stakeholder meetings on the proposal and reviewed more than 1.5 million public comments.

BLM staff studied state and tribal regulations and consulted with state and tribal regulators, industry, environmental experts, and the public, including communities affected by oil and gas operations. In many instances, provisions in the new rule are similar to or based on existing state or tribal rules and industry best practices. The result of this careful consultation is a rule that will enhance environmental protection in a thoughtful and cost-effective way. BLM estimates the new rule will cost less than one-fourth of 1 percent of the cost of drilling a well, based on the Energy Information Administration’s average per well cost of \$5.4 million.

“This rule was informed and shaped by the technical expertise, interests and concerns of all of our partners, and builds on the work of states and tribes to ensure best practices on a nationwide basis,” said BLM Director Neil Kornze. “The new regulations are essential to our mutual efforts to protect the environment and the communities that depend on vital water, land and wildlife resources. This rule is good government.”

The BLM oversees about 700 million subsurface acres of federal mineral estate and carries out regulatory duties of the Secretary of the Interior for an additional 56 million acres of Indian mineral estate across the United States. The Indian Mineral Leasing Act and other laws require that Indian lands and communities have the same protections as U.S. public lands.

**Interior Department Releases Final Rule to Support Safe, Responsible**

## **Hydraulic Fracturing Activities on Public and Tribal Lands**

### *Fundamental Standards Address Well Integrity, Water Protection, Disclosure of Chemicals*

**WASHINGTON, D.C.** – Following a robust and transparent public process that included more than 1.5 million public comments, Secretary of the Interior Sally Jewell today released final standards that will support safe and responsible hydraulic fracturing on public and American Indian lands. The commonsense standards will improve safety and help protect groundwater by updating requirements for well-bore integrity, wastewater disposal and public disclosure of chemicals.

There are more than 100,000 oil and gas wells on federally managed lands. Of wells currently being drilled, over 90 percent use hydraulic fracturing. The rule applies only to development on public and tribal lands and includes a process so that states and tribes may request variances from provisions for which they have an equal or more protective regulation in place. This will avoid duplication while enabling the development of more protective standards by state and tribal governments. Today's final rule is a major step in the Department of the Interior's agenda to support a balanced, prosperous energy future. Other reforms will also include important measures to target where oil and gas leasing occurs and protect sensitive areas that are too special to drill.

“Current federal well-drilling regulations are more than 30 years old and they simply have not kept pace with the technical complexities of today's hydraulic fracturing operations,” Secretary Jewell said. “This updated and strengthened rule provides a framework of safeguards and disclosure protocols that will allow for the continued responsible development of our federal oil and gas resources. As we continue to offer millions of acres of public lands for conventional and renewable energy production, it is absolutely critical the public have confidence that transparent and effective safety and environmental protections are in place.”

Key components of the rule, which will take effect in 90 days include:

- Provisions for ensuring the protection of groundwater supplies by requiring a validation of well integrity and strong cement barriers between the wellbore and water zones through which the wellbore passes;
- Increased transparency by requiring companies to publicly disclose chemicals used in hydraulic fracturing to the Bureau of Land Management through the website FracFocus, within 30 days of completing fracturing operations;
- Higher standards for interim storage of recovered waste fluids from hydraulic fracturing to mitigate risks to air, water and wildlife;
- Measures to lower the risk of cross-well contamination with chemicals and fluids used in the fracturing operation, by requiring companies to submit more detailed information on the geology, depth, and location of preexisting wells to afford the BLM an opportunity to better evaluate and manage unique site characteristics.

“This rule will protect public health and the environment during and after hydraulic fracturing operations at a modest cost while both respecting the work previously done by the industry, the states and the tribes and promoting the adoption of more protective standards across the country,” said Assistant Secretary for Land and Minerals Management Janice Schneider. “It will be implemented in the most efficient way possible to avoid duplication or unnecessary

activities by industry, other regulators, or BLM staff. We know how important it is to get this right.”

The new rule is the culmination of four years of extensive public involvement to bring onshore oil and gas drilling regulations into the 21st century. The BLM published both a draft rule and a supplemental draft rule, held regional forums and numerous stakeholder meetings on the proposal and reviewed more than 1.5 million public comments.

BLM staff studied state and tribal regulations and consulted with state and tribal regulators, industry, environmental experts, and the public, including communities affected by oil and gas operations. In many instances, provisions in the new rule are similar to or based on existing state or tribal rules and industry best practices. The result of this careful consultation is a rule that will enhance environmental protection in a thoughtful and cost-effective way. BLM estimates the new rule will cost less than one-fourth of 1 percent of the cost of drilling a well, based on the Energy Information Administration’s average per well cost of \$5.4 million.

“This rule was informed and shaped by the technical expertise, interests and concerns of all of our partners, and builds on the work of states and tribes to ensure best practices on a nationwide basis,” said BLM Director Neil Kornze. “The new regulations are essential to our mutual efforts to protect the environment and the communities that depend on vital water, land and wildlife resources. This rule is good government.”

The BLM oversees about 700 million subsurface acres of federal mineral estate and carries out regulatory duties of the Secretary of the Interior for an additional 56 million acres of Indian mineral estate across the United States. ## **Interior Department Releases Final Rule to Support Safe, Responsible Hydraulic Fracturing Activities on Public and Tribal Lands**

### *Fundamental Standards Address Well Integrity, Water Protection, Disclosure of Chemicals*

**WASHINGTON, D.C.** – Following a robust and transparent public process that included more than 1.5 million public comments, Secretary of the Interior Sally Jewell today released final standards that will support safe and responsible hydraulic fracturing on public and American Indian lands. The commonsense standards will improve safety and help protect groundwater by updating requirements for well-bore integrity, wastewater disposal and public disclosure of chemicals.

There are more than 100,000 oil and gas wells on federally managed lands. Of wells currently being drilled, over 90 percent use hydraulic fracturing. The rule applies only to development on public and tribal lands and includes a process so that states and tribes may request variances from provisions for which they have an equal or more protective regulation in place. This will avoid duplication while enabling the development of more protective standards by state and tribal governments. Today's final rule is a major step in the Department of the Interior's agenda to support a balanced, prosperous energy future. Other reforms will also include important measures to target where oil and gas leasing occurs and protect sensitive areas that are too special to drill.

"Current federal well-drilling regulations are more than 30 years old and they simply have not kept pace with the technical complexities of today's hydraulic fracturing operations," Secretary Jewell said. "This updated and strengthened rule provides a framework of safeguards and disclosure protocols that will allow for the continued responsible development of our federal oil and gas resources. As we continue to offer millions of acres of public lands for conventional and renewable energy production, it is absolutely critical the public have confidence that transparent and effective safety and environmental protections are in place."

Key components of the rule, which will take effect in 90 days include:

- Provisions for ensuring the protection of groundwater supplies by requiring a validation of well integrity and strong cement barriers between the wellbore and water zones through which the wellbore passes;
- Increased transparency by requiring companies to publicly disclose chemicals used in hydraulic fracturing to the Bureau of Land Management through the website FracFocus, within 30 days of completing fracturing operations;
- Higher standards for interim storage of recovered waste fluids from hydraulic fracturing to mitigate risks to air, water and wildlife;
- Measures to lower the risk of cross-well contamination with chemicals and fluids used in the fracturing operation, by requiring companies to submit more detailed information on the geology, depth, and location of preexisting wells to afford the BLM an opportunity to better evaluate and manage unique site characteristics.

“This rule will protect public health and the environment during and after hydraulic fracturing operations at a modest cost while both respecting the work previously done by the industry, the states and the tribes and promoting the adoption of more protective standards across the country,” said Assistant Secretary for Land and Minerals Management Janice Schneider. “It will be implemented in the most efficient way possible to avoid duplication or unnecessary activities by industry, other regulators, or BLM staff. We know how important it is to get this right.”

The new rule is the culmination of four years of extensive public involvement to bring onshore oil and gas drilling regulations into the 21st century. The BLM published both a draft rule and a supplemental draft rule, held regional forums and numerous stakeholder meetings on the proposal and reviewed more than 1.5 million public comments.

BLM staff studied state and tribal regulations and consulted with state and tribal regulators, industry, environmental experts, and the public, including communities affected by oil and gas operations. In many instances, provisions in the new rule are similar to or based on existing state or tribal rules and industry best practices. The result of this careful consultation is a rule that will enhance environmental protection in a thoughtful and cost-effective way. BLM estimates the new rule will cost less than one-fourth of 1 percent of the cost of drilling a well, based on the Energy Information Administration’s average per well cost of \$5.4 million.

“This rule was informed and shaped by the technical expertise, interests and concerns of all of our partners, and builds on the work of states and tribes to ensure best practices on a nationwide basis,” said BLM Director Neil Kornze. “The new regulations are essential to our mutual efforts to protect the environment and the communities that depend on vital water, land and wildlife resources. This rule is good government.”

The BLM oversees about 700 million subsurface acres of federal mineral estate and carries out regulatory duties of the Secretary of the Interior for an additional 56 million acres of Indian mineral estate across the United States. The Indian Mineral Leasing Act and other laws require that Indian lands and communities have the same protections as U.S. public lands.

*Twenty-seven Senate Republicans have introduced a bill to halt the regulations as a threat to the U.S. energy boom.*

The Obama administration unveiled the first major national safety restrictions for fracking on Friday, a move that touched off an immediate backlash from the president's critics in Congress and the energy industry.

Two oil industry groups immediately sued to challenge the rules, calling them "a reaction to unsubstantiated concerns," while 27 Senate Republicans introduced legislation to block them from taking effect. Meanwhile, green groups were divided on whether the long-awaited regulations go far enough.

"The political reaction is not surprising," Interior Secretary Sally Jewell told reporters Friday morning after her department released the finished rules. But she added, "We're confident from the process we went through that we're doing the right thing for the American people."

The new rules are the federal government's most comprehensive foray to date toward regulating the technology at the heart of the U.S. oil and gas boom, addressing worries such as potential dangers to drinking water. They also offered oil and gas supporters new room to accuse President Barack Obama of seeking to throttle fossil-fuel production, despite his repeated boasts about the nation's booming energy supplies.

At the same time, the rules fall short of environmentalists' biggest demands for oversight of fracking operations — let alone some groups' calls for an all-out ban.

Interior's regulations apply only to land owned by the federal government or Indian tribes, so they won't end the current patchwork of state laws and local ordinances governing the practice in hot spots like Pennsylvania, south Texas and North Dakota. But the industry and its supporters in Congress still call it an overreach, arguing that greens are massively exaggerating the dangers and that states are adequately regulating the industry already.

"If Interior was half as interested in new production as it is in new regulation, our nation would be in a far better place," said Alaska Republican Sen. Lisa Murkowski, who chairs the

Energy and Natural Resources Committee.

Erik Milito, the American Petroleum Institute's upstream operations director, issued a statement Friday that the rules threaten to create a "duplicative layer of new federal regulation." He added: "Despite the renaissance on state and private lands, energy production on federal lands has fallen, and this rule is just one more barrier to growth."

Two other industry groups — the Independent Petroleum Association of America and the Western Energy Alliance — swiftly filed a federal lawsuit Friday in Wyoming attacking the rules. Senate Republicans, including Majority Leader Mitch McConnell of Kentucky, didn't even wait for the rule to come out before filing their hostile legislation late Thursday.

On the other side of the aisle, top House Natural Resources Committee Democrat Raúl Grijalva lamented that the rules represent "the lowest common denominator."

"Instead of offering clarity and protecting our resources, today's rule lets industry off the hook," the Arizona Democrat said.

Still, the liberal Center for American Progress says the regulations are an important step.

"As with any rule, you can't please everyone and you can't make it perfect, but the rule will absolutely be a huge leap forward toward safer wells, improved transparency, and better protections for nearby communities," Matt Lee-Ashley, director of the group's public lands project, said by email.

Jewell said the rules are long overdue.

"Current federal well-drilling regulations are more than 30 years old and they simply have not kept pace with the technical complexities of today's hydraulic fracturing operations," she said in a statement. "This updated and strengthened rule provides a framework of safeguards and disclosure protocols that will allow for the continued responsible development of our federal oil and gas resources."

The debate touches on some of the most dominant energy issues of Obama's presidency. Fracking, or hydraulic fracturing — which involves injecting water, sand and chemicals underground to break up oil- and gas-rich shale formations — has helped create boom towns in once-unlikely states while turning the U.S. into a rising energy superpower.

The resulting surge in domestic supplies during the past eight years has helped drive a swoon in oil and gas prices, putting money into consumers' pockets and strengthening the United States' hand against rival energy producers like Iran and Russia. But it has also weakened the bottom lines of many oil and gas producers, making them vulnerable to what Dan Naatz, a senior vice president at the Independent Petroleum Association of America, described as a regulatory "death by a thousand cuts."

Kathleen Sgamma, a vice president at the industry group Western Energy Alliance, agreed that the withering downturn in oil prices "strengthens their hand" at Interior.

"The industry is weaker and won't be able to fight back," she said in an interview about the upcoming fracking regulations. "If they're out on public lands where [drilling activity] is

already more marginal, this is blood in the water.”

Anti-fracking activists had denounced an earlier draft from Interior as too weak, saying the president should do more to tamp down oil and gas production amid worries about illnesses, damaged roads, explosive fuel trains and even earthquakes, which some scientists suspect have been triggered by underground disposal of drilling waste.

Amy Mall, a senior policy analyst at the Natural Resources Defense Council, said her group would stay worried about fracking’s effects on pollution and public health “even if this rule were absolutely perfect, the strongest it could be, with rigorous penalties for noncompliance.”

“Because none of those rules are strong enough and enforced enough,” she added, and “because we’re very concerned about how much oil and gas BLM is permitting and the process they’re using.”

Interior is expected to follow up in the next few months with new standards for the burning of fracking-generated methane gas, which can contribute to global warming. And the Environmental Protection Agency, which has taken its own steps to limit methane pollution from shale gas wells, is still working on a years-long study of fracking’s health risks. That study could lead to even broader attempts at regulation, including on the private or state-owned lands where the vast majority of fracking occurs.

The rules released Friday will have an especially large impact in the West, where drillers on federal and tribal lands will have to abide by new standards for well construction and the management of fracking waste fluids. And they will apply to both oil and gas production, unlike an EPA air rule that took effect this year for gas wells only.

Instead of tightening the screws, Naatz said, the federal government should ease its regulations. “Our members will say the very same activity you’re seeing on state and private lands could be happening on federal land,” he said.

The Interior proposal has had a long, rocky road to the finish line.

BLM originally said the rule would be final by the end of 2012, but then withdrew its proposal in January 2013 before issuing a new proposal four months later. Environmentalists complained that Interior appeared to be backsliding amid heavy pressure from industry.

Congressional Democrats did not wait for Interior to finish its fracking rule before firing off their own efforts to rein in oil and gas development. Environmentalists cheered Thursday’s introduction of five House bills on the topic, including a proposal to close the so-called Halliburton loophole, a 2005 amendment that prohibits EPA from regulating most fracking activity under the Safe Drinking Water Act. Sen. Bob Casey (D-Pa.) has also reintroduced that bill in the Senate.

### **Interior Department Releases Final Rule to Support Safe, Responsible Hydraulic Fracturing Activities on Public and Tribal Lands**

*Fundamental Standards Address Well Integrity, Water Protection, Disclosure of Chemicals*

**WASHINGTON, D.C.** – Following a robust and transparent public process that included more than 1.5 million public comments, Secretary of the Interior Sally Jewell today released final standards that will support safe and responsible hydraulic fracturing on public and American Indian lands. The commonsense standards will improve safety and help protect groundwater by updating requirements for well-bore integrity, wastewater disposal and public disclosure of chemicals.

There are more than 100,000 oil and gas wells on federally managed lands. Of wells currently being drilled, over 90 percent use hydraulic fracturing. The rule applies only to development on public and tribal lands and includes a process so that states and tribes may request variances from provisions for which they have an equal or more protective regulation in place. This will avoid duplication while enabling the development of more protective standards by state and tribal governments. Today's final rule is a major step in the Department of the Interior's agenda to support a balanced, prosperous energy future. Other reforms will also include important measures to target where oil and gas leasing occurs and protect sensitive areas that are too special to drill.

"Current federal well-drilling regulations are more than 30 years old and they simply have not kept pace with the technical complexities of today's hydraulic fracturing operations," Secretary Jewell said. "This updated and strengthened rule provides a framework of safeguards and disclosure protocols that will allow for the continued responsible development of our federal oil and gas resources. As we continue to offer millions of acres of public lands for conventional and renewable energy production, it is absolutely critical the public have confidence that transparent and effective safety and environmental protections are in place."

Key components of the rule, which will take effect in 90 days include:

- Provisions for ensuring the protection of groundwater supplies by requiring a validation of well integrity and strong cement barriers between the wellbore and water zones through which the wellbore passes;
- Increased transparency by requiring companies to publicly disclose chemicals used in hydraulic fracturing to the Bureau of Land Management through the website FracFocus, within 30 days of completing fracturing operations;
- Higher standards for interim storage of recovered waste fluids from hydraulic fracturing to mitigate risks to air, water and wildlife;
- Measures to lower the risk of cross-well contamination with chemicals and fluids used in the fracturing operation, by requiring companies to submit more detailed information on the geology, depth, and location of preexisting wells to afford the BLM an opportunity to better evaluate and manage unique site characteristics.

“This rule will protect public health and the environment during and after hydraulic fracturing operations at a modest cost while both respecting the work previously done by the industry, the states and the tribes and promoting the adoption of more protective standards across the country,” said Assistant Secretary for Land and Minerals Management Janice Schneider. “It will be implemented in the most efficient way possible to avoid duplication or unnecessary activities by industry, other regulators, or BLM staff. We know how important it is to get this right.”

The new rule is the culmination of four years of extensive public involvement to bring onshore oil and gas drilling regulations into the 21st century. The BLM published both a draft rule and a supplemental draft rule, held regional forums and numerous stakeholder meetings on the proposal and reviewed more than 1.5 million public comments.

BLM staff studied state and tribal regulations and consulted with state and tribal regulators, industry, environmental experts, and the public, including communities affected by oil and gas operations. In many instances, provisions in the new rule are similar to or based on existing state or tribal rules and industry best practices. The result of this careful consultation is a rule that will enhance environmental protection in a thoughtful and cost-effective way. BLM estimates the new rule will cost less than one-fourth of 1 percent of the cost of drilling a well, based on the Energy Information Administration’s average per well cost of \$5.4 million.

“This rule was informed and shaped by the technical expertise, interests and concerns of all of our partners, and builds on the work of states and tribes to ensure best practices on a nationwide basis,” said BLM Director Neil Kornze. “The new regulations are essential to our mutual efforts to protect the environment and the communities that depend on vital water, land and wildlife resources. This rule is good government.”

The BLM oversees about 700 million subsurface acres of federal mineral estate and carries out regulatory duties of the Secretary of the Interior for an additional 56 million acres of Indian mineral estate across the United States. The Indian Mineral Leasing Act and other laws require that Indian lands and communities have the same protections as U.S. public lands.

## **Interior Department Releases Final Rule to Support Safe, Responsible Hydraulic Fracturing Activities on Public and Tribal Lands**

*Fundamental Standards Address Well Integrity, Water Protection, Disclosure of Chemicals*

**WASHINGTON, D.C.** – Following a robust and transparent public process that included more than 1.5 million public comments, Secretary of the Interior Sally Jewell today released final standards that will support safe and responsible hydraulic fracturing on public and American Indian lands. The commonsense standards will improve safety and help protect groundwater by updating requirements for well-bore integrity, wastewater disposal and public disclosure of chemicals.

There are more than 100,000 oil and gas wells on federally managed lands. Of wells currently being drilled, over 90 percent use hydraulic fracturing. The rule applies only to development on public and tribal lands and includes a process so that states and tribes may request variances from provisions for which they have an equal or more protective regulation in place. This will avoid duplication while enabling the development of more protective standards by state and tribal governments. Today's final rule is a major step in the Department of the Interior's agenda to support a balanced, prosperous energy future. Other reforms will also include important measures to target where oil and gas leasing occurs and protect sensitive areas that are too special to drill.

"Current federal well-drilling regulations are more than 30 years old and they simply have not kept pace with the technical complexities of today's hydraulic fracturing operations," Secretary Jewell said. "This updated and strengthened rule provides a framework of

safeguards and disclosure protocols that will allow for the continued responsible development of our federal oil and gas resources. As we continue to offer millions of acres of public lands for conventional and renewable energy production, it is absolutely critical the public have confidence that transparent and effective safety and environmental protections are in place.”

Key components of the rule, which will take effect in 90 days include:

- Provisions for ensuring the protection of groundwater supplies by requiring a validation of well integrity and strong cement barriers between the wellbore and water zones through which the wellbore passes;
- Increased transparency by requiring companies to publicly disclose chemicals used in hydraulic fracturing to the Bureau of Land Management through the website FracFocus, within 30 days of completing fracturing operations;
- Higher standards for interim storage of recovered waste fluids from hydraulic fracturing to mitigate risks to air, water and wildlife;
- Measures to lower the risk of cross-well contamination with chemicals and fluids used in the fracturing operation, by requiring companies to submit more detailed information on the geology, depth, and location of preexisting wells to afford the BLM an opportunity to better evaluate and manage unique site characteristics.

“This rule will protect public health and the environment during and after hydraulic fracturing operations at a modest cost while both respecting the work previously done by the industry, the states and the tribes and promoting the adoption of more protective standards across the country,” said Assistant Secretary for Land and Minerals Management Janice Schneider. “It will be implemented in the most efficient way possible to avoid duplication or unnecessary activities by industry, other regulators, or BLM staff. We know how important it is to get this right.”

## **Markey: Senate GOP Shouldn't Block Fracking Rule**

*Protections should be improved, but not scrapped, says Senator*

WASHINGTON (March 20, 2015) – Senator Edward J. Markey (D-Mass.) today said that Senate Republicans should not seek to eradicate the new rules on hydraulic fracturing practices on public lands, but rather work to improve the standards from its current form, which does not fully protect public health and the environment. The final rules governing the drilling of oil and natural gas on public and tribal lands in America released today by the Department of Interior include suggestions made by Senator Markey and his colleagues in a [letter](#) sent in September, 2014, but does not go far enough on prior disclosure of chemicals before operations begin, and other concerns. Senate Republicans introduced a bill to completely overturn the rules.

**Senator Markey, who is a member of the Environment and Public Works Committee, released the following statement:**

“The Interior Department’s final hydraulic fracturing rule makes some important improvements that had been recommended by me and my Senate colleagues from earlier versions of the rule. However, I still remain concerned that this rule does not go as far as it could to protect public health and the environment.

“We should be leading the way on our public lands in putting forward the strongest possible regulations to protect the safety of workers, the environment and the American people.

“Unlike my Senate Republican colleagues, I don’t think that scrapping these rules and returning to the status quo is the right way to go. The rules governing these modern drilling practices were woefully out of date, and allowing companies to drill on public lands without improvements in safety would be turning a blind eye to the dangers of fracking when left unchecked.

“I will continue working with the administration and my colleagues in the Senate to ensure that we put in place the highest levels of protections for fracking activities on public lands.”

- Increased transparency by requiring companies to publicly disclose chemicals used in hydraulic fracturing to the Bureau of Land Management through the website FracFocus, within 30 days of completing fracturing operations;
- Higher standards for interim storage of recovered waste fluids from hydraulic fracturing to mitigate risks to air, water and wildlife;
- Measures to lower the risk of cross-well contamination with chemicals and fluids used in the fracturing operation, by requiring companies to submit more detailed information on the geology, depth, and location of preexisting wells to afford the BLM an opportunity to better evaluate and manage unique site characteristics.

“This rule will protect public health and the environment during and after hydraulic fracturing operations at a modest cost while both respecting the work previously done by the industry, the states and the tribes and promoting the adoption of more protective standards across the country,” said Assistant Secretary for Land and Minerals Management Janice Schneider. “It will be implemented in the most efficient way possible to avoid duplication or unnecessary activities by industry, other regulators, or BLM staff. We know how important it is to get this

right.”

The new rule is the culmination of four years of extensive public involvement to bring onshore oil and gas drilling regulations into the 21st century. The BLM published both a draft rule and a supplemental draft rule, held regional forums and numerous stakeholder meetings on the proposal and reviewed more than 1.5 million public comments.

BLM staff studied state and tribal regulations and consulted with state and tribal regulators, industry, environmental experts, and the public, including communities affected by oil and gas operations. In many instances, provisions in the new rule are similar to or based on existing state or tribal rules and industry best practices. The result of this careful consultation is a rule that will enhance environmental protection in a thoughtful and cost-effective way. BLM estimates the new rule will cost less than one-fourth of 1 percent of the cost of drilling a well, based on the Energy Information Administration’s average per well cost of \$5.4 million.

“This rule was informed and shaped by the technical expertise, interests and concerns of all of our partners, and builds on the work of states and tribes to ensure best practices on a nationwide basis,” said BLM Director Neil Kornze. “The new regulations are essential to our mutual efforts to protect the environment and the communities that depend on vital water, land and wildlife resources. This rule is good government.”

The BLM oversees about 700 million subsurface acres of federal mineral estate and carries out regulatory duties of the Secretary of the Interior for an additional 56 million acres of Indian mineral estate across the United States. The Indian Mineral Leasing Act and other laws require that Indian lands and communities have the same protections as U.S. public lands.

### **Interior Department Releases Final Rule to Support Safe, Responsible Hydraulic Fracturing Activities on Public and Tribal Lands**

*Fundamental Standards Address Well Integrity, Water Protection, Disclosure  
of Chemicals*

**WASHINGTON, D.C.** – Following a robust and transparent public process that included more than 1.5 million public comments, Secretary of the Interior Sally Jewell today released final standards that will support safe and responsible hydraulic fracturing on public and American Indian lands. The commonsense standards will improve safety and help protect groundwater by updating requirements for well-bore integrity, wastewater disposal and public disclosure of chemicals.

There are more than 100,000 oil and gas wells on federally managed lands. Of wells currently being drilled, over 90 percent use hydraulic fracturing. The rule applies only to development on public and tribal lands and includes a process so that states and tribes may request variances from provisions for which they have an equal or more protective regulation in place. This will avoid duplication while enabling the development of more protective standards by state and tribal governments. Today's final rule is a major step in the Department of the Interior's agenda to support a balanced, prosperous energy future.

Other reforms will also include important measures to target where oil and gas leasing occurs and protect sensitive areas that are too special to drill.

“Current federal well-drilling regulations are more than 30 years old and they simply have not kept pace with the technical complexities of today’s hydraulic fracturing operations,” Secretary Jewell said. “This updated and strengthened rule provides a framework of safeguards and disclosure protocols that will allow for the continued responsible development of our federal oil and gas resources. As we continue to offer millions of acres of public lands for conventional and renewable energy production, it is absolutely critical the public have confidence that transparent and effective safety and environmental protections are in place.”

Key components of the rule, which will take effect in 90 days include:

- Provisions for ensuring the protection of groundwater supplies by requiring a validation of well integrity and strong cement barriers between the wellbore and water zones through which the wellbore passes;
- Increased transparency by requiring companies to publicly disclose chemicals used in hydraulic fracturing to the Bureau of Land Management through the website FracFocus, within 30 days of completing fracturing operations;
- Higher standards for interim storage of recovered waste fluids from hydraulic fracturing to mitigate risks to air, water and wildlife;
- Measures to lower the risk of cross-well contamination with chemicals and fluids used in the fracturing operation, by requiring companies to submit more detailed information on the geology, depth, and location of preexisting wells to afford the BLM an opportunity to better evaluate and manage unique site characteristics.

“This rule will protect public health and the environment during and after hydraulic fracturing operations at a modest cost while both respecting the work previously done by the industry, the states and the tribes and promoting the adoption of more protective standards across the country,” said Assistant Secretary for Land and Minerals Management Janice Schneider. “It will be implemented in the most efficient way possible to avoid duplication or unnecessary activities by industry, other regulators, or BLM staff. We know how important it is to get this right.”

The new rule is the culmination of four years of extensive public involvement to bring onshore oil and gas drilling regulations into the 21st century. The BLM published both a draft rule and a supplemental draft rule, held regional forums and numerous stakeholder

meetings on the proposal and reviewed more than 1.5 million public comments.

BLM staff studied state and tribal regulations and consulted with state and tribal regulators, industry, environmental experts, and the public, including communities affected by oil and gas operations. In many instances, provisions in the new rule are similar to or based on existing state or tribal rules and industry best practices. The result of this careful consultation is a rule that will enhance environmental protection in a thoughtful and cost-effective way. BLM estimates the new rule will cost less than one-fourth of 1 percent of the cost of drilling a well, based on the Energy Information Administration's average per well cost of \$5.4 million.

“This rule was informed and shaped by the technical expertise, interests and concerns of all of our partners, and builds on the work of states and tribes to ensure best practices on a nationwide basis,” said BLM Director Neil Kornze. “The new regulations are essential to our mutual efforts to protect the environment and the communities that depend on vital water, land and wildlife resources. This rule is good government.”

The BLM oversees about 700 million subsurface acres of federal mineral estate and carries out regulatory duties of the Secretary of the Interior for an additional 56 million acres of Indian mineral estate across the United States. The Indian Mineral Leasing Act and other laws require that Indian lands and communities have the same protections as U.S. public lands.

---

Dear Rebecca,

Thank you for fielding my telephone call a few minutes ago. Below you will find the communication sent from Congressman Pierluisi's constituent, Mr. Tomás Torres, who is the de facto secretariat if you will for Puerto Rico's Multisector Energy Leadership Group composed of representatives from the territory's manufacturers association, retailers, education system, etc.

Mr. Torres will be attending the Caribbean Clean Energy Technology Symposium (CCETS) in STT, USVI tomorrow and Thursday. In fact, he has working relationship in both Puerto Rico and the USVI.

The Puerto Rico Manufacturers Association (PRMA) is hosting a forum on competitiveness and energy on April 30<sup>th</sup> in Puerto Rico. See the attached invitation letter that was sent to the DOI Secretary's office. Given OIA will be implementing, either by default or delegation from the Secretary, the *FY2015 Consolidated Appropriations Act* (CROmnibus) language directing DOI to develop an energy action plan for the territories, including Puerto Rico, the PRMA and multisector group would greatly appreciate DOI engagement and participation in the April 30<sup>th</sup> event. DOI attendees—perhaps AS Kia'aina, yourself and/or Mr. Brown—could give an overview of how the NREL partnership has worked for AS, Guam, and the CNMI, and the EDIN engagement for the USVI. This would be a model to apply for PR and its electric utility, PREPA, through engagement with the multisector group. The group and the PRMA are looking to open dialogue and here directly from DOI about what the possibilities of partnership with DOE/NREL entail.

Thanks for vetting this with your colleagues at OIA and with the Assistant Secretary for decision and feedback.

I've attached all the relevant documents—the FY2015 appropriations provision, the underlying law it references, and the MOU that was recently entered into by the Secretary of Energy with the Governor of Puerto Rico that is based on the Hawaii Clean Energy MOU.

Atentamente,  
Jed

**Subject:** Comprehensive Energy Plan for Puerto Rico

Mr. Pula,

Thanks so much for your time during conversation today (Friday march 20<sup>th</sup>), in regards to the requirements of H.R. 83-113 Section 9, to develop a Comprehensive Energy Plan for Puerto Rico.

Puerto Rico is an industrial island, similar to other industrial island as Irelands and Singapore. Its current Gross Domestic Product (GDP) is approximately \$103 billion and the National Gross Product \$70 billion. Out of the \$103 billion of the GDP, \$48 billion (or 47%) are related to manufacturing , the rest of the GDP is related to service provision.

From 2005 to present Puerto Rico had experimented a severe decline in economic growth. There had been many factors, one of those being the increase in energy cost. In year 2000 the average energy cost was \$0.112 KW-h, in year 2013 the average energy cost was \$0.26 kw-h, with a peak value of \$0.31 kw-hr.

The decline in the economy has resulted in an equal decline in the demand of energy. From 2005 to 2013 Energy demands in Puerto Rico has decreased form 20,805 GW-hr to 17,792 GW-h, equivalent to -14.5. In the manufacturing sector the demand decreased from 4,257.6 GW-h in 2005 to 2,504.1 GW-h in 2013, equivalent to -41.2%.

Most generation units of the Puerto Rico Electrical Authority (PREPA) are old thermal units depending on oil, mostly built in the 1960's and 1970's. Due to the lack of flexibility to react to changes in demand, those units are incompatible with renewable energy generation sources, such as photovoltaic panels and wind generators. As of today PREPA counts with approximately 143 MW, from renewable energy sources (with additional projects adding 20 MW, currently in commissioning), out of a total generation capacity of near 5,000 MW, equivalent to approximately 3%.

The above resulted that last year PREPA entered in a forbearance agreement with its bondholders. Currently PREPA is going through a restructuring process leaded by a Chief Restructuring Officer (CRO) designated by the bondholders as part of a confidentiality agreement.

Notwithstanding the above, in May 27, 2014 the Puerto Rico Energy Transformation and RELIEF Act (Act-57-2014) was approved. This Act provide a new framework for energy generation in Puerto Rico by creating within other endeavors the Puerto Rico Energy Commission (PREC). The PREC is an specialized independent regulatory entity created to oversee and enforce the public policy on energy of the Commonwealth of Puerto Rico. However, although in operation the PREC has not completed all of its rules and regulations, with the effect of paralyzing the countdown for the implementation of important requirements of Act 57. Important issues as Wheeling, New Billing Process, Net Metering and Interconnection of Distributed Generators are either delayed or without a clear time definition.

In addition, in July 19, 2010 the Public Policy on Energy Diversification by Means of Sustainable and Alternative Renewable Energy in Puerto Rico Act (Act-82-2010) was approved. This act required mandatory percentages of sustainable renewable energy to be produced in Puerto Rico. In

summary, the Act establish requirements of 12% between 2015 to 2019; 15% between 2020 to 2027 and a progressive plan between 2028 to 2035 to achieve 20% in 2035 (measured as a percentage of megawatt-hours (MW-h), sold by the retail electricity supplier during the same calendar year). Currently this percentage is barely 3%.

Within that scenario, in October 29<sup>th</sup>, 2014 the Department of Energy (DOE) and the Government of Puerto Rico signed an agreement, to provide a framework for an ongoing Commonwealth-wide effort to realize Puerto Rico's vision for a modern, sustainable, energy infrastructure. Later in December 2014 the H.R.83-113 was approved requiring to the Department of the Interior (DOI) to develop a Comprehensive Energy Plan for Puerto Rico.

As a result of a high concern on this matter, last year organizations from the non-governmental sector, comprised a Multi-Sector Leadership Group (MSLG) to address the energy reform in Puerto Rico. The MSLG is comprised of Puerto Rico's industrial, commercial, academic, environmental and community sectors, enrolling into a collaborative agreement to address the aforementioned energy reform. Attached to this letter please find copy of this agreement.

Since organized, the MSLG have been involved in meetings with PREPA and DOE officials. As a continuance of such efforts on April 30<sup>th</sup>, 2015 the Puerto Rico Manufacturers Association (PRMA) will provide as main theme for the Annual Competitiveness Forum, the subject of Energy Reform; there being a broad consensus that it is the best opportunity for Puerto Rico to regain competitiveness and economic growth. The idea is not just to have a one day forum but to convene during that week state and federal agencies and departments related to the energy situation in Puerto Rico so a broad and participative discussion comprising different sectors of our society can take place. In regards to federal agencies and departments, were invite the DOE, the DOI and the Environmental Protection Agency (EPA). Included please find copy of invitation sent to DOI.

We have great expectation for such event and the process that will follow, counting with yours, Assistant Secretary Kia'aina and, Secretary Jewell support, so a broad discussion on this subject can be initiated, moving towards a modern, sustainable, energy infrastructure in Puerto Rico.

Sincerely,

Tomas Torres

February 12, 2015

Hon. Sally Jewell  
Secretary of the Interior  
Department of the Interior  
1849 C Street, N.W.  
Washington DC 20240

Dear Secretary Jewell:

On April 30th, 2015 the Puerto Rico Manufacturers Association (PRMA) will celebrate our Annual Competiveness Forum, in San Juan, Puerto Rico. The forum's main focus will be the subject of energy reform; there being a broad consensus that it is the best opportunity for Puerto Rico to regain competitiveness and economic growth.

PRMA is Puerto Rico's principal private sector association and for more than 85 years has led the economic and industrial development of our country. We are committed to strengthening the industrial and entrepreneurial culture in order to advance the competitiveness of our members and stimulate the economic and social well-being of the country.

Recent developments, like the inclusion of Puerto Rico in the Comprehensive Energy Plan to be developed and implemented by the Department of the Interior (Section 9 of the 2015 Appropriations Act, H.R. 83 - 113); and the signing in October 29th, 2014 of the MOU between the Government of Puerto Rico and the Department of Energy (DOE), awaits a clarification of objectives and an implementation calendar.

The Department of the Interior (DOI) officials will be enthusiastic to know about the organization of a non-governmental leadership group comprised of Puerto Rico's industrial, commercial, academic, environmental and community sectors, enrolling into a collaborative agreement to address the aforementioned energy reform. Attached to this letter please find copy of this agreement.

We look forward to welcome you in our forum, and count with your direct collaboration as part of this crucial time in our history. Please let us know of any additional information that you may need, regarding the magnitude of this problem in relation to our economy, to the environment and to our society, so we can respond with the sense of urgency this situation requires.

Yours sincerely,

Carlos Rivera-Vélez, PhD  
PRMA President

C: Hon. Alejandro Garcia Padilla  
Hon. Pedro Pierluisi

**MEMORANDUM OF UNDERSTANDING BETWEEN  
THE PUERTO RICO MULTI-SECTOR LEADERSHIP GROUP AND  
THE U.S. DEPARTMENT OF ENERGY FOR  
A BROAD CONSENSUS ON ACTION AND GOVERNANCE OF A CLEAN AND EFFICIENT  
ELECTRIC ENERGY SYSTEM AND LOCAL ENERGY INDUSTRY  
IN PUERTO RICO**

In accordance with the Memorandum of Understanding between the Commonwealth of Puerto Rico and the U.S. Department of Energy dated October 29, 2014, specific solutions that improve Puerto Rico's electric generation, distribution and commercial system must be developed meeting the overarching goals of transparency, efficiency, public interest and citizen participation.

The undersigned, a Local Multi-Sector Leadership Group comprised of locally established and leading independent Non-Governmental Organizations in the private environmental, commercial, industrial and institutional sectors is ready to contribute per Section III. C. of the MOU's goals:

- 1) The development of technical, workforce, and institutional resources necessary to realize the purpose of the MOU.
- 2) Identify, coordinate and maintain collaborative working relationships with other key local stakeholders for implementation of the MOU.
- 3) Identify and lead processes required to fulfill the purpose of the MOU, including drafting and implementing policies necessary to demonstrate and foster the leadership contemplated by the MOU.
- 4) Designate government and private sector institutional leads to agree on near- and medium-term opportunities for collaboration to further the Commonwealth's goal of promoting economic competitiveness by reducing its dependence on imported fuel and building energy sector institutional capacity, including implementing the Commonwealth's recent energy sector reform legislation; and to take action to realize the benefits of the opportunities identified in the MOU.
- 5) Involve the public, academic community, private sector, and public officials in achieving MOU goals and objectives.

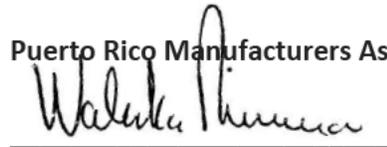

The aim of the Multi-Sector Leadership Group is to streamline the private sector consensus building process, establishing a direct line of communication with the DOE in its role as convener, technical expert and high credibility institution independent from the traditional local public monopoly governance model that has created and nurtured an unsustainable electrical system now subject to the evaluation of a Chief Restructuring Officer, under the confidential process the utility monopoly and the local government traditionally utilize.

The Multi-Sector Leadership Group and the DOE acknowledge that this memorandum of understanding shall not be construed to create any legal obligation on the part of either party, nor a private right or cause of action for or by any person or entity; and can be terminated by either party at any time by providing notice in writing to the other party.

The parties herewith agree to this agreement freely and voluntarily, signed at Washington, this \_\_\_\_\_ day of November, 2014.

The Puerto Rico Multi-Sector Leadership:

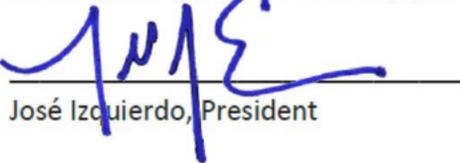

**Puerto Rico Manufacturers Association**

  
Waleska Rivera, President

# One Hundred Thirteenth Congress of the United States of America

AT THE SECOND SESSION

*Began and held at the City of Washington on Friday,  
the third day of January, two thousand and fourteen*

## An Act

Making consolidated appropriations for the fiscal year ending September 30, 2015,  
and for other purposes.

*Be it enacted by the Senate and House of Representatives of  
the United States of America in Congress assembled,*

### SECTION 1. SHORT TITLE.

This Act may be cited as the “Consolidated and Further Continuing Appropriations Act, 2015”.

### SEC. 2. TABLE OF CONTENTS.

The table of contents of this Act is as follows:

- Sec. 1. Short title.
- Sec. 2. Table of contents.
- Sec. 3. References.
- Sec. 4. Explanatory statement.
- Sec. 5. Statement of appropriations.
- Sec. 6. Availability of funds.
- Sec. 7. Technical allowance for estimating differences.
- Sec. 8. Adjustments to compensation.
- Sec. 9. Study of electric rates in the insular areas.
- Sec. 10. Amendments to the Consolidated Natural Resources Act.
- Sec. 11. Payments in lieu of taxes.

#### DIVISION A—AGRICULTURE, RURAL DEVELOPMENT, FOOD AND DRUG ADMINISTRATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2015

- Title I—Agricultural Programs
- Title II—Conservation Programs
- Title III—Rural Development Programs
- Title IV—Domestic Food Programs
- Title V—Foreign Assistance and Related Programs
- Title VI—Related Agency and Food and Drug Administration
- Title VII—General Provisions
- Title VIII—Ebola Response and Preparedness

#### DIVISION B—COMMERCE, JUSTICE, SCIENCE, AND RELATED AGENCIES APPROPRIATIONS ACT, 2015

- Title I—Department of Commerce
- Title II—Department of Justice
- Title III—Science
- Title IV—Related Agencies
- Title V—General Provisions
- Title VI—Travel Promotion, Enhancement, and Modernization Act of 2014
- Title VII—Revitalize American Manufacturing and Innovation Act of 2014

#### DIVISION C—DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2015

- Title I—Military Personnel
- Title II—Operation and Maintenance
- Title III—Procurement
- Title IV—Research, Development, Test and Evaluation
- Title V—Revolving and Management Funds

**SEC. 5. STATEMENT OF APPROPRIATIONS.**

The following sums in this Act are appropriated, out of any money in the Treasury not otherwise appropriated, for the fiscal year ending September 30, 2015.

**SEC. 6. AVAILABILITY OF FUNDS.**

(a) Each amount designated in this Act by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985 shall be available only if the President subsequently so designates all such amounts and transmits such designations to the Congress.

(b) Each amount designated in this Act by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985 shall be available (or rescinded, if applicable) only if the President subsequently so designates all such amounts and transmits such designations to the Congress.

**SEC. 7. TECHNICAL ALLOWANCE FOR ESTIMATING DIFFERENCES.**

If, for fiscal year 2015, new budget authority provided in appropriations Acts exceeds the discretionary spending limit for any category set forth in section 251(c) of the Balanced Budget and Emergency Deficit Control Act of 1985 due to estimating differences with the Congressional Budget Office, an adjustment to the discretionary spending limit in such category for fiscal year 2015 shall be made by the Director of the Office of Management and Budget in the amount of the excess but the total of all such adjustments shall not exceed 0.2 percent of the sum of the adjusted discretionary spending limits for all categories for that fiscal year.

**SEC. 8. ADJUSTMENTS TO COMPENSATION.**

Notwithstanding any other provision of law, no adjustment shall be made under section 610(a) of the Legislative Reorganization Act of 1946 (2 U.S.C. 31) (relating to cost of living adjustments for Members of Congress) during fiscal year 2015.

**SEC. 9. STUDY OF ELECTRIC RATES IN THE INSULAR AREAS.**

(a) DEFINITIONS.—In this section:

(1) COMPREHENSIVE ENERGY PLAN.—The term “comprehensive energy plan” means a comprehensive energy plan prepared and updated under subsections (c) and (e) of section 604 of the Act entitled “An Act to authorize appropriations for certain insular areas of the United States, and for other purposes”, approved December 24, 1980 (48 U.S.C. 1492).

(2) ENERGY ACTION PLAN.—The term “energy action plan” means the plan required by subsection (d).

(3) FREELY ASSOCIATED STATES.—The term “Freely Associated States” means the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau.

(4) INSULAR AREAS.—The term “insular areas” means American Samoa, the Commonwealth of the Northern Mariana Islands, Puerto Rico, Guam, and the Virgin Islands.

(5) SECRETARY.—The term “Secretary” means the Secretary of the Interior.

(6) TEAM.—The term “team” means the team established by the Secretary under subsection (b).

(b) ESTABLISHMENT.—Not later than 180 days after the date of enactment of this Act, the Secretary shall, within the Empowering

Insular Communities activity, establish a team of technical, policy, and financial experts—

(1) to develop an energy action plan addressing the energy needs of each of the insular areas and Freely Associated States; and

(2) to assist each of the insular areas and Freely Associated States in implementing such plan.

(c) PARTICIPATION OF REGIONAL UTILITY ORGANIZATIONS.—In establishing the team, the Secretary shall consider including regional utility organizations.

(d) ENERGY ACTION PLAN.—In accordance with subsection (b), the energy action plan shall include—

(1) recommendations, based on the comprehensive energy plan where applicable, to—

(A) reduce reliance and expenditures on fuel shipped to the insular areas and Freely Associated States from ports outside the United States;

(B) develop and utilize domestic fuel energy sources; and

(C) improve performance of energy infrastructure and overall energy efficiency;

(2) a schedule for implementation of such recommendations and identification and prioritization of specific projects;

(3) a financial and engineering plan for implementing and sustaining projects; and

(4) benchmarks for measuring progress toward implementation.

(e) REPORTS TO SECRETARY.—Not later than 1 year after the date on which the Secretary establishes the team and annually thereafter, the team shall submit to the Secretary a report detailing progress made in fulfilling its charge and in implementing the energy action plan.

(f) ANNUAL REPORTS TO CONGRESS.—Not later than 30 days after the date on which the Secretary receives a report submitted by the team under subsection (e), the Secretary shall submit to the appropriate committees of Congress a summary of the report of the team.

(g) APPROVAL OF SECRETARY REQUIRED.—The energy action plan shall not be implemented until the Secretary approves the energy action plan.

**SEC. 10. AMENDMENTS TO THE CONSOLIDATED NATURAL RESOURCES ACT.**

Section 6 of Public Law 94–241 (90 Stat. 263; 122 Stat. 854) is amended—

(1) in subsection (a)(2), by striking “December 31, 2014, except as provided in subsections (b) and (d)” and inserting “December 31, 2019”; and

(2) in subsection (d)—

(A) in the third sentence of paragraph (2), by striking “not to extend beyond December 31, 2014, unless extended pursuant to paragraph 5 of this subsection” and inserting “ending on December 31, 2019”;

(B) by striking paragraph (5); and

(C) by redesignating paragraph (6) as paragraph (5).

48 1492 text contains those laws in effect on March 1, 2015

48 CHA 10 OVI O A ANA

1492

(a) The Congress finds that

(1) the Caribbean and Pacific island areas of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, the Federated States of Micronesia, the Marshall Islands, and Palau are virtually completely dependent on imported sources of energy;

(2) the dependence of such areas on imported sources of energy combined with the increased cost and the uncertain availability and supply of such sources of energy will continue to frustrate the political, social, and economic development of such areas because of increased severe fiscal burdens on the local governments of these areas;

(3) these island areas are endowed with a variety of renewable sources of energy which, if developed, would alleviate their dependence on imported sources of energy, relieve the fiscal burdens on local governments imposed by the costs of imported fuel, and strengthen the base for political, social, and economic development;

(4) appropriate technologies are presently available to develop the renewable energy resources of these island areas but that comprehensive energy plans have not been adequately developed to meet the energy demands of these areas from renewable energy resources;

(5) electric power transmission and distribution lines in island areas are inadequate to withstand damage caused by the hurricanes and typhoons which frequently occur in island areas and such damage often costs millions of dollars to repair; and

(6) the refinement of renewable energy technologies since the publication of the 1982 Territorial Energy Assessment prepared pursuant to subsection (c) of this section reveals the need to reassess the state of energy production, consumption, infrastructure, reliance on imported energy, opportunities for energy conservation and increased energy efficiency, and indigenous sources in regard to the island areas.

(b) The Congress declares that it is the policy of the Federal Government to

(1) develop the renewable energy resources of the Caribbean and Pacific island areas of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, the Federated States of Micronesia, the Marshall Islands, and Palau; and

(2) to assist other island areas in the Caribbean and Pacific Basin in the development of their renewable energy resources.

(c) The Secretary of Energy or any administrative official who may succeed him shall

prepare a comprehensive energy plan with emphasis on indigenous renewable sources of energy for Puerto Rico, the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, the Federated States of Micronesia, the Marshall Islands, and Palau. The plan shall be prepared with the approval of the Secretary of the Interior and in cooperation with the chief executive officer of each island area but

(1) serve existing sources and uses of energy;

(2) estimate future energy needs to the year 2020, given due consideration to a range of economic development possibilities;

(3) assess, in depth, the availability and potential for development of indigenous energy sources, including solar, wind, hydro, geothermal, ocean current and tidal, biomass, biofuel, geothermal and ocean thermal energy conversion;

(4) assess the mix of energy sources (including fossil fuels) and identify those technologies that are needed to meet the projected demands for energy; and

(5) draft long-term energy plans for such island areas with the objective of minimizing their reliance on energy imports and maximizing maximum use of their indigenous energy resources.

(d) The Secretary of Energy or any administrative official who may succeed him, with the approval of the Secretary of the Interior, as part

of the comprehensive energy plan may demonstrate those indigenous renewable energy technologies which are determined to be most cost effective through the use of existing programs and maximum implementation of projects or programs contained in recommendations of the plan.

(e) The Secretary of the Interior, in consultation with the Secretary of Energy and the head of government of each island area, shall

update the plans required under subsection (c) of this section but

(A) update the contents required by subsection (c) of this section;

(B) draft long-term energy plans for such island areas with the objective of reducing, to the extent feasible, their reliance on energy imports by the year 2012, increasing energy conservation and energy efficiency, and maximizing, to the extent feasible, use of indigenous energy sources; and

(C) draft long-term energy transmission line plans for such island areas with the objective that the maximum percentage feasible of electric power transmission and distribution lines in each island area be protected from damage caused by hurricanes and

thoos.

(2) In carrying out this subsection, the Secretary of Energy shall identify and evaluate the strategies or projects with the greatest potential for reducing the dependence on imported fossil fuels as used for the generation of electricity, including strategies and projects for

- (A) improved systems and efficiency of centralized electrical generation, transmission, and distribution systems;
- (B) improved demand-side management through
  - (i) the application of established standards for energy efficiency for appliances;
  - (ii) the conduct of energy audits for business and industrial customers; and
  - (iii) the use of energy savings performance contracts;
- (C) increased use of renewable energy, including
  - (i) solar thermal energy for electric generation;
  - (ii) solar thermal energy for water heating in large buildings, such as hotels, hospitals, government buildings, and residences;
  - (iii) photovoltaic energy;
  - (iv) wind energy;
  - (v) hydroelectric energy;
  - (vi) wave energy;
  - (vii) energy from ocean thermal resources, including ocean thermal cooling for commercial air conditioning;
  - (viii) water vapor condensation for the production of potable water;
  - (ix) fossil fuel and renewable hybrid electrical generation systems; and
  - (x) other strategies or projects that the Secretary may identify as having significant potential; and
- (D) fuel substitution and mitigation with hydrocarbons biofuels, such as coconut oil.

(3) In carrying out this subsection, for each insular area with a significant need for distributed generation, the Secretary of Energy shall identify and evaluate the most promising strategies and projects described in subparagraphs (C) and (D) of paragraph (2) for meeting that need.

(4) In assessing the potential of a strategy or project under paragraphs (2) and (3), the Secretary of Energy shall consider

- (A) the estimated cost of the power or energy to be produced, including
  - (i) any additional costs associated with the distribution of the generation; and
  - (ii) the long-term availability of the generation source;
- (B) the capacity of the local electrical utility to manage, operate, and maintain a project that may be undertaken; and
- (C) other factors the Secretary of Energy considers to be appropriate.

(5) Not later than 1 year after August 8, 2005, the Secretary of the Interior shall submit to the Committee on Energy and Natural Resources of the Senate, the Committee on Resources of the House of Representatives, and the Committee on Energy and Commerce of the House of Representatives, the updated plans for each insular area required by this subsection.

(j) [REDACTED]

There are hereby authorized to be appropriated such sums as may be necessary to carry out the purposes of this section.

(k) [REDACTED]

(1) The Secretary of Energy may grant financial assistance, not to exceed \$2,000,000 annually, to insular area governments or private sector persons or entities in cooperation with insular area governments to carry out projects to evaluate the feasibility of, develop options for, and encourage the adoption of energy efficiency and renewable energy measures which reduce the dependence of the insular areas on imported fuels, improve the quality of the environment, and promote development in the insular areas.

(2) Any application for financial assistance under this subsection must evidence coordination and cooperation with, and support from, the affected local energy institutions.

- (3) In determining the amount of financial assistance to be provided for a proposed project, the Secretary shall consider
  - (A) whether the measure will reduce the relative dependence of the insular area on imported fuels;
  - (B) the ease and costs of operation and maintenance of any facilities contemplated as a part of the project;
  - (C) whether the project will rely on the use of conservation measures or hydrocarbons, renewable energy resources that were identified in the 1982 Territorial Energy Assessment or that are identified by the Secretary as consistent with the purposes of this subsection;
  - (D) whether the measure will contribute significantly to development and the quality of the environment in the insular area; and
  - (E) any other factors which the Secretary may determine to be relevant to a particular project.

(4) [REDACTED]

(A) IN GENERAL. The Secretary of the Interior is authorized to make grants to governments of insular areas of the United States to carry out eligible projects to protect electric power transmission and distribution lines in such insular areas from damage caused by hurricanes and typhoons.

(B) ELIGIBLE PROJECTS. The Secretary of the Interior may award grants under subparagraph (A) only to governments of insular areas of the United States that submit written project plans to the Secretary for projects that meet the following criteria:

- (i) the project is designed to protect electric power transmission and distribution lines located in 1 or more of the insular areas of the United States from damage caused by hurricanes and typhoons.
- (ii) the project is likely to substantially reduce the risk of future damage, hardship, loss, or suffering.
- (iii) the project addresses 1 or more problems that have been repetitive or that pose a significant risk to public health and safety.
- (iv) the project is not likely to cost more than the value of the reduction in direct damage and other negative impacts that the project is designed to prevent or mitigate. The cost-benefit analysis required by this criterion shall be completed on a net present value basis.

(v) the project design has taken into consideration long-term changes to the areas and persons this design is intended to protect and has made a reasonable future maintenance and modification requirements.

(v) the project plan includes a analysis of a range of options to address the problem this design is intended to prevent or mitigate and a justification for the selection of the project in light of that analysis.

(v) the applicant has demonstrated to the Secretary that the match funds required by sub paragraph (D) are available.

(C) In order for the maximum grants under this paragraph, the Secretary of the Interior shall give priority to grants for projects which are likely to

- (i) have the greatest impact on reducing future disaster losses; and
- (ii) best conform with plans that have been approved by the Federal Government or the Government of the insular area where the project is to be carried out for development or hazard mitigation for that insular area.

(D) MATCHING REQUIREMENTS. The Federal share of the cost for a project for which a grant is provided under this paragraph shall not exceed 75 percent of the total cost of that project. The non-Federal share of the cost may be provided in the form of cash or services.

(i) AMOUNT AND COST SHARING. Grants provided under this paragraph shall not be considered as income, a resource, or a duplicative program when determining eligibility or benefit levels for Federal major disaster and emergency assistance.

(i) AUTHORITY AND ALLOCATION. There are authorized to be appropriated to carry out this paragraph \$6,000,000 for each fiscal year beginning after August 8, 2005.

(5) For the purposes of this subsection

(A) the term "insular area" means American Samoa, the Commonwealth of the Northern Mariana Islands, the Commonwealth of Puerto Rico, the Federated States of Micronesia, Guam, the Republic of the Marshall Islands, the Republic of Palau, and the Virgin Islands; and

(B) the term "1982 Territorial Census Assessment" means the comprehensive enumeration prepared by the Secretary of the Department of the Interior to subsection (c) of this section.

(Pub. L. 96-597, title VI, § 604, Dec. 24, 1980, 94 Stat. 3480; Pub. L. 98-213, § 7, Dec. 8, 1983, 97 Stat. 1460; Pub. L. 102-486, title VII, § 2701, Oct. 24, 1992, 106 Stat. 3118; Pub. L. 109-58, title II, § 251, Aug. 8, 2005, 119 Stat. 679.)

AMERICAN Samoa

August 8, 2005, referred to in subsecs. (e)(5) and (i)(4)(i), was the original "the date of enactment of this subsection" and "the date of enactment of this paragraph", respectively, and was translated as meaning the date of enactment of Pub. L. 109-58 which amended subsecs. (e) and (i)(4) generally, to reflect the probable intent of Congress.

MD

2005 subsec. (a)(5), (6). Pub. L. 109-58, § 251(1), (2), added pars. (5) and (6).

subsec. (e). Pub. L. 109-58, § 251(3), amended subsec. (e) generally prior to amendment, subsec. (e) read as follows: "In the two years from December 24, 1980, the Secretary of the Interior or an administrative official who may succeed him shall submit the comprehensive enumeration for each insular area to the Congress."

subsec. (i)(4). Pub. L. 109-58, § 251(4), amended par. (4) generally prior to amendment, par. (4) read as follows: "Notwithstanding the requirements of section 1469a(d) of this title, the Secretary shall require at least 20 percent of the costs of a project under this subsection to be provided from non-Federal sources. Each cost share may be in the form of donated services, donated equipment, or a combination thereof."

1992 subsec. (i). Pub. L. 102-486 added subsec. (i).

1983 subsec. (d). Pub. L. 98-213 inserted "and may implement a project or programs contained in recommendations of the plan".

Committee on Resources of House of Representatives

Committee on Resources of House of Representatives charged to Committee on Natural Resources of House of Representatives by House Resolution No. 6, One Hundred Eleventh Congress, Jan. 5, 2007.

PUBLIC LAW 109-58—AUG. 8, 2005

ENERGY POLICY ACT OF 2005

Public Law 109–58  
109th Congress

An Act

Aug. 8, 2005  
[H.R. 6]

Energy Policy Act  
of 2005.  
42 USC 15801  
note.

To ensure jobs for our future with secure, affordable, and reliable energy.

*Be it enacted by the Senate and House of Representatives of  
the United States of America in Congress assembled,*

**SECTION 1. SHORT TITLE; TABLE OF CONTENTS.**

(a) **SHORT TITLE.**—This Act may be cited as the “Energy Policy Act of 2005”.

(b) **TABLE OF CONTENTS.**—The table of contents for this Act is as follows:

Sec. 1. Short title; table of contents.

**TITLE I—ENERGY EFFICIENCY**

**Subtitle A—Federal Programs**

- Sec. 101. Energy and water saving measures in congressional buildings.
- Sec. 102. Energy management requirements.
- Sec. 103. Energy use measurement and accountability.
- Sec. 104. Procurement of energy efficient products.
- Sec. 105. Energy savings performance contracts.
- Sec. 106. Voluntary commitments to reduce industrial energy intensity.
- Sec. 107. Advanced Building Efficiency Testbed.
- Sec. 108. Increased use of recovered mineral component in federally funded projects involving procurement of cement or concrete.
- Sec. 109. Federal building performance standards.
- Sec. 110. Daylight savings.
- Sec. 111. Enhancing energy efficiency in management of Federal lands.

**Subtitle B—Energy Assistance and State Programs**

- Sec. 121. Low-income home energy assistance program.
- Sec. 122. Weatherization assistance.
- Sec. 123. State energy programs.
- Sec. 124. Energy efficient appliance rebate programs.
- Sec. 125. Energy efficient public buildings.
- Sec. 126. Low income community energy efficiency pilot program.
- Sec. 127. State Technologies Advancement Collaborative.
- Sec. 128. State building energy efficiency codes incentives.

**Subtitle C—Energy Efficient Products**

- Sec. 131. Energy Star program.
- Sec. 132. HVAC maintenance consumer education program.
- Sec. 133. Public energy education program.
- Sec. 134. Energy efficiency public information initiative.
- Sec. 135. Energy conservation standards for additional products.
- Sec. 136. Energy conservation standards for commercial equipment.
- Sec. 137. Energy labeling.
- Sec. 138. Intermittent escalator study.
- Sec. 139. Energy efficient electric and natural gas utilities study.
- Sec. 140. Energy efficiency pilot program.
- Sec. 141. Report on failure to comply with deadlines for new or revised energy conservation standards.

**Subtitle D—Public Housing**

- Sec. 151. Public housing capital fund.

- Sec. 152. Energy-efficient appliances.
- Sec. 153. Energy efficiency standards.
- Sec. 154. Energy strategy for HUD.

## TITLE II—RENEWABLE ENERGY

## Subtitle A—General Provisions

- Sec. 201. Assessment of renewable energy resources.
- Sec. 202. Renewable energy production incentive.
- Sec. 203. Federal purchase requirement.
- Sec. 204. Use of photovoltaic energy in public buildings.
- Sec. 205. Biobased products.
- Sec. 206. Renewable energy security.
- Sec. 207. Installation of photovoltaic system.
- Sec. 208. Sugar cane ethanol program.
- Sec. 209. Rural and remote community electrification grants.
- Sec. 210. Grants to improve the commercial value of forest biomass for electric energy, useful heat, transportation fuels, and other commercial purposes.
- Sec. 211. Sense of Congress regarding generation capacity of electricity from renewable energy resources on public lands.

## Subtitle B—Geothermal Energy

- Sec. 221. Short title.
- Sec. 222. Competitive lease sale requirements.
- Sec. 223. Direct use.
- Sec. 224. Royalties and near-term production incentives.
- Sec. 225. Coordination of geothermal leasing and permitting on Federal lands.
- Sec. 226. Assessment of geothermal energy potential.
- Sec. 227. Cooperative or unit plans.
- Sec. 228. Royalty on byproducts.
- Sec. 229. Authorities of Secretary to readjust terms, conditions, rentals, and royalties.
- Sec. 230. Crediting of rental toward royalty.
- Sec. 231. Lease duration and work commitment requirements.
- Sec. 232. Advanced royalties required for cessation of production.
- Sec. 233. Annual rental.
- Sec. 234. Deposit and use of geothermal lease revenues for 5 fiscal years.
- Sec. 235. Acreage limitations.
- Sec. 236. Technical amendments.
- Sec. 237. Intermountain West Geothermal Consortium.

## Subtitle C—Hydroelectric

- Sec. 241. Alternative conditions and fishways.
- Sec. 242. Hydroelectric production incentives.
- Sec. 243. Hydroelectric efficiency improvement.
- Sec. 244. Alaska State jurisdiction over small hydroelectric projects.
- Sec. 245. Flint Creek hydroelectric project.
- Sec. 246. Small hydroelectric power projects.

## Subtitle D—Insular Energy

- Sec. 251. Insular areas energy security.
- Sec. 252. Projects enhancing insular energy independence.

## TITLE III—OIL AND GAS

## Subtitle A—Petroleum Reserve and Home Heating Oil

- Sec. 301. Permanent authority to operate the Strategic Petroleum Reserve and other energy programs.
- Sec. 302. National Oilheat Research Alliance.
- Sec. 303. Site selection.

## Subtitle B—Natural Gas

- Sec. 311. Exportation or importation of natural gas.
- Sec. 312. New natural gas storage facilities.
- Sec. 313. Process coordination; hearings; rules of procedure.
- Sec. 314. Penalties.
- Sec. 315. Market manipulation.
- Sec. 316. Natural gas market transparency rules.
- Sec. 317. Federal-State liquefied natural gas forums.
- Sec. 318. Prohibition of trading and serving by certain individuals.

## Subtitle C—Production

- Sec. 321. Outer Continental Shelf provisions.

that would otherwise apply to the Federal Energy Regulatory Commission (referred to in this section as the “Commission”) project numbered 12107, the Commission shall—

(1) if the preliminary permit is in effect on the date of enactment of this Act, extend the preliminary permit for a period of 3 years beginning on the date on which the preliminary permit expires; or

(2) if the preliminary permit expired before the date of enactment of this Act, on request of the permittee, reinstate the preliminary permit for an additional 3-year period beginning on the date of enactment of this Act.

(b) **LIMITATION ON CERTAIN FEES.**—Notwithstanding section 10(e)(1) of the Federal Power Act (16 U.S.C. 803(e)(1)) or any other provision of Federal law providing for the payment to the United States of charges for the use of Federal land for the purposes of operating and maintaining a hydroelectric development licensed by the Commission, any political subdivision of the State of Montana that holds a Commission license for the Commission project numbered 12107 in Granite and Deer Lodge Counties, Montana, shall be required to pay to the United States for the use of that land for each year during which the political subdivision continues to hold the license for the project, the lesser of—

(1) \$25,000; or

(2) such annual charge as the Commission or any other department or agency of the Federal Government may assess.

#### **SEC. 246. SMALL HYDROELECTRIC POWER PROJECTS.**

Section 408(a)(6) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2708(a)(6)) is amended by striking “April 20, 1977” and inserting “July 22, 2005”.

## **Subtitle D—Insular Energy**

#### **SEC. 251. INSULAR AREAS ENERGY SECURITY.**

Section 604 of the Act entitled “An Act to authorize appropriations for certain insular areas of the United States, and for other purposes”, approved December 24, 1980 (48 U.S.C. 1492), is amended—

(1) in subsection (a)(4) by striking the period and inserting a semicolon;

(2) by adding at the end of subsection (a) the following new paragraphs:

“(5) electric power transmission and distribution lines in insular areas are inadequate to withstand damage caused by the hurricanes and typhoons which frequently occur in insular areas and such damage often costs millions of dollars to repair; and

“(6) the refinement of renewable energy technologies since the publication of the 1982 Territorial Energy Assessment prepared pursuant to subsection (c) reveals the need to reassess the state of energy production, consumption, infrastructure, reliance on imported energy, opportunities for energy conservation and increased energy efficiency, and indigenous sources in regard to the insular areas.”;

(3) by amending subsection (e) to read as follows:

“(e)(1) The Secretary of the Interior, in consultation with the Secretary of Energy and the head of government of each insular area, shall update the plans required under subsection (c) by—

“(A) updating the contents required by subsection (c);

“(B) drafting long-term energy plans for such insular areas with the objective of reducing, to the extent feasible, their reliance on energy imports by the year 2012, increasing energy conservation and energy efficiency, and maximizing, to the extent feasible, use of indigenous energy sources; and

“(C) drafting long-term energy transmission line plans for such insular areas with the objective that the maximum percentage feasible of electric power transmission and distribution lines in each insular area be protected from damage caused by hurricanes and typhoons.

“(2) In carrying out this subsection, the Secretary of Energy shall identify and evaluate the strategies or projects with the greatest potential for reducing the dependence on imported fossil fuels as used for the generation of electricity, including strategies and projects for—

“(A) improved supply-side efficiency of centralized electrical generation, transmission, and distribution systems;

“(B) improved demand-side management through—

“(i) the application of established standards for energy efficiency for appliances;

“(ii) the conduct of energy audits for business and industrial customers; and

“(iii) the use of energy savings performance contracts;

“(C) increased use of renewable energy, including—

“(i) solar thermal energy for electric generation;

“(ii) solar thermal energy for water heating in large buildings, such as hotels, hospitals, government buildings, and residences;

“(iii) photovoltaic energy;

“(iv) wind energy;

“(v) hydroelectric energy;

“(vi) wave energy;

“(vii) energy from ocean thermal resources, including ocean thermal-cooling for community air conditioning;

“(viii) water vapor condensation for the production of potable water;

“(ix) fossil fuel and renewable hybrid electrical generation systems; and

“(x) other strategies or projects that the Secretary may identify as having significant potential; and

“(D) fuel substitution and minimization with indigenous biofuels, such as coconut oil.

“(3) In carrying out this subsection, for each insular area with a significant need for distributed generation, the Secretary of Energy shall identify and evaluate the most promising strategies and projects described in subparagraphs (C) and (D) of paragraph (2) for meeting that need.

“(4) In assessing the potential of any strategy or project under paragraphs (2) and (3), the Secretary of Energy shall consider—

“(A) the estimated cost of the power or energy to be produced, including—

“(i) any additional costs associated with the distribution of the generation; and

“(ii) the long-term availability of the generation source;

“(B) the capacity of the local electrical utility to manage, operate, and maintain any project that may be undertaken; and

“(C) other factors the Secretary of Energy considers to be appropriate.

“(5) Not later than 1 year after the date of enactment of this subsection, the Secretary of the Interior shall submit to the Committee on Energy and Natural Resources of the Senate, the Committee on Resources of the House of Representatives, and the Committee on Energy and Commerce of the House of Representatives, the updated plans for each insular area required by this subsection.”; and

(4) by amending subsection (g)(4) to read as follows:

“(4) POWER LINE GRANTS FOR INSULAR AREAS.—

“(A) IN GENERAL.—The Secretary of the Interior is authorized to make grants to governments of insular areas of the United States to carry out eligible projects to protect electric power transmission and distribution lines in such insular areas from damage caused by hurricanes and typhoons.

“(B) ELIGIBLE PROJECTS.—The Secretary of the Interior may award grants under subparagraph (A) only to governments of insular areas of the United States that submit written project plans to the Secretary for projects that meet the following criteria:

“(i) The project is designed to protect electric power transmission and distribution lines located in 1 or more of the insular areas of the United States from damage caused by hurricanes and typhoons.

“(ii) The project is likely to substantially reduce the risk of future damage, hardship, loss, or suffering.

“(iii) The project addresses 1 or more problems that have been repetitive or that pose a significant risk to public health and safety.

“(iv) The project is not likely to cost more than the value of the reduction in direct damage and other negative impacts that the project is designed to prevent or mitigate. The cost benefit analysis required by this criterion shall be computed on a net present value basis.

“(v) The project design has taken into consideration long-term changes to the areas and persons it is designed to protect and has manageable future maintenance and modification requirements.

“(vi) The project plan includes an analysis of a range of options to address the problem it is designed to prevent or mitigate and a justification for the selection of the project in light of that analysis.

“(vii) The applicant has demonstrated to the Secretary that the matching funds required by subparagraph (D) are available.

“(C) PRIORITY.—When making grants under this paragraph, the Secretary of the Interior shall give priority to grants for projects which are likely to—

“(i) have the greatest impact on reducing future disaster losses; and

“(ii) best conform with plans that have been approved by the Federal Government or the government of the insular area where the project is to be carried out for development or hazard mitigation for that insular area.

“(D) MATCHING REQUIREMENT.—The Federal share of the cost for a project for which a grant is provided under this paragraph shall not exceed 75 percent of the total cost of that project. The non-Federal share of the cost may be provided in the form of cash or services.

“(E) TREATMENT OF FUNDS FOR CERTAIN PURPOSES.—Grants provided under this paragraph shall not be considered as income, a resource, or a duplicative program when determining eligibility or benefit levels for Federal major disaster and emergency assistance.

“(F) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this paragraph \$6,000,000 for each fiscal year beginning after the date of the enactment of this paragraph.”.

42 USC 15891.

**SEC. 252. PROJECTS ENHANCING INSULAR ENERGY INDEPENDENCE.****(a) PROJECT FEASIBILITY STUDIES.—**

(1) IN GENERAL.—On a request described in paragraph (2), the Secretary shall conduct a feasibility study of a project to implement a strategy or project identified in the plans submitted to Congress pursuant to section 604 of the Act entitled “An Act to authorize appropriations for certain insular areas of the United States, and for other purposes”, approved December 24, 1980 (48 U.S.C. 1492), as having the potential to—

(A) significantly reduce the dependence of an insular area on imported fossil fuels; or

(B) provide needed distributed generation to an insular area.

(2) REQUEST.—The Secretary shall conduct a feasibility study under paragraph (1) on—

(A) the request of an electric utility located in an insular area that commits to fund at least 10 percent of the cost of the study; and

(B) if the electric utility is located in the Federated States of Micronesia, the Republic of the Marshall Islands, or the Republic of Palau, written support for that request by the President or the Ambassador of the affected freely associated state.

(3) CONSULTATION.—The Secretary shall consult with regional utility organizations in—

(A) conducting feasibility studies under paragraph (1); and

(B) determining the feasibility of potential projects.

(4) FEASIBILITY.—For the purpose of a feasibility study under paragraph (1), a project shall be determined to be feasible if the project would significantly reduce the dependence of an insular area on imported fossil fuels, or provide needed distributed generation to an insular area, at a reasonable cost.

**(b) IMPLEMENTATION.—**

(1) IN GENERAL.—On a determination by the Secretary (in consultation with the Secretary of the Interior) that a project

is feasible under subsection (a) and a commitment by an electric utility to operate and maintain the project, the Secretary may provide such technical and financial assistance as the Secretary determines is appropriate for the implementation of the project.

(2) REGIONAL UTILITY ORGANIZATIONS.—In providing assistance under paragraph (1), the Secretary shall consider providing the assistance through regional utility organizations.

(c) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—There are authorized to be appropriated to the Secretary—

(A) \$500,000 for each fiscal year for project feasibility studies under subsection (a); and

(B) \$4,000,000 for each fiscal year for project implementation under subsection (b).

(2) LIMITATION OF FUNDS RECEIVED BY INSULAR AREAS.—No insular area may receive, during any 3-year period, more than 20 percent of the total funds made available during that 3-year period under subparagraphs (A) and (B) of paragraph (1) unless the Secretary determines that providing funding in excess of that percentage best advances existing opportunities to meet the objectives of this section.

## TITLE III—OIL AND GAS

### Subtitle A—Petroleum Reserve and Home Heating Oil

#### SEC. 301. PERMANENT AUTHORITY TO OPERATE THE STRATEGIC PETROLEUM RESERVE AND OTHER ENERGY PROGRAMS.

(a) AMENDMENT TO TITLE I OF THE ENERGY POLICY AND CONSERVATION ACT.—Title I of the Energy Policy and Conservation Act (42 U.S.C. 6212 et seq.) is amended—

(1) by striking section 166 (42 U.S.C. 6246) and inserting the following:

“AUTHORIZATION OF APPROPRIATIONS

“SEC. 166. There are authorized to be appropriated to the Secretary such sums as are necessary to carry out this part and part D, to remain available until expended.”;

(2) by striking section 186 (42 U.S.C. 6250e); and

(3) by striking part E (42 U.S.C. 6251).

(b) AMENDMENT TO TITLE II OF THE ENERGY POLICY AND CONSERVATION ACT.—Title II of the Energy Policy and Conservation Act (42 U.S.C. 6271 et seq.) is amended—

(1) by inserting before section 273 (42 U.S.C. 6283) the following:

#### “PART C—SUMMER FILL AND FUEL BUDGETING PROGRAMS”;

(2) by striking section 273(e) (42 U.S.C. 6283(e)); and

(3) by striking part D (42 U.S.C. 6285).

(c) TECHNICAL AMENDMENTS.—The table of contents for the Energy Policy and Conservation Act is amended—

---

Hang in there!!!

On Mar 25, 2015, at 1:00 PM, Dodin, Reema (Durbin) <[Reema\\_Dodin@durbin.senate.gov](mailto:Reema_Dodin@durbin.senate.gov)> wrote:

Hello! The Senate continues to debate the budget resolution. The hope is that another round of votes can be set up for this afternoon... potentially in the 4:30pm range but that can easily slide either way. Conversations ongoing.

*Possible candidates for consideration include the below (though others possible as conversations go). Note we will not do all of these tonight. Only some (or several but not all) will be chosen.*

- Stabenow side by side to Barrasso. (#755)
  - Barrasso amendment to establish a spending-neutral reserve fund to keep the Federal Water Pollution Control Act focused on protection of water quality, to establish bright lines for Federal jurisdiction, and to create clear and unambiguous exemptions for features that the Administrator of the Environmental Protection Agency or the Secretary of the Army, acting through the Chief of Engineers, claim they are not seeking to regulate. (#347)
- Sanders alternative to Blunt (#777)
  - Blunt amendment to create a point of order against legislation that would create a Federal tax or fee on carbon emissions. (#350)
  - Hatch alternative to Bennet Medicare Amendment. (#796)
  - Bennet amendment to create a point of order against legislation that would privatize Medicare, cut guaranteed benefits, increase out-of-pocket spending, or turn Medicare into a premium support plan. (#601)
- Murray Sequester Replacement.
- Republican alternative to Murray amendment possible.
  - Cotton amendment to establish a deficit-neutral reserve fund relating to supporting Israel. (#481)
  - Kirk amendment to establish a deficit-neutral reserve fund relating to reimposing waived sanctions and imposing new sanctions against Iran for violations of the Joint Plan of Action or a comprehensive nuclear agreement. (#545)
  - Rounds amendment to establish a deficit-neutral reserve fund to prevent the Environmental Protection Agency and the United States Fish and Wildlife Service from engaging in closed-door settlement agreements that ignore impacted States and counties. (#412)
  - Daines amendment to establish a deficit-neutral reserve fund relating to the designation of national monuments. (#388)
  - Daines amendment to establish a deficit-neutral reserve fund relating to holding Members of the Senate and the House or Representatives accountable for failing to pass a balanced budget. (#389)
- Gardner amendment to establish a deficit-neutral reserve fund relating to protecting

privately held water rights and permits. (#443)

*Other amendments of interest but less likely for today:*

- Rubio amendment to increase new budget authority and outlays for fiscal years 2016 and 2017 for National Defense (budget function 050). (#423, as modified).
- Isakson amendment to establish a deficit-neutral reserve fund relating to establishing a biennial budget and appropriations process (#321).
- Dem side by side to Isakson?
- Vitter amendment to end Congress's and the Administration's illegal exemption from Patient Protection and Affordable Care Act. (#517)
  - Vitter amendment to establish a spending-neutral reserve fund relating to requiring the Federal Government to allow states to opt out of Common Core without penalty. (#515)
- Roberts amendment to establish a deficit-neutral reserve fund relating to Federal employee performance awards. (#352)
  - Roberts amendment to establish a deficit-neutral reserve fund relating to over-the-counter medications. (#462)

### **Senate Budget Resolution (S.Con.Res. 11)**

An original concurrent resolution setting forth the congressional budget for the United States Government for fiscal year 2016 and setting forth the appropriate budgetary levels for fiscal years 2017 through 2025. (pending amendments in bold, disposed of amendments in italics).

- Isakson amendment to establish a deficit-neutral reserve fund relating to establishing a biennial budget and appropriations process. (#321)
- Portman amendment to establish a spending-neutral reserve fund relating to the empowerment of States to protect citizens of the State from damaging regulations of the Environmental Protection Agency pursuant to the Clean Air Act. (#322)
- *Sanders amendment to create millions of middle class jobs by investing in our nation's infrastructure paid for by raising revenue through closing loopholes in the corporate and international tax system. (#323, as modified)*
- Coons amendment to establish a deficit-neutral reserve fund relating to the strengthening of patent rights. (#324)
- Coons amendment to establish a deficit-neutral reserve fund relating to a strong civil courts system. (#325)
- Coons amendment to establish a deficit-neutral reserve fund relating to ensuring that changes to voting laws at the State and local level do not disproportionately burden the right of racial and language minorities to vote. (#326)

**Sent:** Wednesday, March 25, 2015 11:04 AM  
**To:** Dodin, Reema (Durbin)  
**Subject:** RE: 5 Weeks - Winter to Spring: Budget Week!

Good morning! The Senate has resumed consideration of the budget resolution for the day, though currently stands in recess until conclusion of the joint session. *At 12:15pm the Senate will vote relative to the attached amendments:*

- Burr amendment to establish a deficit-neutral reserve fund relating to manageable Federal student loan repayment options. (#622)
- Warren amendment to make college more affordable for middle-class families by allowing borrowers with outstanding Federal and private student loans to refinance at the equivalent interest rates that were offered to Federal student loan borrowers during the 2013-2014 school year and to fully offset the cost of such a program by requiring millionaires to pay at least a 30 percent effective Federal tax rate. (#652)

There is also hope that like yesterday, we can have a second group of votes in the afternoon, maybe even as early as 2pm or so... but let's see how conversations go.

*Some possible candidates for consideration include:*

- Blunt amendment to create a point of order against legislation that would create a Federal tax or fee on carbon emissions. (#350)
- Dem side by side to Blunt [in the works].
  - Barrasso amendment to establish a spending-neutral reserve fund to keep the Federal Water Pollution Control Act focused on protection of water quality, to establish bright lines for Federal jurisdiction, and to create clear and unambiguous exemptions for features that the Administrator of the Environmental Protection Agency or the Secretary of the Army, acting through the Chief of Engineers, claim they are not seeking to regulate. (#347)
- Stabenow side by side to Barrasso.
- Murray Sequester Replacement.
- Bennet amendment relative to Medicare.
  - Isakson amendment to establish a deficit-neutral reserve fund relating to establishing a biennial budget and appropriations process (#321).
- Dem side by side to Isakson.

*The following amendments are currently pending to the resolution (if they are not dealt with today, you may expect them to receive votes once the vote-a-rama starts on Thursday around noon):*

- Cotton amendment to establish a deficit-neutral reserve fund relating to supporting Israel. (#481)
- Kirk amendment to establish a deficit-neutral reserve fund relating to reimposing waived sanctions and imposing new sanctions against Iran for violations of the Joint Plan of Action or a comprehensive nuclear agreement. (#545)
- Rounds amendment to establish a deficit-neutral reserve fund to prevent the Environmental Protection Agency and the United States Fish and Wildlife Service from engaging in closed-door settlement agreements that ignore impacted States and counties. (#412)

**Subject:** Amendments Update: Senate Budget Resolution (S.Con.Res. 11)

**The most recently filed amendments are at the top of this message, as well as at the bottom in the correct numerical order.**

- Thune amendment to reduce funding for the General Services Administration by \$1,000,000 until 50 percent of counties in nonattainment for the 1997 National Ambient Air Quality Standards (NAAQS) for ground-level ozone as of January 30, 2015, achieve the air quality standard set forth in the 1997 NAAQS, and direct those funds to the Administrator of the Environmental Protection Agency for the purpose of helping municipalities reach attainment with the 2008 NAAQS for ground-level ozone, acknowledging that (1) given limited State and Federal resources and the delay of the Administrator in issuing to States implementation guidance for the 2008 ground-level ozone NAAQS, priority should be given to achieving the 2008 standard, (2) the Administrator has not sufficiently implemented that standard, (3) focusing by the Administrator on the most polluted areas that are in nonattainment with that standard would benefit public health, and (4) promulgating a lower standard at this time would impose undue costs on the economy and workforce of the United States. (#743)
- Shaheen amendment to establish a deficit-neutral reserve fund relating to encouraging institutions of higher education to make college more affordable by reducing the cost of attendance for students and families. (#831)
- Shaheen amendment to establish a deficit-neutral reserve fund to ensure all women covered by TRICARE have no-cost contraception coverage and to improve access to emergency contraception for women members of the Armed Forces. (#832)
- Boxer amendment to establish a deficit-neutral reserve fund relating to the protection of State and local economies from the impacts of climate change, including extreme and exceptional drought. (#833)
- Boxer amendment to establish a deficit-neutral reserve fund relating to public health and welfare of States and local communities. (#834)
- Sanders amendment to establish a deficit-neutral reserve fund relating to offsetting the cost of operations against the Islamic State. (#835)
- McConnell amendment to establish a deficit-neutral reserve fund relating to the regulation by the

Environmental Protection Agency of greenhouse gas emissions, which may include a prohibition on withholding highway funds from States that refuse to submit State Implementation Plans required under the Clean Power Plan of the Agency. (#836)

- Alexander amendment to establish a deficit-neutral reserve fund relating to protecting the privacy rights of employees. (#837)
- Murkowski amendment to establish a spending-neutral reserve fund relating to the disposal of certain Federal land. (#838)
- Isakson amendment to establish a deficit-neutral reserve fund relating to supporting United States citizens held hostage in the United States embassy in Tehran, Iran, between November 3, 1979, and January 20, 1981. (#839)
- Cardin amendment to establish a deficit-neutral reserve fund relating to providing funding for State and local law enforcement agencies that receive Federal funds to be used for data collection related to profiling guidance issued by the Department of Justice. (#840)
- Udall amendment to establish a deficit-neutral reserve fund relating to provision of educational assistance to veterans who served in the reserves in Afghanistan or Iraq. (#841)

capacity building and strategy. (#705)

- Markey amendment to establish a deficit-neutral reserve fund relating to achieving savings in the nuclear security enterprise. (#706)
- Markey amendment to establish a deficit-neutral reserve fund relating to reducing overdose deaths. (#707)
- Wyden amendment to establish a deficit-neutral reserve fund relating to simplifying and expanding tax incentives for higher education to boost student attendance and completion. (#708)
- Manchin amendment to establish a deficit-neutral reserve fund relating to implementing recommendations of the Government Accountability Office to reduce or eliminate overlapping or duplicative Federal programs. (#709)
- Franken amendment to establish a deficit-neutral reserve fund relating to enhancing funding for programs carried out under the Head Start Act. (#710)
- Franken amendment provide additional resources to save student financial aid and keep college affordable for more than 8,000,000 low- and middle-income students by restoring the \$89,000,000 in cuts to Federal Pell Grants in the Republican budget. (#711)
- Franken amendment to provide an additional use for the deficit-neutral reserve fund for higher education. (#712)
- Murphy amendment to establish a deficit-neutral reserve fund relating to comprehensive mental health reform. (#713)
- Bennet amendment to establish a deficit-neutral reserve fund relating to chemical disclosure. (#714)
- Bennet amendment to create clean energy jobs through predictable and fair incentive for renewable energy. (#715)
- Booker amendment to establish a deficit-neutral reserve fund to support the robust funding of the Community Oriented Policing Services grant program. (#716)
- Booker amendment to establish a deficit-neutral reserve fund relating to the effectiveness and availability of Bureau of Prisons programs. (#717)
- Booker amendment to establish a deficit-neutral reserve fund relating to supporting child savings accounts and asset building. (#718)
- Booker amendment to establish a deficit-neutral reserve fund relating to cleaning up federally designated Superfund sites. (#719)
- Booker amendment to establish a deficit-neutral reserve fund relating to supporting workforce development through apprenticeship programs. (#720)
- Booker amendment to establish a deficit-neutral reserve fund to encourage freight planning and

investment that incorporates all modes of transportation, including rail, waterways, ports, and highways to promote national connectivity. (#721)

- Booker amendment to establish a deficit-neutral reserve fund relating to prohibiting payments for conversion or treatments that purport to change the gender identity or sexual orientation of an individual under Medicare and Medicaid programs. (#722)
- Booker amendment to establish a deficit-neutral reserve fund relating to reducing the average adjusted gross income eligibility criteria for persons or legal entities who qualify for farm subsidy program benefits (#723)
- Kaine amendment to establish a deficit-neutral reserve fund relating to increasing United States exports and improving the competitiveness of United States businesses. (#724)
- Booker amendment to establish a deficit-neutral reserve fund relating to ensuring diversity in procurement and hiring at all Federal pension plans. (#725)
- Booker amendment to establish a deficit-neutral reserve fund relating to the protection of State and local economies from the impacts of climate change, including increased storm surge events. (#726)
- Booker amendment to establish a deficit-neutral reserve fund relating to municipal broadband expansion, to aid cities and municipalities in rural and low-income areas seeking to invest in municipal broadband networks or private-public partnerships for broadband buildout. (#727)
- Booker amendment to establish a deficit-neutral reserve fund relating to supporting mentoring programs for at-risk youth. (#728)
- Cardin amendment to establish a deficit-neutral reserve fund to invest in surface transportation projects. (#729)
- Murkowski amendment to establish a deficit-neutral reserve fund relating to development of the Long Range Discrimination Radar of the Missile Defense Agency. (#730)
- Murkowski amendment to establish a deficit-neutral reserve fund to increase access to health care providers for Medicare beneficiaries. (#731)
- Murkowski amendment to establish a spending-neutral reserve fund relating to authorizing advance appropriations for the Indian Health Service. (#732)
- Murkowski amendment to establish a deficit-neutral reserve fund relating to an active duty mend strength for the Army for fiscal year 2016 of 490,000 soldiers. (#733)
- Murkowski amendment to establish a spending-neutral reserve fund relating to the Department of Defense Innovative Readiness Training Program. (#734)
- Murkowski amendment to establish a deficit-neutral reserve fund relating to the outreach and delivery of Department of Veterans Affairs programs and services to veterans residing in United States communities not connected to the North American road system. (#735)
- Murkowski amendment to exempt advance appropriations for the Indian Health Services and

Indian Health Facilities accounts of the Indian Health Service from a point of order against legislation that would provide an advance appropriation. (#736)

- Murkowski amendment to establish a deficit-neutral reserve fund to establish a DNRF relating to providing for the expansion of Amyotrophic Lateral Sclerosis (Lou Gehrig's Disease) research in the Department of Defense's peer reviewed Medical Research Program. (#737)
- Murkowski amendment to establish a deficit-neutral reserve fund relating to environmental remediation of land transferred under certain Acts that is contaminated by Federal agencies and activities. (#738)
- Murkowski amendment to establish a spending-neutral reserve fund relating to robust sexual assault investigations by the National Guard Bureau Office of Complex Investigations. (#739)
- Murkowski amendment to establish a deficit-neutral reserve fund relating to the funding of certain tribal courts by the Bureau of Indian Affairs. (#740)
- Thune amendment to establish a deficit-neutral reserve fund to allow for legislation to provide for long-term budget analyses. (#741)
- Thune amendment to establish a deficit-neutral reserve fund relating to reforming the unemployment insurance program in a manner that incentivizes work and worker training for the long-term unemployed, helps the long-term unemployed reenter the workforce, recognizes the demands on State budgets, and does not increase financial burdens on employers. (#742)
- Thune amendment to reduce funding for the General Services Administration by \$1,000,000 until 50 percent of counties in nonattainment for the 1997 National Ambient Air Quality Standards (NAAQS) for ground-level ozone as of January 30, 2015, achieve the air quality standard set forth in the 1997 NAAQS, and direct those funds to the Administrator of the Environmental Protection Agency for the purpose of helping municipalities reach attainment with the 2008 NAAQS for ground-level ozone, acknowledging that (1) given limited State and Federal resources and the delay of the Administrator in issuing to States implementation guidance for the 2008 ground-level ozone NAAQS, priority should be given to achieving the 2008 standard, (2) the Administrator has not sufficiently implemented that standard, (3) focusing by the Administrator on the most polluted areas that are in nonattainment with that standard would benefit public health, and (4) promulgating a lower standard at this time would impose undue costs on the economy and workforce of the United States. (#743)
- Daines amendment to establish a deficit-neutral reserve fund relating to ensuring transparency of costs of completing analyses required under the National Environmental Policy Act of 1969. (#744)
- Lee amendment to establish a spending-neutral reserve fund relating to allowing oil shale development on Federal land. (#745)
- Lee amendment to establish a spending-neutral reserve fund relating to establishing reasonable deadlines for processes under the National Environmental Policy Act of 1969. (#746)
- Lee amendment to establish a spending-neutral reserve fund relating to selling nonessential Federal land with proceeds going to Federal deficit reduction. (#747)
- Lee amendment to create a point of order against legislation that would further restrict the right

of law-abiding Americans to own a firearm. (#748)

- Lee amendment to ensure that the reserve fund relating to affordable healthcare choices for all is used to repeal and not further empower the Patient Protection and Affordable Care Act. (#749)
- Lee amendment to modify the spending-neutral reserve fund reauthorizing funding for payments to counties and other units of local government to ensure payment at levels roughly equivalent to property tax revenues lost due to the presence of Federal land. (#750)
- Lee amendment to establish a spending-neutral reserve fund to support legislation maintaining United States oversight over functions of the Internet Corporation for Assigned Names and Numbers and preventing the United States from transferring such Internet responsibilities. (#751)
- Lee amendment to establish a spending-neutral reserve fund relating to encouraging the United States' NATO allies to reverse declines in defense spending and bear a more proportionate burden for ensuring the security of NATO. (#752)
- Lee amendment to establish a spending-neutral reserve fund relating to sufficient number of uniformed maintenance personnel in the Air Force for the F-35A aircraft program to reach initial operational capacity and full operational capacity on schedule. (#753)
- Lee amendment to establish a spending-neutral reserve fund relating to supporting legislation allowing a repeal of the Davis-Bacon Act. (#754)
- **Stabenow amendment to establish a deficit-neutral reserve fund relating to keeping the Federal Water Pollution Control Act focused on protection of water quality, to establish bright lines for Federal jurisdiction, and to create clear and unambiguous exemptions for features that the Administrator of the Environmental Protection Agency or the Secretary of the Army, acting through the Chief of Engineers, claim they are not seeking to regulate. (#755)**
- Stabenow amendment to establish a deficit-neutral reserve fund relating to prohibiting the purchase of stationary or electronic devices for the purpose of members of Congress or congressional staff communicating with foreign governments and undermining the role of the President as Head of State in international nuclear negotiations on behalf of the United States. (#756)
- Inhofe amendment to establish a spending-neutral reserve fund relating to grant programs of the Environmental Protection Agency that may include prohibitions on awards to any entity that has an action pending against the Agency. (#757)
- Lee amendment to establish a spending-neutral reserve fund to support legislation allowing private sector employers to offer compensatory time in lieu of overtime pay to employees who prefer flexible work schedules to better balance family, work, and personal responsibilities. (#758)
- Lee amendment to establish a spending-neutral reserve fund relating to clarifying Federal jurisdiction with respect to intrastate species. (#759)
- Fischer amendment to establish a deficit-neutral reserve fund relating to requiring an independent reliability assessment of the Clean Power Plan of the Environmental Protection Agency. (#760)

- Graham amendment to establish a deficit-neutral reserve fund relating to means-testing Medicare part B and part D premiums for Medicare beneficiaries with an annual income that exceeds \$250,000. (#761)
- Graham amendment to establish a deficit-neutral reserve fund relating to the restoration of purchasing power of the National Institutes of Health. (#762)
- Graham amendment to establish a deficit-neutral reserve fund relating to subjecting all Federal spending to sequestration. (#763)
- Graham amendment to establish a deficit-neutral reserve fund relating to preparing ports of the United States for post-Panamax ships. (#764)
- Graham amendment to establish a deficit-neutral reserve fund relating to meeting the obligations outlined in the Plutonium Management and Disposition Agreement. (#765)
- Graham amendment to establish a deficit-neutral reserve fund relating to subjecting the salaries of Members of Congress to sequestration. (#766)
- Murkowski amendment to establish a spending-neutral reserve fund relating to the National Guard Youth Challenge Program. (#767)
- Murkowski amendment to establish a deficit-neutral reserve fund relating to reducing Transportation Security Administration passenger fees to \$2.50 per enplanement and not more than \$5.00 per round trip between points in Alaska and Hawaii and on flights from essential air service airports. (#768)

- Murkowski amendment to establish a deficit-neutral reserve fund relating to the construction of Arctic polar icebreakers. (#770)
- Ernst amendment to establish a deficit-neutral reserve fund relating to prohibits use of taxpayer dollars for first class airplane travel by Members of Congress. (#771)
- Ernst amendment to establish a deficit-neutral reserve fund to ensure public comments are utilized more effectively in the Federal rulemaking process. (#772)
- Ernst amendment to establish a deficit-neutral reserve fund to protect taxpayers by reforming the allowance and perks available to former Presidents. (#773)
- Rubio amendment to establish a deficit-neutral reserve fund relating to the availability of Federal spectrum for commercial wireless services, including unlicensed Wi-Fi. (#774)
- Rubio amendment to establish a spending-neutral reserve fund relating to the imposition of new sanctions against the Government of Iran because of that Government's support for terrorism and its human rights abuses against the people of Iran. (#775)
- Shaheen amendment to establish a deficit-neutral reserve fund to prohibit the exclusion of

individuals from service on a Federal jury on account of sexual orientation or gender identity. (#776)

- **Sanders amendment to establish a deficit-neutral reserve fund to recognize that climate change is real and caused by human activity and that Congress needs to take action to cut carbon pollution. (#777)**
- Cornyn amendment to establish a deficit-neutral reserve fund relating to patents. (#778)
- Cornyn amendment to establish a deficit-neutral reserve fund to enact a taxpayer bill of rights and provide additional protections for taxpayers against abuses by Internal Revenue Service. (#779)
- Cornyn amendment to establish a deficit-neutral reserve fund relating to eliminating the backlog of sexual assault evidence kits. (#780)
- Rubio amendment to establish a spending-neutral reserve fund relating to reducing foreign assistance to the Palestinian Authority and certain United Nations agencies and increasing foreign assistance for Israel. (#781)
- Brown amendment to establish a deficit-neutral reserve fund relating to extending the health care tax credit. (#782)
- Brown amendment to establish a deficit-neutral reserve fund relating to expansion of the earned income tax credit and the child tax credit. (#783)
- Brown amendment to establish a deficit-neutral reserve fund relating to supporting a national network for manufacturing innovation. (#784)
- Brown amendment to establish a deficit-neutral reserve fund relating to ensuring that no Federal financial aid funds are used for marketing activities. (#785)
- Brown amendment to establish a deficit-neutral reserve fund to provide 12-months of continuous enrollment in Medicaid and the Children's Health Insurance Program. (#786)
- Brown amendment to establish a deficit-neutral reserve fund to establish the prioritization of Children's Hospital Graduate Medical Education (CHGME) as a proven means to implement the development of a robust pediatric medical workforce. (#787)
- Brown amendment to establish a deficit-neutral reserve fund relating to ensuring sufficient trade enforcement resources. (#788)
- Brown amendment to establish a deficit-neutral reserve fund relating to protecting workers from misclassification as independent contractors and preventing employers from using misclassification to avoid paying their fair share of taxes. (#789)
- Manchin amendment to create a point of order against legislation that would allocate any savings achieved through spending cuts or new revenue that are not included in the concurrent resolution on the budget for any purpose other than deficit reduction or investment in the Nation's infrastructure. (#790)

- Wyden amendment to strike reconciliation instructions to the Committees on Health, Education, Labor, and Pensions and Finance and require regular order. (#791)
- Bennet amendment to establish a deficit-neutral reserve fund relating to innovation in higher education. (#792)
- Franken amendment to establish a deficit-neutral reserve fund relating to construction of Native American schools. (#793)
- Sessions amendment to establish a deficit-neutral reserve fund relating to strengthening the ability of the Department of Commerce to respond to accusations of unfair trade practices, which may include currency undervaluation. (#794)
- Cassidy amendment to establish a spending-neutral reserve fund relating to authorizing Federal permitting for manufacturing and energy construction projects relating to national primary or secondary ambient air quality standard for ozone lower than a certain existing standard. (#795)
- **Hatch amendment to establish a deficit-neutral reserve fund relating to saving Medicare. (#796)**
- Fischer amendment to establish a deficit-neutral reserve fund relating to reducing headquarters staff in the Department of Defense. (#797)
- Murray amendment to establish a deficit-neutral reserve fund for legislation to allow Americans to earn paid sick time. (#798)
- Menendez amendment to establish a deficit-neutral reserve fund relating to funding for programs related to governing justly and democratically. (#799)
- Cantwell amendment to establish a deficit-neutral reserve fund relating to a comprehensive approach to crude-by-rail safety. (#800)
- **Murray amendment to build on the Bipartisan Budget Act of 2013 by restoring a below-sequester level cut of \$9,000,000,000 to nondefense discretionary spending in 2017, replacing sequestration in 2016 and 2017 and increasing funding above sequester by a total of \$148,000,000,000 for the 2 years, increasing defense and nondefense discretionary spending above sequester levels by equal amounts, eliminating the overseas contingency operations gimmick contained in the committee-reported resolution, and offsetting the net increase in defense and nondefense discretionary spending by closing tax loopholes. (#801)**
- Coons amendment to offset the costs of the war against the Islamic State in Iraq and Syria. (#802)
- Franken amendment to ensure that the deficit-neutral reserve fund for infrastructure includes investment in rural broadband deployment. (#803)
- Brown amendment to establish a deficit-neutral reserve fund relating to student loans. (#804)
- Corker amendment to establish a deficit-neutral reserve fund to prevent the sale of Senior Preferred Stock of Fannie Mae and Freddie Mac by the Secretary of the Treasury without the

consent of Congress. (#805)

- Cassidy amendment to create a point of order against any legislation that would authorize Federal funds appropriated for processing naturalization applications to be used for any other purpose. (#806)
- Cassidy amendment to create a point of order against legislation that would permit using certain funds to process immigration benefit applications. (#807)
- Thune amendment to establish a deficit-neutral reserve fund to permanently extend the Internet Tax Freedom Act and to establish rules for taxation of digital goods and services. (#808)
- Vitter amendment to restore students' right to privacy of education records by ensuring parental consent of records release in all cases and prohibiting collection of psychological or behavioral data. (#809)
- Collins amendment to establish a deficit-neutral reserve fund relating to increasing access to higher education for low-income Americans through the Federal Pell Grant program. (#810)
- **Vitter amendment to establish a deficit-neutral reserve fund relating to ending Washington's illegal exemption from Patient Protection and Affordable Care Act. (#811)**
- Murray amendment to establish a deficit-neutral reserve fund to provide women with affordable access to comprehensive health care, including preventive services (such as contraception and breast cancer screenings), improve maternal health, and ensure that a woman has the same benefits and services no matter what part of the United States she lives in, all of which is critical to improving the health and well-being of women, children, their families, and society as a whole, and is an essential part of a woman's economic security and opportunity. (#812)
- Durbin amendment to establish a deficit-neutral reserve fund relating to improving oversight and accountability of for-profit colleges. (#813)
- Durbin amendment to establish a deficit-neutral reserve fund relating to preventing exploitation of veterans and servicemembers seeking postsecondary education. (#814)

- Murkowski amendment to establish a spending-neutral reserve fund relating to authorizing advance appropriations for the Indian Health Service. (#732)
- Murkowski amendment to establish a deficit-neutral reserve fund relating to an active duty mend strength for the Army for fiscal year 2016 of 490,000 soldiers. (#733)
- Murkowski amendment to establish a spending-neutral reserve fund relating to the Department of Defense Innovative Readiness Training Program. (#734)
- Murkowski amendment to establish a deficit-neutral reserve fund relating to the outreach and delivery of Department of Veterans Affairs programs and services to veterans residing in United States communities not connected to the North American road system. (#735)
- Murkowski amendment to exempt advance appropriations for the Indian Health Services and Indian Health Facilities accounts of the Indian Health Service from a point of order against legislation that would provide an advance appropriation. (#736)
- Murkowski amendment to establish a deficit-neutral reserve fund to establish a DNRF relating to providing for the expansion of Amyotrophic Lateral Sclerosis (Lou Gehrig's Disease) research in the Department of Defense's peer reviewed Medical Research Program. (#737)
- Murkowski amendment to establish a deficit-neutral reserve fund relating to environmental remediation of land transferred under certain Acts that is contaminated by Federal agencies and activities. (#738)
- Murkowski amendment to establish a spending-neutral reserve fund relating to robust sexual assault investigations by the National Guard Bureau Office of Complex Investigations. (#739)
- Murkowski amendment to establish a deficit-neutral reserve fund relating to the funding of certain tribal courts by the Bureau of Indian Affairs. (#740)
- Thune amendment to establish a deficit-neutral reserve fund to allow for legislation to provide for

long-term budget analyses. (#741)

- Thune amendment to establish a deficit-neutral reserve fund relating to reforming the unemployment insurance program in a manner that incentivizes work and worker training for the long-term unemployed, helps the long-term unemployed reenter the workforce, recognizes the demands on State budgets, and does not increase financial burdens on employers. (#742)
- Thune amendment to reduce funding for the General Services Administration by \$1,000,000 until 50 percent of counties in nonattainment for the 1997 National Ambient Air Quality Standards (NAAQS) for ground-level ozone as of January 30, 2015, achieve the air quality standard set forth in the 1997 NAAQS, and direct those funds to the Administrator of the Environmental Protection Agency for the purpose of helping municipalities reach attainment with the 2008 NAAQS for ground-level ozone, acknowledging that (1) given limited State and Federal resources and the delay of the Administrator in issuing to States implementation guidance for the 2008 ground-level ozone NAAQS, priority should be given to achieving the 2008 standard, (2) the Administrator has not sufficiently implemented that standard, (3) focusing by the Administrator on the most polluted areas that are in nonattainment with that standard would benefit public health, and (4) promulgating a lower standard at this time would impose undue costs on the economy and workforce of the United States. (#743)
- Daines amendment to establish a deficit-neutral reserve fund relating to ensuring transparency of costs of completing analyses required under the National Environmental Policy Act of 1969. (#744)
- Lee amendment to establish a spending-neutral reserve fund relating to allowing oil shale development on Federal land. (#745)
- Lee amendment to establish a spending-neutral reserve fund relating to establishing reasonable deadlines for processes under the National Environmental Policy Act of 1969. (#746)
- Lee amendment to establish a spending-neutral reserve fund relating to selling nonessential Federal land with proceeds going to Federal deficit reduction. (#747)
- Lee amendment to create a point of order against legislation that would further restrict the right of law-abiding Americans to own a firearm. (#748)
- Lee amendment to ensure that the reserve fund relating to affordable healthcare choices for all is used to repeal and not further empower the Patient Protection and Affordable Care Act. (#749)
- Lee amendment to modify the spending-neutral reserve fund reauthorizing funding for payments to counties and other units of local government to ensure payment at levels roughly equivalent to property tax revenues lost due to the presence of Federal land. (#750)
- Lee amendment to establish a spending-neutral reserve fund to support legislation maintaining United States oversight over functions of the Internet Corporation for Assigned Names and Numbers and preventing the United States from transferring such Internet responsibilities. (#751)
- Lee amendment to establish a spending-neutral reserve fund relating to encouraging the United States' NATO allies to reverse declines in defense spending and bear a more proportionate burden for ensuring the security of NATO. (#752)
- Lee amendment to establish a spending-neutral reserve fund relating to sufficient number of

uniformed maintenance personnel in the Air Force for the F-35A aircraft program to reach initial operational capacity and full operational capacity on schedule. (#753)

- Lee amendment to establish a spending-neutral reserve fund relating to supporting legislation allowing a repeal of the Davis-Bacon Act. (#754)
- **Stabenow amendment to establish a deficit-neutral reserve fund relating to keeping the Federal Water Pollution Control Act focused on protection of water quality, to establish bright lines for Federal jurisdiction, and to create clear and unambiguous exemptions for features that the Administrator of the Environmental Protection Agency or the Secretary of the Army, acting through the Chief of Engineers, claim they are not seeking to regulate. (#755)**
- Stabenow amendment to establish a deficit-neutral reserve fund relating to prohibiting the purchase of stationary or electronic devices for the purpose of members of Congress or congressional staff communicating with foreign governments and undermining the role of the President as Head of State in international nuclear negotiations on behalf of the United States. (#756)
- Inhofe amendment to establish a spending-neutral reserve fund relating to grant programs of the Environmental Protection Agency that may include prohibitions on awards to any entity that has an action pending against the Agency. (#757)
- Lee amendment to establish a spending-neutral reserve fund to support legislation allowing private sector employers to offer compensatory time in lieu of overtime pay to employees who prefer flexible work schedules to better balance family, work, and personal responsibilities. (#758)
- Lee amendment to establish a spending-neutral reserve fund relating to clarifying Federal jurisdiction with respect to intrastate species. (#759)
- Fischer amendment to establish a deficit-neutral reserve fund relating to requiring an independent reliability assessment of the Clean Power Plan of the Environmental Protection Agency. (#760)
- Graham amendment to establish a deficit-neutral reserve fund relating to means-testing Medicare part B and part D premiums for Medicare beneficiaries with an annual income that exceeds \$250,000. (#761)
- Graham amendment to establish a deficit-neutral reserve fund relating to the restoration of purchasing power of the National Institutes of Health. (#762)
- Graham amendment to establish a deficit-neutral reserve fund relating to subjecting all Federal spending to sequestration. (#763)
- Graham amendment to establish a deficit-neutral reserve fund relating to preparing ports of the United States for post-Panamax ships. (#764)
- Graham amendment to establish a deficit-neutral reserve fund relating to meeting the obligations outlined in the Plutonium Management and Disposition Agreement. (#765)
- Graham amendment to establish a deficit-neutral reserve fund relating to subjecting the salaries

of Members of Congress to sequestration. (#766)

- Murkowski amendment to establish a deficit-neutral reserve fund relating to the construction of Arctic polar icebreakers. (#770)
- Ernst amendment to establish a deficit-neutral reserve fund relating to prohibits use of taxpayer dollars for first class airplane travel by Members of Congress. (#771)
- Ernst amendment to establish a deficit-neutral reserve fund to ensure public comments are utilized more effectively in the Federal rulemaking process. (#772)
- Ernst amendment to establish a deficit-neutral reserve fund to protect taxpayers by reforming the allowance and perks available to former Presidents. (#773)
- Rubio amendment to establish a deficit-neutral reserve fund relating to the availability of Federal spectrum for commercial wireless services, including unlicensed Wi-Fi. (#774)
- Rubio amendment to establish a spending-neutral reserve fund relating to the imposition of new sanctions against the Government of Iran because of that Government's support for terrorism and its human rights abuses against the people of Iran. (#775)
- Shaheen amendment to establish a deficit-neutral reserve fund to prohibit the exclusion of individuals from service on a Federal jury on account of sexual orientation or gender identity. (#776)
- **Sanders amendment to establish a deficit-neutral reserve fund to recognize that climate change is real and caused by human activity and that Congress needs to take action to cut carbon pollution. (#777)**
- Cornyn amendment to establish a deficit-neutral reserve fund relating to patents. (#778)
- Cornyn amendment to establish a deficit-neutral reserve fund to enact a taxpayer bill of rights and provide additional protections for taxpayers against abuses by Internal Revenue Service. (#779)
- Cornyn amendment to establish a deficit-neutral reserve fund relating to eliminating the backlog of sexual assault evidence kits. (#780)
- Rubio amendment to establish a spending-neutral reserve fund relating to reducing foreign assistance to the Palestinian Authority and certain United Nations agencies and increasing

foreign assistance for Israel. (#781)

- Brown amendment to establish a deficit-neutral reserve fund relating to extending the health care tax credit. (#782)
- Brown amendment to establish a deficit-neutral reserve fund relating to expansion of the earned income tax credit and the child tax credit. (#783)
- Brown amendment to establish a deficit-neutral reserve fund relating to supporting a national network for manufacturing innovation. (#784)
- Brown amendment to establish a deficit-neutral reserve fund relating to ensuring that no Federal financial aid funds are used for marketing activities. (#785)
- Brown amendment to establish a deficit-neutral reserve fund to provide 12-months of continuous enrollment in Medicaid and the Children's Health Insurance Program. (#786)
- Brown amendment to establish a deficit-neutral reserve fund to establish the prioritization of Children's Hospital Graduate Medical Education (CHGME) as a proven means to implement the development of a robust pediatric medical workforce. (#787)
- Brown amendment to establish a deficit-neutral reserve fund relating to ensuring sufficient trade enforcement resources. (#788)
- Brown amendment to establish a deficit-neutral reserve fund relating to protecting workers from misclassification as independent contractors and preventing employers from using misclassification to avoid paying their fair share of taxes. (#789)
- Manchin amendment to create a point of order against legislation that would allocate any savings achieved through spending cuts or new revenue that are not included in the concurrent resolution on the budget for any purpose other than deficit reduction or investment in the Nation's infrastructure. (#790)
- Wyden amendment to strike reconciliation instructions to the Committees on Health, Education, Labor, and Pensions and Finance and require regular order. (#791)
- Bennet amendment to establish a deficit-neutral reserve fund relating to innovation in higher education. (#792)
- Franken amendment to establish a deficit-neutral reserve fund relating to construction of Native American schools. (#793)
- Sessions amendment to establish a deficit-neutral reserve fund relating to strengthening the ability of the Department of Commerce to respond to accusations of unfair trade practices, which may include currency undervaluation. (#794)
- Cassidy amendment to establish a spending-neutral reserve fund relating to authorizing Federal permitting for manufacturing and energy construction projects relating to national primary or secondary ambient air quality standard for ozone lower than a certain existing standard. (#795)
- **Hatch amendment to establish a deficit-neutral reserve fund relating to saving Medicare.**

**(#796)**

- Fischer amendment to establish a deficit-neutral reserve fund relating to reducing headquarters staff in the Department of Defense. (#797)

- Flake amendment to establish a spending-neutral reserve fund relating to government reform and efficiency. (#668)
- Flake amendment to rescind the remaining amounts available for the Advanced Technology Vehicles Manufacturing Loan Program. (#669)
- Flake amendment to eliminate resources for the single family housing direct loan program. (#670)
- Flake amendment to eliminate the premium subsidies on crop insurance policies when the actual market price of an agricultural commodity at the time of harvest is higher than the spring price for the agricultural commodity. (#671)
- Flake amendment to prohibit earmarks. (#672)
- Flake amendment to eliminate funding for the Economic Development Administration. (#673)
- Flake amendment to eliminate taxpayer subsidies for Amtrak's food and beverage service. (#674)
- Flake amendment to eliminate resources for Select USA. (#675)
- Flake amendment to prohibit taxpayers from subsidizing officials of the Department of Health and Human Services flying in business and first-class seating. (#676)
- Flake amendment to establish a deficit-neutral reserve fund relating to preventing political targeting by the Internal Revenue Service of individuals and social welfare organizations exercising free-speech rights. (#677)
- Flake amendment to establish a spending-neutral reserve fund relating to prosecution of first-time illegal border crossers. (#678)
- Portman amendment to establish a spending-neutral reserve fund relating to the empowerment of States to protect citizens of the State from damaging regulations of the Environmental Protection Agency pursuant to the Clean Air Act. (#679)
- Portman amendment to establish a deficit-neutral reserve fund relating to legislation to furlough Federal employees with serious tax delinquencies. (#680)
- Portman amendment to establish a deficit-neutral reserve fund relating to demolishing vacant and abandoned homes. (#681)

- Portman amendment to create a point of order against legislation that would not achieve a unified budget surplus after 2024. (#682)
- Portman amendment to create a point of order against legislation that would create a carbon tax or a cap-and-trade policy relating to carbon emissions. (#683)
- Portman amendment to establish a deficit-neutral reserve fund relating to repealing any tax increases imposed by President Obama on middle-class families. (#684)
- Portman amendment to establish a deficit-neutral reserve fund relating to making permanent the expensing limitation applicable for 2014 for section 179 property. (#685)
- Portman amendment to establish a deficit-neutral reserve fund relating to increasing the age limitation applicable to dependent care assistance programs. (#686)
- Portman amendment to establish a deficit-neutral reserve fund relating to allowing private sector employees the ability to work flexible schedules. (#687)
- Portman amendment to establish a spending-neutral reserve fund relating to providing funding for the National Park Service Centennial. (#688)
- Portman amendment to improve the dynamic scoring provision. (#689)
- Portman amendment to establish a spending-neutral reserve fund relating to the equitable treatment of existing, new, and proposed nuclear generating capacity in the economically damaging Clean Power Plan. (#690)
- Scott amendment to establish a deficit-neutral reserve fund relating to providing States with flexibility in determining the size of employers in the small group market. (#691)
- Scott amendment to establish a deficit-neutral reserve fund relating to transparency in health premium billing. (#692)
- Rounds amendment to modify section 431 relating to oversight of Government performance. (#693)
- Manchin amendment to establish a deficit-neutral reserve fund relating to investing in advanced fossil energy technology research and development. (#694)
- Shaheen amendment to save taxpayers billions by limiting \$50,000 annually the maximum amount of premium subsidy provided by the Federal Crop Insurance Corporation to individual agricultural producers. (#696)
- Murray amendment to establish a deficit-neutral reserve fund for legislation that reforms and strengthens elementary and secondary education. (#697)
- Whitehouse amendment to establish a deficit-neutral reserve fund relating to supporting funding regulatory work of the Environmental Protection Agency that delivers substantial benefits to public health and the economy. (#698)

- Whitehouse amendment to establish a deficit-neutral reserve fund relating to providing resources to protect and preserve oceans and coasts. (#699)
- Whitehouse amendment to ensure high-income earners pay a fair share in taxes and to use the revenue to invest in repairing our Nation's bridges, coastal infrastructure, and damage wildfires. (#700)
- Shaheen amendment to establish a deficit-neutral reserve fund relating to improvements to the appeals process of the Department of Veterans Affairs for claims relating to disability compensation. (#701)
- Shaheen amendment to establish a deficit-neutral reserve fund relating to efforts associated with combating the heroin addiction epidemic. (#702)
- Shaheen amendment to establish a deficit-neutral reserve fund to enhance drug treatment courts. (#703)
- Shaheen amendment to establish a deficit-neutral reserve fund to enhance veteran treatment courts. (#704)
- Menendez amendment to establish a deficit-neutral reserve fund relating to Indo-Pacific partner capacity building and strategy. (#705)
- Markey amendment to establish a deficit-neutral reserve fund relating to achieving savings in the nuclear security enterprise. (#706)
- Markey amendment to establish a deficit-neutral reserve fund relating to reducing overdose deaths. (#707)
- Wyden amendment to establish a deficit-neutral reserve fund relating to simplifying and expanding tax incentives for higher education to boost student attendance and completion. (#708)
- Manchin amendment to establish a deficit-neutral reserve fund relating to implementing recommendations of the Government Accountability Office to reduce or eliminate overlapping or duplicative Federal programs. (#709)
- Franken amendment to establish a deficit-neutral reserve fund relating to enhancing funding for programs carried out under the Head Start Act. (#710)
- Franken amendment provide additional resources to save student financial aid and keep college affordable for more than 8,000,000 low- and middle-income students by restoring the \$89,000,000 in cuts to Federal Pell Grants in the Republican budget. (#711)
- Franken amendment to provide an additional use for the deficit-neutral reserve fund for higher education. (#712)
- Murphy amendment to establish a deficit-neutral reserve fund relating to comprehensive mental health reform. (#713)

- Bennet amendment to establish a deficit-neutral reserve fund relating to chemical disclosure. (#714)
- Bennet amendment to create clean energy jobs through predictable and fair incentive for renewable energy. (#715)
- Booker amendment to establish a deficit-neutral reserve fund to support the robust funding of the Community Oriented Policing Services grant program. (#716)
- Booker amendment to establish a deficit-neutral reserve fund relating to the effectiveness and availability of Bureau of Prisons programs. (#717)
- Booker amendment to establish a deficit-neutral reserve fund relating to supporting child savings accounts and asset building. (#718)
- Booker amendment to establish a deficit-neutral reserve fund relating to cleaning up federally designated Superfund sites. (#719)
- Booker amendment to establish a deficit-neutral reserve fund relating to supporting workforce development through apprenticeship programs. (#720)
- Booker amendment to establish a deficit-neutral reserve fund to encourage freight planning and investment that incorporates all modes of transportation, including rail, waterways, ports, and highways to promote national connectivity. (#721)
- Booker amendment to establish a deficit-neutral reserve fund relating to prohibiting payments for conversion or treatments that purport to change the gender identity or sexual orientation of an individual under Medicare and Medicaid programs. (#722)
- Booker amendment to establish a deficit-neutral reserve fund relating to reducing the average adjusted gross income eligibility criteria for persons or legal entities who qualify for farm subsidy program benefits (#723)
- Kaine amendment to establish a deficit-neutral reserve fund relating to increasing United States exports and improving the competitiveness of United States businesses. (#724)
- Booker amendment to establish a deficit-neutral reserve fund relating to ensuring diversity in procurement and hiring at all Federal pension plans. (#725)
- Booker amendment to establish a deficit-neutral reserve fund relating to the protection of State and local economies from the impacts of climate change, including increased storm surge events. (#726)
- Booker amendment to establish a deficit-neutral reserve fund relating to municipal broadband expansion, to aid cities and municipalities in rural and low-income areas seeking to invest in municipal broadband networks or private-public partnerships for broadband buildout. (#727)
- Booker amendment to establish a deficit-neutral reserve fund relating to supporting mentoring programs for at-risk youth. (#728)
- Cardin amendment to establish a deficit-neutral reserve fund to invest in surface transportation

projects. (#729)

- Murkowski amendment to establish a deficit-neutral reserve fund relating to development of the Long Range Discrimination Radar of the Missile Defense Agency. (#730)
- Murkowski amendment to establish a deficit-neutral reserve fund to increase access to health care providers for Medicare beneficiaries. (#731)
- Murkowski amendment to establish a spending-neutral reserve fund relating to authorizing advance appropriations for the Indian Health Service. (#732)
- Murkowski amendment to establish a deficit-neutral reserve fund relating to an active duty mend strength for the Army for fiscal year 2016 of 490,000 soldiers. (#733)
- Murkowski amendment to establish a spending-neutral reserve fund relating to the Department of Defense Innovative Readiness Training Program. (#734)
- Murkowski amendment to establish a deficit-neutral reserve fund relating to the outreach and delivery of Department of Veterans Affairs programs and services to veterans residing in United States communities not connected to the North American road system. (#735)
- Murkowski amendment to exempt advance appropriations for the Indian Health Services and Indian Health Facilities accounts of the Indian Health Service from a point of order against legislation that would provide an advance appropriation. (#736)
- Murkowski amendment to establish a deficit-neutral reserve fund to establish a DNRF relating to providing for the expansion of Amyotrophic Lateral Sclerosis (Lou Gehrig's Disease) research in the Department of Defense's peer reviewed Medical Research Program. (#737)
- Murkowski amendment to establish a deficit-neutral reserve fund relating to environmental remediation of land transferred under certain Acts that is contaminated by Federal agencies and activities. (#738)
- Murkowski amendment to establish a spending-neutral reserve fund relating to robust sexual assault investigations by the National Guard Bureau Office of Complex Investigations. (#739)
- Murkowski amendment to establish a deficit-neutral reserve fund relating to the funding of certain tribal courts by the Bureau of Indian Affairs. (#740)
- Thune amendment to establish a deficit-neutral reserve fund to allow for legislation to provide for long-term budget analyses. (#741)
- Thune amendment to establish a deficit-neutral reserve fund relating to reforming the unemployment insurance program in a manner that incentivizes work and worker training for the long-term unemployed, helps the long-term unemployed reenter the workforce, recognizes the demands on State budgets, and does not increase financial burdens on employers. (#742)
- Thune amendment to reduce funding for the General Services Administration by \$1,000,000 until 50 percent of counties in nonattainment for the 1997 National Ambient Air Quality Standards (NAAQS) for ground-level ozone as of January 30, 2015, achieve the air quality standard set forth in the 1997 NAAQS, and direct those funds to the Administrator of the Environmental

Protection Agency for the purpose of helping municipalities reach attainment with the 2008 NAAQS for ground-level ozone, acknowledging that (1) given limited State and Federal resources and the delay of the Administrator in issuing to States implementation guidance for the 2008 ground-level ozone NAAQS, priority should be given to achieving the 2008 standard, (2) the Administrator has not sufficiently implemented that standard, (3) focusing by the Administrator on the most polluted areas that are in nonattainment with that standard would benefit public health, and (4) promulgating a lower standard at this time would impose undue costs on the economy and workforce of the United States. (#743)

- Daines amendment to establish a deficit-neutral reserve fund relating to ensuring transparency of costs of completing analyses required under the National Environmental Policy Act of 1969. (#744)
- Lee amendment to establish a spending-neutral reserve fund relating to allowing oil shale development on Federal land. (#745)
- Lee amendment to establish a spending-neutral reserve fund relating to establishing reasonable deadlines for processes under the National Environmental Policy Act of 1969. (#746)
- Lee amendment to establish a spending-neutral reserve fund relating to selling nonessential Federal land with proceeds going to Federal deficit reduction. (#747)
- Lee amendment to create a point of order against legislation that would further restrict the right of law-abiding Americans to own a firearm. (#748)
- Lee amendment to ensure that the reserve fund relating to affordable healthcare choices for all is used to repeal and not further empower the Patient Protection and Affordable Care Act. (#749)
- Lee amendment to modify the spending-neutral reserve fund reauthorizing funding for payments to counties and other units of local government to ensure payment at levels roughly equivalent to property tax revenues lost due to the presence of Federal land. (#750)
- Lee amendment to establish a spending-neutral reserve fund to support legislation maintaining United States oversight over functions of the Internet Corporation for Assigned Names and Numbers and preventing the United States from transferring such Internet responsibilities. (#751)
- Lee amendment to establish a spending-neutral reserve fund relating to encouraging the United States' NATO allies to reverse declines in defense spending and bear a more proportionate burden for ensuring the security of NATO. (#752)
- Lee amendment to establish a spending-neutral reserve fund relating to sufficient number of uniformed maintenance personnel in the Air Force for the F-35A aircraft program to reach initial operational capacity and full operational capacity on schedule. (#753)
- Lee amendment to establish a spending-neutral reserve fund relating to supporting legislation allowing a repeal of the Davis-Bacon Act. (#754)
- *Stabenow amendment to establish a deficit-neutral reserve fund relating to keeping the Federal Water Pollution Control Act focused on protection of water quality, to establish bright lines for Federal jurisdiction, and to create clear and unambiguous exemptions for features that the Administrator of the Environmental Protection Agency or the Secretary of the Army, acting through the Chief of Engineers, claim they are not seeking to regulate. (#755)*

- Stabenow amendment to establish a deficit-neutral reserve fund relating to prohibiting the purchase of stationary or electronic devices for the purpose of members of Congress or congressional staff communicating with foreign governments and undermining the role of the President as Head of State in international nuclear negotiations on behalf of the United States. (#756)
- Inhofe amendment to establish a spending-neutral reserve fund relating to grant programs of the Environmental Protection Agency that may include prohibitions on awards to any entity that has an action pending against the Agency. (#757)
- Lee amendment to establish a spending-neutral reserve fund to support legislation allowing private sector employers to offer compensatory time in lieu of overtime pay to employees who prefer flexible work schedules to better balance family, work, and personal responsibilities. (#758)
- Lee amendment to establish a spending-neutral reserve fund relating to clarifying Federal jurisdiction with respect to intrastate species. (#759)
- Fischer amendment to establish a deficit-neutral reserve fund relating to requiring an independent reliability assessment of the Clean Power Plan of the Environmental Protection Agency. (#760)
- Graham amendment to establish a deficit-neutral reserve fund relating to means-testing Medicare part B and part D premiums for Medicare beneficiaries with an annual income that exceeds \$250,000. (#761)
- Graham amendment to establish a deficit-neutral reserve fund relating to the restoration of purchasing power of the National Institutes of Health. (#762)
- Graham amendment to establish a deficit-neutral reserve fund relating to subjecting all Federal spending to sequestration. (#763)
- Graham amendment to establish a deficit-neutral reserve fund relating to preparing ports of the United States for post-Panamax ships. (#764)
- Graham amendment to establish a deficit-neutral reserve fund relating to meeting the obligations outlined in the Plutonium Management and Disposition Agreement. (#765)
- Graham amendment to establish a deficit-neutral reserve fund relating to subjecting the salaries of Members of Congress to sequestration. (#766)
- Murkowski amendment to establish a spending-neutral reserve fund relating to the National Guard Youth Challenge Program. (#767)
- Murkowski amendment to establish a deficit-neutral reserve fund relating to reducing Transportation Security Administration passenger fees to \$2.50 per enplanement and not more than \$5.00 per round trip between points in Alaska and Hawaii and on flights from essential air service airports. (#768)
- Murkowski amendment to establish a spending-neutral reserve fund relating to the labeling of

genetically engineered fish. (#769)

- Murkowski amendment to establish a deficit-neutral reserve fund relating to the construction of Arctic polar icebreakers. (#770)
- Ernst amendment to establish a deficit-neutral reserve fund relating to prohibits use of taxpayer dollars for first class airplane travel by Members of Congress. (#771)
- Ernst amendment to establish a deficit-neutral reserve fund to ensure public comments are utilized more effectively in the Federal rulemaking process. (#772)
- Ernst amendment to establish a deficit-neutral reserve fund to protect taxpayers by reforming the allowance and perks available to former Presidents. (#773)
- Rubio amendment to establish a deficit-neutral reserve fund relating to the availability of Federal spectrum for commercial wireless services, including unlicensed Wi-Fi. (#774)
- Rubio amendment to establish a spending-neutral reserve fund relating to the imposition of new sanctions against the Government of Iran because of that Government's support for terrorism and its human rights abuses against the people of Iran. (#775)
- Shaheen amendment to establish a deficit-neutral reserve fund to prohibit the exclusion of individuals from service on a Federal jury on account of sexual orientation or gender identity. (#776)
- *Sanders amendment to establish a deficit-neutral reserve fund to recognize that climate change is real and caused by human activity and that Congress needs to take action to cut carbon pollution. (#777, as modified)*
- Cornyn amendment to establish a deficit-neutral reserve fund relating to patents. (#778)
- Cornyn amendment to establish a deficit-neutral reserve fund to enact a taxpayer bill of rights and provide additional protections for taxpayers against abuses by Internal Revenue Service. (#779)
- Cornyn amendment to establish a deficit-neutral reserve fund relating to eliminating the backlog of sexual assault evidence kits. (#780)
- Rubio amendment to establish a spending-neutral reserve fund relating to reducing foreign assistance to the Palestinian Authority and certain United Nations agencies and increasing foreign assistance for Israel. (#781)
- Brown amendment to establish a deficit-neutral reserve fund relating to extending the health care tax credit. (#782)
- Brown amendment to establish a deficit-neutral reserve fund relating to expansion of the earned income tax credit and the child tax credit. (#783)
- Brown amendment to establish a deficit-neutral reserve fund relating to supporting a national network for manufacturing innovation. (#784)

- Brown amendment to establish a deficit-neutral reserve fund relating to ensuring that no Federal financial aid funds are used for marketing activities. (#785)
- Brown amendment to establish a deficit-neutral reserve fund to provide 12-months of continuous enrollment in Medicaid and the Children's Health Insurance Program. (#786)
- Brown amendment to establish a deficit-neutral reserve fund to establish the prioritization of Children's Hospital Graduate Medical Education (CHGME) as a proven means to implement the development of a robust pediatric medical workforce. (#787)
- Brown amendment to establish a deficit-neutral reserve fund relating to ensuring sufficient trade enforcement resources. (#788)
- Brown amendment to establish a deficit-neutral reserve fund relating to protecting workers from misclassification as independent contractors and preventing employers from using misclassification to avoid paying their fair share of taxes. (#789)
- Manchin amendment to create a point of order against legislation that would allocate any savings achieved through spending cuts or new revenue that are not included in the concurrent resolution on the budget for any purpose other than deficit reduction or investment in the Nation's infrastructure. (#790)
- Wyden amendment to strike reconciliation instructions to the Committees on Health, Education, Labor, and Pensions and Finance and require regular order. (#791)
- Bennet amendment to establish a deficit-neutral reserve fund relating to innovation in higher education. (#792)
- Franken amendment to establish a deficit-neutral reserve fund relating to construction of Native American schools. (#793)
- Sessions amendment to establish a deficit-neutral reserve fund relating to strengthening the ability of the Department of Commerce to respond to accusations of unfair trade practices, which may include currency undervaluation. (#794)
- Cassidy amendment to establish a spending-neutral reserve fund relating to authorizing Federal permitting for manufacturing and energy construction projects relating to national primary or secondary ambient air quality standard for ozone lower than a certain existing standard. (#795)
- **Hatch amendment to establish a deficit-neutral reserve fund relating to saving Medicare. (#796)**
- Fischer amendment to establish a deficit-neutral reserve fund relating to reducing headquarters staff in the Department of Defense. (#797)
- Murray amendment to establish a deficit-neutral reserve fund for legislation to allow Americans to earn paid sick time. (#798)
- Menendez amendment to establish a deficit-neutral reserve fund relating to funding for programs related to governing justly and democratically. (#799)

- Cantwell amendment to establish a deficit-neutral reserve fund relating to a comprehensive approach to crude-by-rail safety. (#800)
- **Murray amendment to build on the Bipartisan Budget Act of 2013 by restoring a below-sequester level cut of \$9,000,000,000 to nondefense discretionary spending in 2017, replacing sequestration in 2016 and 2017 and increasing funding above sequester by a total of \$148,000,000,000 for the 2 years, increasing defense and nondefense discretionary spending above sequester levels by equal amounts, eliminating the overseas contingency operations gimmick contained in the committee-reported resolution, and offsetting the net increase in defense and nondefense discretionary spending by closing tax loopholes. (#801)**
- Coons amendment to offset the costs of the war against the Islamic State in Iraq and Syria. (#802)
- Franken amendment to ensure that the deficit-neutral reserve fund for infrastructure includes investment in rural broadband deployment. (#803)
- Brown amendment to establish a deficit-neutral reserve fund relating to student loans. (#804)
- Corker amendment to establish a deficit-neutral reserve fund to prevent the sale of Senior Preferred Stock of Fannie Mae and Freddie Mac by the Secretary of the Treasury without the consent of Congress. (#805)
- Cassidy amendment to create a point of order against any legislation that would authorize Federal funds appropriated for processing naturalization applications to be used for any other purpose. (#806)
- Cassidy amendment to create a point of order against legislation that would permit using certain funds to process immigration benefit applications. (#807)
- Thune amendment to establish a deficit-neutral reserve fund to permanently extend the Internet Tax Freedom Act and to establish rules for taxation of digital goods and services. (#808)
- Vitter amendment to restore students' right to privacy of education records by ensuring parental consent of records release in all cases and prohibiting collection of psychological or behavioral data. (#809)
- Collins amendment to establish a deficit-neutral reserve fund relating to increasing access to higher education for low-income Americans through the Federal Pell Grant program. (#810)
- **Vitter amendment to establish a deficit-neutral reserve fund relating to ending Washington's illegal exemption from Patient Protection and Affordable Care Act. (#811)**
- Murray amendment to establish a deficit-neutral reserve fund to provide women with affordable access to comprehensive health care, including preventive services (such as contraception and breast cancer screenings), improve maternal health, and ensure that a woman has the same benefits and services no matter what part of the United States she lives in, all of which is critical to improving the health and well-being of women, children, their families, and society as a whole, and is an essential part of a woman's economic security and opportunity. (#812)
- Durbin amendment to establish a deficit-neutral reserve fund relating to improving oversight and

accountability of for-profit colleges. (#813)

- Durbin amendment to establish a deficit-neutral reserve fund relating to preventing exploitation of veterans and servicemembers seeking postsecondary education. (#814)
- Durbin amendment to establish a deficit-neutral reserve fund related to prohibiting inverted corporations from avoiding United States taxes. (#815)
- Durbin amendment to establish a deficit-neutral reserve fund to prevent certain corporations from profiting from government contracts. (#816)
- Durbin amendment to establish a deficit-neutral reserve fund to provide tax benefits to patriot employers that invest in American jobs and provide fair pay and benefits to workers and to eliminate tax benefits for corporations that ship jobs or profits overseas. (#817)
- Flake amendment to establish a spending-neutral reserve fund relating to funding for the Overseas Private Investment Corporation. (#818)
- Flake amendment to establish a spending-neutral reserve fund relating to the repeal of the extension of the wind production tax credit. (#819)
- Flake amendment to establish a spending-neutral reserve fund relating to prohibiting funding for the Defense Rapid Innovation Program. (#820)
- Flake amendment to establish a spending-neutral reserve fund relating to prohibiting the Forest Service from finalizing and implementing a certain proposed groundwater directive. (#821)
- Flake amendment to eliminate Federal duplication and consolidate the 94 Federal green building programs spread across 11 different Federal agencies. (#822)
- Flake amendment to establish a spending-neutral reserve fund relating to implementing the recommendations of the Government Accountability Office to consolidate financial literacy programs. (#823)
- Flake amendment to establish a spending-neutral reserve fund relating to enabling transparency in the Federal crop insurance program, which may include disclosing the names of recipients of Federal subsidy payments for crop insurance premiums. (#824)
- Blumenthal amendment to expand the deficit-neutral reserve fund for veterans and servicemembers. (#825)
- Barrasso amendment to establish a deficit-neutral reserve fund relating to the repeal of the annual fee on health insurance providers imposed by the Patient Protection and Affordable Care Act. (#826)
- Hatch amendment to establish a spending-neutral reserve fund relating to reforming the Federal regulatory process by enabling retrospective review of existing regulations, improving the process by which new regulations are created, ensuring fair and effective judicial review, and securing an effective role for Congress in the Federal regulatory process through legislation and oversight. (#827)

- Franken amendment to provide additional resources to save student financial aid and keep college affordable for more than 8,000,000 low- and middle-income students by restoring the \$89,000,000,000 in cuts to Federal Pell Grants in the Republican budget. (#828)
- Brown amendment to establish a deficit-neutral reserve fund relating to maintaining the critical infrastructure security of the United States natural gas pipeline system with respect to physical damages or cyber security-related impacts. (#829)
- Moran-Blumenthal amendment to establish a deficit-neutral reserve fund relating to researching health conditions of the descendants of veterans exposed to toxic substances during services in the Armed Forces. (#830)
- Shaheen amendment to establish a deficit-neutral reserve fund relating to encouraging institutions of higher education to make college more affordable by reducing the cost of attendance for students and families. (#831)
- Shaheen amendment to establish a deficit-neutral reserve fund to ensure all women covered by TRICARE have no-cost contraception coverage and to improve access to emergency contraception for women members of the Armed Forces. (#832)
- Boxer amendment to establish a deficit-neutral reserve fund relating to the protection of State and local economies from the impacts of climate change, including extreme and exceptional drought. (#833)
- Boxer amendment to establish a deficit-neutral reserve fund relating to public health and welfare of States and local communities. (#834)
- Sanders amendment to establish a deficit-neutral reserve fund relating to offsetting the cost of operations against the Islamic State. (#835)
- McConnell amendment to establish a deficit-neutral reserve fund relating to the regulation by the Environmental Protection Agency of greenhouse gas emissions, which may include a prohibition on withholding highway funds from States that refuse to submit State Implementation Plans required under the Clean Power Plan of the Agency. (#836)
- Alexander amendment to establish a deficit-neutral reserve fund relating to protecting the privacy rights of employees. (#837)
- Murkowski amendment to establish a spending-neutral reserve fund relating to the disposal of certain Federal land. (#838)
- Isakson amendment to establish a deficit-neutral reserve fund relating to supporting United States citizens held hostage in the United States embassy in Tehran, Iran, between November 3, 1979, and January 20, 1981. (#839)
- Cardin amendment to establish a deficit-neutral reserve fund relating to providing funding for State and local law enforcement agencies that receive Federal funds to be used for data collection related to profiling guidance issued by the Department of Justice. (#840)
- Udall amendment to establish a deficit-neutral reserve fund relating to provision of educational assistance to veterans who served in the reserves in Afghanistan or Iraq. (#841)

- Merkley amendment to establish a deficit-neutral reserve fund relating to consumer financial protection. (#842)
- Merkley amendment to establish a deficit-neutral reserve fund relating to restoring reductions in the Republican budget to the Stafford loan program that would mandate that students currently in college pay interest on their loans before they have received their educational benefits, to make college more affordable, to reduce the debt burden of students, and to help graduates afford to pay back student loans. (#843)
- Merkley amendment to establish a deficit-neutral reserve fund relating to restoring cuts in the Republican budget to the Federal Pell Grant and Stafford loan programs that would force more families to take on debt for education and mandate that students currently in college pay interest on their loans before they have received their education benefits, to make college more affordable, to reduce the debt burden of students, and to help graduates afford to pay back student loans. (#844)
- Merkley amendment to establish a deficit-neutral reserve fund relating to trade agreements. (#845)
- Merkley amendment to save student financial aid and reduce the student loan debt levels in the Republican budget by 15 percent through removing mandated interest payments for students. (#846)
- Scott amendment to require information on settlement agreements. (#847)
- Ayotte amendment to establish a deficit-neutral reserve fund relating to the Medicare home health face-to-face documentation requirement. (#848)
- Vitter amendment to end birthright citizenship. (#849)
- Vitter amendment to establish a deficit-neutral reserve fund relating to ending President Obama's illegal executive amnesty. (#850)
- Ayotte amendment to establish a deficit-neutral reserve fund to rein in onerous fishing regulations and provide disaster relief for fisheries. (#851)
- Ayotte amendment to establish a deficit-neutral reserve fund relating to providing small business regulatory relief and preventing duplicative regulations for investment advisors. (#852)
- Coats to preserve the integrity of college athletes. (#853)
- Hoeven amendment to establish a deficit-neutral reserve fund relating to repealing the limitation on health flexible spending arrangements. (#854)
- Lee amendment to prohibit the public debt limit under reconciliation. (#855)
- Lee amendment to establish a spending-neutral reserve fund to support legislation preventing the Federal Communications Commission from reclassifying broadband providers as common carriers under title II of the Communications Act of 1934 and from implementing other "net neutrality" provisions. (#856)

- Thune amendment to establish a deficit-neutral reserve fund relating to reforming the unemployment insurance program in a manner that incentivizes work and worker training for the long-term unemployed, helps the long-term unemployed reenter the workforce, recognizes the demands on State budgets, and does not increase financial burdens on employers. (#742)
- Thune amendment to reduce funding for the General Services Administration by \$1,000,000 until 50 percent of counties in nonattainment for the 1997 National Ambient Air Quality Standards (NAAQS) for ground-level ozone as of January 30, 2015, achieve the air quality standard set forth in the 1997 NAAQS, and direct those funds to the Administrator of the Environmental Protection Agency for the purpose of helping municipalities reach attainment with the 2008 NAAQS for ground-level ozone, acknowledging that (1) given limited State and Federal resources and the delay of the Administrator in issuing to States implementation guidance for the 2008 ground-level ozone NAAQS, priority should be given to achieving the 2008 standard, (2) the

Administrator has not sufficiently implemented that standard, (3) focusing by the Administrator on the most polluted areas that are in nonattainment with that standard would benefit public health, and (4) promulgating a lower standard at this time would impose undue costs on the economy and workforce of the United States. (#743)

- Daines amendment to establish a deficit-neutral reserve fund relating to ensuring transparency of costs of completing analyses required under the National Environmental Policy Act of 1969. (#744)
- Lee amendment to establish a spending-neutral reserve fund relating to allowing oil shale development on Federal land. (#745)
- Lee amendment to establish a spending-neutral reserve fund relating to establishing reasonable deadlines for processes under the National Environmental Policy Act of 1969. (#746)
- Lee amendment to establish a spending-neutral reserve fund relating to selling nonessential Federal land with proceeds going to Federal deficit reduction. (#747)
- Lee amendment to create a point of order against legislation that would further restrict the right of law-abiding Americans to own a firearm. (#748)
- Lee amendment to ensure that the reserve fund relating to affordable healthcare choices for all is used to repeal and not further empower the Patient Protection and Affordable Care Act. (#749)
- Lee amendment to modify the spending-neutral reserve fund reauthorizing funding for payments to counties and other units of local government to ensure payment at levels roughly equivalent to property tax revenues lost due to the presence of Federal land. (#750)
- Lee amendment to establish a spending-neutral reserve fund to support legislation maintaining United States oversight over functions of the Internet Corporation for Assigned Names and Numbers and preventing the United States from transferring such Internet responsibilities. (#751)
- Lee amendment to establish a spending-neutral reserve fund relating to encouraging the United States' NATO allies to reverse declines in defense spending and bear a more proportionate burden for ensuring the security of NATO. (#752)
- Lee amendment to establish a spending-neutral reserve fund relating to sufficient number of uniformed maintenance personnel in the Air Force for the F-35A aircraft program to reach initial operational capacity and full operational capacity on schedule. (#753)
- Lee amendment to establish a spending-neutral reserve fund relating to supporting legislation allowing a repeal of the Davis-Bacon Act. (#754)
- *Stabenow amendment to establish a deficit-neutral reserve fund relating to keeping the Federal Water Pollution Control Act focused on protection of water quality, to establish bright lines for Federal jurisdiction, and to create clear and unambiguous exemptions for features that the Administrator of the Environmental Protection Agency or the Secretary of the Army, acting through the Chief of Engineers, claim they are not seeking to regulate. (#755)*
- Stabenow amendment to establish a deficit-neutral reserve fund relating to prohibiting the purchase of stationary or electronic devices for the purpose of members of Congress or congressional staff communicating with foreign governments and undermining the role of the

President as Head of State in international nuclear negotiations on behalf of the United States. (#756)

- Inhofe amendment to establish a spending-neutral reserve fund relating to grant programs of the Environmental Protection Agency that may include prohibitions on awards to any entity that has an action pending against the Agency. (#757)
- Lee amendment to establish a spending-neutral reserve fund to support legislation allowing private sector employers to offer compensatory time in lieu of overtime pay to employees who prefer flexible work schedules to better balance family, work, and personal responsibilities. (#758)
- Lee amendment to establish a spending-neutral reserve fund relating to clarifying Federal jurisdiction with respect to intrastate species. (#759)
- Fischer amendment to establish a deficit-neutral reserve fund relating to requiring an independent reliability assessment of the Clean Power Plan of the Environmental Protection Agency. (#760)
- Graham amendment to establish a deficit-neutral reserve fund relating to means-testing Medicare part B and part D premiums for Medicare beneficiaries with an annual income that exceeds \$250,000. (#761)
- Graham amendment to establish a deficit-neutral reserve fund relating to the restoration of purchasing power of the National Institutes of Health. (#762)
- Graham amendment to establish a deficit-neutral reserve fund relating to subjecting all Federal spending to sequestration. (#763)
- Graham amendment to establish a deficit-neutral reserve fund relating to preparing ports of the United States for post-Panamax ships. (#764)
- Graham amendment to establish a deficit-neutral reserve fund relating to meeting the obligations outlined in the Plutonium Management and Disposition Agreement. (#765)
- Graham amendment to establish a deficit-neutral reserve fund relating to subjecting the salaries of Members of Congress to sequestration. (#766)
- Murkowski amendment to establish a spending-neutral reserve fund relating to the National Guard Youth Challenge Program. (#767)
- Murkowski amendment to establish a deficit-neutral reserve fund relating to reducing Transportation Security Administration passenger fees to \$2.50 per enplanement and not more than \$5.00 per round trip between points in Alaska and Hawaii and on flights from essential air service airports. (#768)
- Murkowski amendment to establish a spending-neutral reserve fund relating to the labeling of genetically engineered fish. (#769)
- Murkowski amendment to establish a deficit-neutral reserve fund relating to the construction of Arctic polar icebreakers. (#770)

- Ernst amendment to establish a deficit-neutral reserve fund relating to prohibits use of taxpayer dollars for first class airplane travel by Members of Congress. (#771)
- Ernst amendment to establish a deficit-neutral reserve fund to ensure public comments are utilized more effectively in the Federal rulemaking process. (#772)
- Ernst amendment to establish a deficit-neutral reserve fund to protect taxpayers by reforming the allowance and perks available to former Presidents. (#773)
- Rubio amendment to establish a deficit-neutral reserve fund relating to the availability of Federal spectrum for commercial wireless services, including unlicensed Wi-Fi. (#774)
- Rubio amendment to establish a spending-neutral reserve fund relating to the imposition of new sanctions against the Government of Iran because of that Government's support for terrorism and its human rights abuses against the people of Iran. (#775)
- Shaheen amendment to establish a deficit-neutral reserve fund to prohibit the exclusion of individuals from service on a Federal jury on account of sexual orientation or gender identity. (#776)
- *Sanders amendment to establish a deficit-neutral reserve fund to recognize that climate change is real and caused by human activity and that Congress needs to take action to cut carbon pollution. (#777, as modified)*
- Cornyn amendment to establish a deficit-neutral reserve fund relating to patents. (#778)
- Cornyn amendment to establish a deficit-neutral reserve fund to enact a taxpayer bill of rights and provide additional protections for taxpayers against abuses by Internal Revenue Service. (#779)
- Cornyn amendment to establish a deficit-neutral reserve fund relating to eliminating the backlog of sexual assault evidence kits. (#780)
- Rubio amendment to establish a spending-neutral reserve fund relating to reducing foreign assistance to the Palestinian Authority and certain United Nations agencies and increasing foreign assistance for Israel. (#781)
- Brown amendment to establish a deficit-neutral reserve fund relating to extending the health care tax credit. (#782)
- Brown amendment to establish a deficit-neutral reserve fund relating to expansion of the earned income tax credit and the child tax credit. (#783)
- Brown amendment to establish a deficit-neutral reserve fund relating to supporting a national network for manufacturing innovation. (#784)
- Brown amendment to establish a deficit-neutral reserve fund relating to ensuring that no Federal financial aid funds are used for marketing activities. (#785)
- Brown amendment to establish a deficit-neutral reserve fund to provide 12-months of continuous

enrollment in Medicaid and the Children's Health Insurance Program. (#786)

- Brown amendment to establish a deficit-neutral reserve fund to establish the prioritization of Children's Hospital Graduate Medical Education (CHGME) as a proven means to implement the development of a robust pediatric medical workforce. (#787)
- Brown amendment to establish a deficit-neutral reserve fund relating to ensuring sufficient trade enforcement resources. (#788)
- Brown amendment to establish a deficit-neutral reserve fund relating to protecting workers from misclassification as independent contractors and preventing employers from using misclassification to avoid paying their fair share of taxes. (#789)
- Manchin amendment to create a point of order against legislation that would allocate any savings achieved through spending cuts or new revenue that are not included in the concurrent resolution on the budget for any purpose other than deficit reduction or investment in the Nation's infrastructure. (#790)
- Wyden amendment to strike reconciliation instructions to the Committees on Health, Education, Labor, and Pensions and Finance and require regular order. (#791)
- Bennet amendment to establish a deficit-neutral reserve fund relating to innovation in higher education. (#792)
- Franken amendment to establish a deficit-neutral reserve fund relating to construction of Native American schools. (#793)
- Sessions amendment to establish a deficit-neutral reserve fund relating to strengthening the ability of the Department of Commerce to respond to accusations of unfair trade practices, which may include currency undervaluation. (#794)
- Cassidy amendment to establish a spending-neutral reserve fund relating to authorizing Federal permitting for manufacturing and energy construction projects relating to national primary or secondary ambient air quality standard for ozone lower than a certain existing standard. (#795)
- **Hatch amendment to establish a deficit-neutral reserve fund relating to saving Medicare. (#796)**
- Fischer amendment to establish a deficit-neutral reserve fund relating to reducing headquarters staff in the Department of Defense. (#797)
- Murray amendment to establish a deficit-neutral reserve fund for legislation to allow Americans to earn paid sick time. (#798)
- Menendez amendment to establish a deficit-neutral reserve fund relating to funding for programs related to governing justly and democratically. (#799)
- Cantwell amendment to establish a deficit-neutral reserve fund relating to a comprehensive approach to crude-by-rail safety. (#800)
- *Murray amendment to build on the Bipartisan Budget Act of 2013 by restoring a below-sequester*

*level cut of \$9,000,000,000 to nondefense discretionary spending in 2017, replacing sequestration in 2016 and 2017 and increasing funding above sequester by a total of \$148,000,000,000 for the 2 years, increasing defense and nondefense discretionary spending above sequester levels by equal amounts, eliminating the overseas contingency operations gimmick contained in the committee-reported resolution, and offsetting the net increase in defense and nondefense discretionary spending by closing tax loopholes. (#801)*

- Coons amendment to offset the costs of the war against the Islamic State in Iraq and Syria. (#802)
- Franken amendment to ensure that the deficit-neutral reserve fund for infrastructure includes investment in rural broadband deployment. (#803)
- Brown amendment to establish a deficit-neutral reserve fund relating to student loans. (#804)
- Corker amendment to establish a deficit-neutral reserve fund to prevent the sale of Senior Preferred Stock of Fannie Mae and Freddie Mac by the Secretary of the Treasury without the consent of Congress. (#805)
- Cassidy amendment to create a point of order against any legislation that would authorize Federal funds appropriated for processing naturalization applications to be used for any other purpose. (#806)
- Cassidy amendment to create a point of order against legislation that would permit using certain funds to process immigration benefit applications. (#807)
- Thune amendment to establish a deficit-neutral reserve fund to permanently extend the Internet Tax Freedom Act and to establish rules for taxation of digital goods and services. (#808)
- Vitter amendment to restore students' right to privacy of education records by ensuring parental consent of records release in all cases and prohibiting collection of psychological or behavioral data. (#809)
- Collins amendment to establish a deficit-neutral reserve fund relating to increasing access to higher education for low-income Americans through the Federal Pell Grant program. (#810)
- **Vitter amendment to establish a deficit-neutral reserve fund relating to ending Washington's illegal exemption from Patient Protection and Affordable Care Act. (#811)**
- Murray amendment to establish a deficit-neutral reserve fund to provide women with affordable access to comprehensive health care, including preventive services (such as contraception and breast cancer screenings), improve maternal health, and ensure that a woman has the same benefits and services no matter what part of the United States she lives in, all of which is critical to improving the health and well-being of women, children, their families, and society as a whole, and is an essential part of a woman's economic security and opportunity. (#812)
- Durbin amendment to establish a deficit-neutral reserve fund relating to improving oversight and accountability of for-profit colleges. (#813)
- Durbin amendment to establish a deficit-neutral reserve fund relating to preventing exploitation of veterans and servicemembers seeking postsecondary education. (#814)

- Durbin amendment to establish a deficit-neutral reserve fund related to prohibiting inverted corporations from avoiding United States taxes. (#815)
- Durbin amendment to establish a deficit-neutral reserve fund to prevent certain corporations from profiting from government contracts. (#816)
- Durbin amendment to establish a deficit-neutral reserve fund to provide tax benefits to patriot employers that invest in American jobs and provide fair pay and benefits to workers and to eliminate tax benefits for corporations that ship jobs or profits overseas. (#817)
- Flake amendment to establish a spending-neutral reserve fund relating to funding for the Overseas Private Investment Corporation. (#818)
- Flake amendment to establish a spending-neutral reserve fund relating to the repeal of the extension of the wind production tax credit. (#819)
- Flake amendment to establish a spending-neutral reserve fund relating to prohibiting funding for the Defense Rapid Innovation Program. (#820)
- Flake amendment to establish a spending-neutral reserve fund relating to prohibiting the Forest Service from finalizing and implementing a certain proposed groundwater directive. (#821)
- Flake amendment to eliminate Federal duplication and consolidate the 94 Federal green building programs spread across 11 different Federal agencies. (#822)
- Flake amendment to establish a spending-neutral reserve fund relating to implementing the recommendations of the Government Accountability Office to consolidate financial literacy programs. (#823)
- Flake amendment to establish a spending-neutral reserve fund relating to enabling transparency in the Federal crop insurance program, which may include disclosing the names of recipients of Federal subsidy payments for crop insurance premiums. (#824)
- Blumenthal amendment to expand the deficit-neutral reserve fund for veterans and servicemembers. (#825)
- Barrasso amendment to establish a deficit-neutral reserve fund relating to the repeal of the annual fee on health insurance providers imposed by the Patient Protection and Affordable Care Act. (#826)
- Hatch amendment to establish a spending-neutral reserve fund relating to reforming the Federal regulatory process by enabling retrospective review of existing regulations, improving the process by which new regulations are created, ensuring fair and effective judicial review, and securing an effective role for Congress in the Federal regulatory process through legislation and oversight. (#827)
- Franken amendment to provide additional resources to save student financial aid and keep college affordable for more than 8,000,000 low- and middle-income students by restoring the \$89,000,000,000 in cuts to Federal Pell Grants in the Republican budget. (#828)
- Brown amendment to establish a deficit-neutral reserve fund relating to maintaining the critical

infrastructure security of the United States natural gas pipeline system with respect to physical damages or cyber security-related impacts. (#829)

- Moran-Blumenthal amendment to establish a deficit-neutral reserve fund relating to researching health conditions of the descendants of veterans exposed to toxic substances during services in the Armed Forces. (#830)
- Shaheen amendment to establish a deficit-neutral reserve fund relating to encouraging institutions of higher education to make college more affordable by reducing the cost of attendance for students and families. (#831)
- Shaheen amendment to establish a deficit-neutral reserve fund to ensure all women covered by TRICARE have no-cost contraception coverage and to improve access to emergency contraception for women members of the Armed Forces. (#832)
- Boxer amendment to establish a deficit-neutral reserve fund relating to the protection of State and local economies from the impacts of climate change, including extreme and exceptional drought. (#833)
- Boxer amendment to establish a deficit-neutral reserve fund relating to public health and welfare of States and local communities. (#834)
- Sanders amendment to establish a deficit-neutral reserve fund relating to offsetting the cost of operations against the Islamic State. (#835)
- McConnell amendment to establish a deficit-neutral reserve fund relating to the regulation by the Environmental Protection Agency of greenhouse gas emissions, which may include a prohibition on withholding highway funds from States that refuse to submit State Implementation Plans required under the Clean Power Plan of the Agency. (#836)
- Alexander amendment to establish a deficit-neutral reserve fund relating to protecting the privacy rights of employees. (#837)
- Murkowski amendment to establish a spending-neutral reserve fund relating to the disposal of certain Federal land. (#838)
- Isakson amendment to establish a deficit-neutral reserve fund relating to supporting United States citizens held hostage in the United States embassy in Tehran, Iran, between November 3, 1979, and January 20, 1981. (#839)
- Cardin amendment to establish a deficit-neutral reserve fund relating to providing funding for State and local law enforcement agencies that receive Federal funds to be used for data collection related to profiling guidance issued by the Department of Justice. (#840)
- Udall amendment to establish a deficit-neutral reserve fund relating to provision of educational assistance to veterans who served in the reserves in Afghanistan or Iraq. (#841)
- Merkley amendment to establish a deficit-neutral reserve fund relating to consumer financial protection. (#842)
- Merkley amendment to establish a deficit-neutral reserve fund relating to restoring reductions in

the Republican budget to the Stafford loan program that would mandate that students currently in college pay interest on their loans before they have received their educational benefits, to make college more affordable, to reduce the debt burden of students, and to help graduates afford to pay back student loans. (#843)

- Merkley amendment to establish a deficit-neutral reserve fund relating to restoring cuts in the Republican budget to the Federal Pell Grant and Stafford loan programs that would force more families to take on debt for education and mandate that students currently in college pay interest on their loans before they have received their education benefits, to make college more affordable, to reduce the debt burden of students, and to help graduates afford to pay back student loans. (#844)
- Merkley amendment to establish a deficit-neutral reserve fund relating to trade agreements. (#845)
- Merkley amendment to save student financial aid and reduce the student loan debt levels in the Republican budget by 15 percent through removing mandated interest payments for students. (#846)
- Scott amendment to require information on settlement agreements. (#847)
- Ayotte amendment to establish a deficit-neutral reserve fund relating to the Medicare home health face-to-face documentation requirement. (#848)
- Vitter amendment to end birthright citizenship. (#849)
- Vitter amendment to establish a deficit-neutral reserve fund relating to ending President Obama's illegal executive amnesty. (#850)
- Ayotte amendment to establish a deficit-neutral reserve fund to rein in onerous fishing regulations and provide disaster relief for fisheries. (#851)
- Ayotte amendment to establish a deficit-neutral reserve fund relating to providing small business regulatory relief and preventing duplicative regulations for investment advisors. (#852)
- Coats to preserve the integrity of college athletes. (#853)
- Hoeven amendment to establish a deficit-neutral reserve fund relating to repealing the limitation on health flexible spending arrangements. (#854)
- Lee amendment to prohibit the public debt limit under reconciliation. (#855)
- Lee amendment to establish a spending-neutral reserve fund to support legislation preventing the Federal Communications Commission from reclassifying broadband providers as common carriers under title II of the Communications Act of 1934 and from implementing other "net neutrality" provisions. (#856)
- Lee amendment to establish a spending-neutral reserve fund relating to the investigation and recovery of missing weapons and military equipment provided to the Government of Yemen by the United States Government. (#857)

- Lee amendment to establish a spending-neutral reserve fund relating to limiting funds for institutions or organizations established by the United States Convention on the Law of the Sea. (#858)
- Lee amendment to establish a spending-neutral reserve fund relating to clarifying the definition of the term “waters of the United States”. (#859)
- Lee amendment to establish a spending-neutral reserve fund relating to preventing the Department of Energy from making risky loans. (#860)
- Lee amendment to establish a spending-neutral reserve fund relating to equalizing the treatment of attorney’s fees under the Endangered Species Act of 1973 and the Equal Access to Justice Act. (#861)
- Lee amendment to establish a spending-neutral reserve fund relating to repealing the wind production tax credit. (#862)
- Lee amendment to preserve Congressional Budget Act points of order against legislation providing for an increase in the gas tax paid by hardworking Americans. (#863)
- Lee amendment to establish a spending-neutral reserve fund relating to providing an accounting of total United States contributions to the United Nations. (#864)
- Johnson amendment to establish a spending-neutral reserve fund to accommodate legislation that would stop the Federal government from forcing States to pay unemployment compensation benefits to millionaires. (#865)
- Murray amendment to establish a deficit-neutral reserve fund relating to increasing funding for the Department of Transportation for the TIGER discretionary grant program. (#866)
- Whitehouse amendment to establish a deficit-neutral reserve fund relating to making it more difficult for corporations and billionaires to secretly influence elections by making unlimited undisclosed campaign expenditures, and to prevent such entities from evading campaign finance law, including through making false statements to government agencies. (#867)
- Whitehouse amendment to prohibit budget resolutions that support dropping millions of Americans from their health insurance plans without providing for alternative coverage. (#868)
- Udall amendment to establish a deficit-neutral reserve fund relating to issuing a license to a company to operate as a small business investment company that focuses on accelerating technology transfer commercialization activities that create well-paying jobs and support American innovation. (#869)
- Wyden amendment to establish a deficit-neutral reserve fund relating to extending tax provisions expiring in 2013 or 2014 for 2 years, such as those contained in the EXPIRE Act of 2014. (#870)
