Description:

A new U.S. Geological Survey Open-File Report titled, A projection of lesser prairie-chicken (*Tympanuchus pallidicinctus*) populations range-wide, will be released in July 2017. The peer-reviewed report found that the species is declining in all 4 ecoregions comprising the species' range. This study, funded by the USFWS Region 2 (Southwest Region), was conducted at the Service's request to support its species status assessment for lesser prairie-chickens. The Service will publish a report on that assessment at a later date. USFWS was petitioned in September 2016 to list this species under the U.S. Endangered Species Act. *** WEBEX INFORMATION *** Topic: (10) Viability of Lesser Prairie-Chicken Date: Thursday, July 13, 2017 Time: 11:00 am, Eastern Daylight Time (New York, GMT-04:00) Meeting number: (b) (5)

Description:

USGS briefing on upcoming paper about corrosivity of surface water in the U.S. A briefing paper is attached below. from the Weekly Report: On August 7, the USGS will announce a new paper that finds U.S. rivers are becoming more salty, which increases the potential for corrosion of water infrastructure and the likelihood that lead concentrations in drinking water may increase. Last year the USGS published a study on groundwater corrosivity. This paper is the companion assessment on surface water corrosivity. A briefing is being scheduled for ASWS. The paper will be published in Science of the Total Environment and a news release is planned. ## WEBEX INFO ## Topic: (7) Surface Water Corrosivity Date: Friday, August 4, 2017 Time: 10: 30 am, Eastern Daylight Time (New York, GMT-04:00) Meeting number: (b) (5) Meeting password: (This meeting does not require a password.) Description:

Please join us for a discussion of opportunities for US Agencies through the Belmont Forum. (Teleconference info at bottom) Summary: The Belmont Forum (BF) supports international, transdisciplinary research in many areas in which the USGCRP community has priorities and has made programmatic investments, and involve many of USGCRP's long-term international science partner organizations. This seminar will showcase multiple opportunities for US agencies to leverage their existing programs and investments, as well as influence international science priorities and actions, through the BF. Erica Key, the Exec Director of the BF Secretariat will be presenting. Background: The Belmont Forum is a partnership of funding agencies and other organizations supporting international, transdisciplinary research that builds knowledge for understanding, mitigating and adapting to global environmental change. Each year at its plenary meeting, new themes are discussed for future investment by Belmont Forum members and partner organizations. These investments are called Collaborative Research Actions (CRAs) and utilize a virtual pot approach to fund projects that integrate natural science, social science, and end-users. The Forum emphasizes leveraging existing programs and investments and accepts both in-kind and monetary resources to CRAs. Each funder's resources directly support only their eligible researchers. -----FOR IN-PERSON

Reaser 5:10pm End Please join us at 5:30pm for the inaugural monthly Invasive Species Happy Hour at Elephant Castle - 900, 19th St NW in Washington DC Invader Detectives is a national program (currently under development) that facilitates the detection and eradication of potentially harmful non-native organisms (known as "invasive species") in urban environments. Why invasive species? Among other things, invasive species threaten the survival of our native species, limit food and water availability, impair human health and safety, and damage critical infrastructure, including buildings and roads. Their impacts in the United States are already measured in the 100s of billions of dollars per year. Why urban environments? The majority of invasive species enter the country through the large commercial sea ports and airports located in our Nation's cities. If we stop these organisms at or near our borders, they can't cause harm anywhere else - we protect the American people and everything we care about. Invader Detectives is administered through partnerships between government agencies (mostly local municipalities) and "citizen scientists" - members of the public who have sufficient technical capacity to contribute to scientific endeavors and do so voluntarily. This approach can be cost-effective, while also ensuring that relevant laws and policies are being followed, local Invader Detectives chapters effectively use existing resources (e.g., organizations, experts, educational information), and the data generated by program participants makes a difference over the near- and long-term (e.g., by being included in national databases that are used for environmental planning).

This is important for Secretary Zinke to see. I'm the Principal Investigator on a Federal CRADA Partnership with the DOI. We are a private industry company creating jobs and saving lives using the ShakeAlert data feed. See it here: <http://www.latimes.com/local/lanow/la-me-ln-earthquake-early-warning-20170602-htmistory.html> Cutting this from the budget will risk lives and kill jobs. Please confirm receipt of this and provide a reply. Thanks you for your help!

9am - 5pm National Academies Kick Off Meeting

Where: National Academies building @ 2101 Constitution Avenue NW

Calendar: Andrea Travnicek

Created by: Michelle Mebane

Who: Vincent Devito, Andrea Travnicek

Description:

On Wed, Aug 9, 2017 at 9:53 AM, Walter Guidroz wrote: Andrea, Manythanks for meeting with us yesterday to discuss future assessment plans for the Bakken/Three Forks as well as the upcoming National Academies(NA) study of the Energy Resources Program (ERP). With respect to the Bakken/Three Forks, we are moving forward with plans to meet in Bismarck, ND on August 25th, and I believe a follow-up meeting with you has already been scheduled for Friday, September 1st (thank you Bill Lukas). With respect to our National Academies request, the kick-off meeting for this study will take place on Tuesday, September 5th at the National Academies building at 2101 Constitution Avenue NW. Briefly, this study will evaluate and make recommendations on the overall longterm mission and direction for research and assessments conducted by ERP. An ad-hoc committee of 12 energy experts selected by the NA will convene the kick-off meeting to begin learning about ERP both from USGS staff as well as from stakeholders and others who use our products. As part of that exercise, we'd like to invite either you or Vincent DeVito to briefly address the committee (perhaps for about ten minutes) to provide a departmental perspective on the value that ERP brings to the Department and/or Nation as well as your views on ERP's longer term direction and focus. I've attached a statement of work FYI but briefly the charge of the committee will be the following: · Summarize the nation's geologically-based energy resource challenges including land and resource management and regulatory issues, and context from national and international energy outlooks. Describe how existing ERP data, research, and assessments currently address those challenges. · Discuss how ERP objectives and its science portfolio align with the needs of federal and non-federal consumers of ERP products. Describe how ERP may improve that alignment. · Recommend ways in which the ERP's research, data, and assessment portfolio could be developed over the next 10-15 years to benefit and serve both USGS energy priorities and those of U.S. Government. We'd appreciate any help or involvement you could provide as part of this important study. I can follow up with more details as they become available, and of course please feel free to let me know if you have any questions or would like to discuss further. Thank you. Mr. Cason's LC (b) (5) Catherine and Ryan my other meeting at Interior tomorrow was cancelled. I am wondering if I could participate in this meeting by phone? if so, what number and password? murray Cathy, Christopher Messina is available from 2:15-3 pm on Sept. 12th for a teleconference. If Jim wants an in person briefing Chris said he'd be happy to travel to DC in October. Andrea Travnicek and I should be added to the invite as well. Here is his bio for reference: Christopher J. A. Messina is a markets-focused executive and entrepreneur with deep, international experience in the global capital markets, private equity, commodities, data science, cybersecurity and technology. As an investment banker and strategic consultant, he has advised multiple global exchanges, fintech companies, private equity firms, corporations, shipping companies and sovereign wealth funds. He has built and managed quantitative research groups as well as risk management groups spanning high-frequency trading operations, illiquid, real-asset and real estate based funds and direct investments. Mr. Messina is a Member of the Board of Directors of North American Nickel (TSX.V:NAN), and is an advisor to funds and companies focused on the global capital, commodities, real estate and cybersecurity markets. He leads a structured research effort to design an actuarially-relevant data service for cyber-related insurance risks, is a key contributor to the recently-released Cyber Balance Sheet Report (April 2017) prepared by Focal Point, and was recently appointed to the Department of Homeland Security / Directorate of National Intelligence Office of Intelligence and Analysis 2017 Public-Private Analytic Exchange Program. Mr. Messina was CEO of RPA Capital, LLC, a New York- and Bermuda-based boutique investment bank and alternative asset management firm focused on physical commodity trading, which developed out of Mannahatta Partners, LLC, a New York-based specialist financial services advisory firm focused on investment product structuring, exchange-traded and OTC derivatives markets and commodity- and logistics-related private equity transactions. As CEO and Chief Compliance Officer, he oversaw a regulatory regime spanning multiple regulatory agencies in the US, Canada, United Kingdom, Europe, Australia and the Caribbean, and has deep insight into the interaction between business model choices and regulatory mandates. Prior to founding his advisory boutique Mannahatta Partners, Mr. Messina was the Chief Operating Officer for the Global Futures & Managed Hedge Funds business at ICAP plc. He has worked with Goldman Sachs in New York and Goldman Sachs JBWere in Australia in operational risk, proprietary investments and quantitative research. He has an AB in Anthropology from the University of Chicago, where he was a National Merit Scholar, and an MBA in Finance from the Australian Graduate School of Management. He has worked in North America, Africa, Europe, Australia, and the Middle East. A contributing author to Shari'ah Compliant Private Equity: A Primer for the Executive (Euromoney Books, 2010), he has lectured on derivatives, hedge funds and Shari'ah finance at law schools and conferences globally. Mr. Messina is a member of the National Association of Corporate Directors and Business Executives for National Security. Description:

(b) (6) 202-(b) (6) Hi Cathy, Thank you for taking my call today and setting up a time for me to meet with Jim. (September 13, 2017 at 2:00 PM) I would like to brief Jim on two issues. First, being the long running battle over sand and gravel leases, issued by the BLM in the 90's, near the City of Santa Clarita, California. I could go into great detail but the bottom line is the City is totally opposed to the mine and the contract owners "Cemex" would like to find a reasonable exit from the area as well. In the last days of the previous administration the BLM canceled the contracts and Cemex has appealed that decision to the IBLA, where the case is pending. That is the current status and I would provide a short briefing on possible next steps. Secondly, I have been working with several Congressional leaders to address the paralysis that seems to be the current state of affairs for natural resource management across government. Below is a summary of what we propose. We call it the "Commission to Harmonized Functions of Laws Impacting our Nation's Natural Resources". Our goal is not to change the purpose of any of the laws impacting natural resources, but to harmonize the laws so they function more efficiently with each other and in concert with each other. The "Commission" would have seven to nine members appointed by Congress. The charge of the "Commission" would be to report back to Congress with suggestions to improve operation: between the laws. The following areas operate differently within the agencies and the Departments and would have priority for review. (1) Identify ways the different and often conflicting land use plans implemented by the various departments and agencies can be standardized into systems that generally follow the same requirements, procedures and timelines. (2) Determine how the appeals systems can be standardized among the agencies and departments to ensure a timelier and more fair process. (3) Review the various legal terms and the rules and regulations promulgated from the various laws to insure they are the same between agencies and departments and are applied in like manners. (4) Identify areas where resource laws are in conflict and provide recommendations to alleviate those conflicts. (5) Review the authorities by the various agencies and Departments for making land use decisions for consistency between the agencies and the departments. (6) Identify Court decisions that have given different directives between different geographical areas and between different laws. The vision is for the "Commission" to have a limited life-span of two or two and one-half years. During that time period information would be solicited from the agencies and the departments, as well as, user groups and the general public. That in a thumb nail is the project I'm working on and it is patterned after the "Public Land Law Review Commission" that completed it's work in the late 60's and laid the ground work for FLPMA. I would ask that you not pass this around to the various agencies at this time, because we are still in the early stages of pulling this together. I have been surprised by the Congressional support we have received to date. Look forward to our meeting. Cy Jamison 202-262-9100

Description:

Call in info: (b) (5) leader: (b) (5) participant: (b) (5) Attached to this calendar invite is legislative language supported by Senator Feinstein's office that would establish an oversight and monitoring plan to ensure Westlands is adequately addressing drainage within the boundaries of their district. The attached proposal includes feedback from Steve Macfarlane (DOJ) and the email chain gives further context on the position of DOJ and SOL. The purpose of this call is to make sure DC/MP/SOL are all on the same page and to determine next steps in getting feedback to the Senator's office.

-----From:
Shelly Randel Date: Fri, Aug 4, 2017 at 5:03 AM Subject: Re: Confidential Drainage language - ATTORNEY-CLIENT PRIVILEGED INFORMATION To: "Barajas, Federico" , "Macfarlane, Stephen (ENRD)" Cc: Alicia Forsythe Federico, I was thinking about this further and I agree with Steve on the potential for duplicative/conflicting efforts based on the language and what is in Westlands current basin plan. Additionally, I just wanted to note that during the Feinstein meeting that I attended with Ali and David earlier this year, Tom Birmingham specifically told the Senator that as part of the ILRP, Westlands had adopted "most" of the performance measures that were included as part of the 2008 legislative effort in its current basin plan. In talking to Ali and Ryan Smith, both have indicated that the ILRP has specifically come up in discussions John Watts as well. Anyway, Steve raises a very good point. Description:

CSRIA is interested in following-up on our conference call discussion with Asst. Sect. Travnicek, with a meeting in DC. CSRIA has requested that senior staff prepare an internal recommendation for Sect. Zinke, on whether Interior should engage an ESA Committee (God Squad) review, to settle the litigation/deterioration affecting the ESA Columbia-Snake River Hydr operations. If possible, I would like to set-up a call with Andrea next week to discuss the value of this meeting, and how it should serve the needs of the Interior staff. What day/time would be appropriate for her? CSRIA's legal counsel, who has been in contact with your DOJ (Mr. Govindan), and I are available to be in DC anytime the second week of October. A substantive discussion should involve them, and perhaps other key stakeholders from the Pacific NW, as more parties are perceiving the wisdom of executive action under the existing ESA statutes. Description:

Once a year -- for about 3 weeks, is a period that is the diehard sports fan's dream and their spouse's nightmare. I am referring to the Sports Eclipse -- (a term I just coined). The Sports Eclipse is that time -- which starts this week -- where every major sport in the United States is being played all at once - gluing die hards to the TV and blocking out non-sports-related family engagement and actual exercise. Major League Baseball playoffs began this week, the NFL is 4 games into its season, the NHL season starts today, the NBA has begun its pre season, Major League Soccer is winding down its regular season and approaching its playoffs the WNBA is winding down its finals - even the quasi-professional college football season is in full swing. In recognition, on Friday, those Reclamation employees in the Washington office who do not have meetings and with approval from their supervisor are invited to wear jerseys and shirts from their favorite sports teams. Jerseys must be appropriate for the work place -- clean and appropriately sized. We will also have a happy-hour/pep rally with soft drinks and snacks. Homemade or store bought snack contributions are encouraged, but not required, All -- not just sports fans -- are invited. (Please share this with anyone who does not have computer access.)

2pm - 3:30pm Top 5 Priorities for Grants-Secretary Priorities Discussion

Where: Room 6641 or Dial (b) (5) code: (b) (5)

Calendar: Michelle Mebane

Who:

William Lukas, William Werkheiser, Michelle Mebane, Ryan Nichols, ASWS Conference Room, Kerry Rae, Andrea Travnicek, Scott Morton, Margo Harris, David Applegate, Judy Nowakowski

Description:

Team- I attended the grant coordinator meeting today and I know USGS had Bill on the phone and some other representatives. I wanted to highlight some of the key take-aways that we need to keep in mind on the grant process. 1) We need to be able to maximize the grant process...approve grants that benefit the department and third parties. 2) Identify process for approving grants...having directors and/or assistant secretaries involved on the front end. I think you described for me that your grants are based off the annual guidance documents that each mission area develops? Since I have reviewed them all and suggested changes to some and requested seeing the projects that are being entered into BASIS+ we should get a meeting set up to go over what has come in. What is a good time frame on that meeting? 3) Identify the programs that are mandatory and don't have much discretion and for those grants focus on how to communicate with the comm folks in order to insure the messages get out on what the grants are accomplishing and how they relate to those involved. 4) Work off the priorities that have been discussed...we went through this exercise a few weeks ago. I have included the list below with some examples of where I think we should be going with the priorities for USGS. For USGS: 1) Utilizing our Natural Resources (resource assessments, critical minerals, etc.) 2) Modernizing our Infrastructure (Geospatial, earthquake detection, etc.) 3) Creating a conservation stewardship legacy 4) Generating revenues to support DOI and National Interests (resource assessments identification, potential on geospatial/landsat imagery sales we have been discussing) 5) Protecting our people and the border...if this was modified a bit to include all that USGS monitoring and recovering for storms, volcanoes, etc. 6) Striking a regulatory balance (science to assist in recovery of species,etc.) These are not listed in any particular order at this time. I have included Michelle on here so that we can get a meeting set up to go through the process on your grants/studies again and also see what you have received from the mission areas so far. As I need to be involved on the front end of setting the priorities for each of the mission areas. We should probably set aside at least an hour or two in person meeting with the appropriate staff if you think need to be there. If you have any questions let me know. Thanks. Description:

Briefing on two research papers to be published in October and a third that has an uncertain publication date. 1. A new USGS probability model that predicts the population of domestic well users that are exposed to high levels of arsenic in their drinking water. - Arsenic concentrations from 20,450 domestic wells in the U.S. were used to develop a logistic regression model of the probability of high arsenic (>10µg/L) which is presented in county, state and national scales. The study was conducted with Center for Disease Control 2. A new USGS paper that examines projected future temperature and soil moisture conditions and soil characteristics to predict regions of dryland, non-irrigated, agriculture in the future. 3. A USGS study about the potential release of mercury into the environment from thawing permafrost. - Based on 543 permafrost core samples collected from the interior and the North Slope of Alaska, describes and reports the amount of mercury stored in northern hemisphere permafrost and predicts how much will be released as permafrost thaws. # # # # WEBEX DETAILS # # # # Topic: (8) USGS Science Papers Briefing Date: Monday, October 16, 2017 Time: 4:00 pm, Eastern Daylight Time (New York, GMT-04:00) Meeting number: (b) (5) Meeting password: (This meeting does not require a password.) From: Pais, Sheri (Perkins Coie) Date: Tue, Oct 3, 2017 at 12:22 PM Subject: request for meeting with Dep. Asst. Sec. Travnicek To: "scheduling@ios.doi.gov" Good afternoon, I would like to request arrangement for a meeting with Dep. Asst. Secretary Andrea Travnicek. The meeting will be with representatives of the Western Urban Water Coalition (WUWC) to discuss water issues pertaining to the Western states, infrastructure, the Endangered Species Act and the Migratory Bird Treaty Act. Attached please find documents providing background information pertaining to the Western Urban Water Coalition (WUWC) and the water-related issues to be discussed. WUWC has previously briefed Mr. DeVito, Ms. Skipwith and Mr. Cameron on these topics and welcomes an opportunity to meet with Ms. Travnicek. Please let me know the best way to request this meeting and arrange for a date. Thank you. My phone number is 202-654-1735. Per Jim Cason, in preparation for the "Preferred New Regional Boundaries" meeting tomorrow (Friday 10/20, 10:00-11:00 am ET), attached are the maps of the potential common regional structures. These maps are the same versions we reviewed at the 9/8 meeting and which Scott Cameron sent out to the Assistant Secretaries on 9/8. The default version is Map #1, which is the Secretary's suggested demarcation. Be prepared to discuss and share your input if there are specific preferences or reasons for adopting the other versions, Maps #2, #3, or #4. -- Christina Summers, FAC P/PM On detail to the Office of the Assistant Secretary/Policy, Management & Budget 202-208-4030 (Work) Office of the Director Interior Business Center 202-(b) (6) (Cell) christina_summers@ibc.doi.gov US Department of the Interior Office of the Secretary www.ibc.doi.gov

Where:

USGS Alaska Science Center Conference Room, 4210 University Dr. Anchorage, AK 99508

Calendar: Michelle Mebane

Created by: William Lukas

Who: Michelle Mebane, Kerry Rae, Andrea Travnicek

Description:

AMEC Members: Please join us for the next Alaska Mapping Executive Committee meeting, to be held on 26-October-2017, in Anchorage, Alaska, at the USGS Alaska Science Center. At this meeting we will receive detailed updates and status of Alaska ifsar acquisition and other key geospatial data sets, as well as review the revised 18-month Alaska mapping tactical plan, and discuss a revised AMEC charter. We expect this meeting to have a fairly broad cross-section of regional Federal participation from Alaska, and we are very excited to engage with these partners on a continuing basis as we move forward in the Alaska mapping effort. A highlight of this meeting will be the introduction of the new DOI Deputy Assistant Secretary of Water and Science, Dr. Andrea Travnicek. Dr. Travnicek has more than a decade of research and work experience within the natural resources, energy, agriculture, communication, aviation, UAS and public policy fields and has negotiated on water issues at the state, federal, international, and tribal level. Dr. Travnicek was appointed as a Senior Policy Advisor by Governors Hoeven and Dalrymple in North Dakota. Dr. Travnicek also has experience working for the U.S. Army Corps of Engineers, an environmental consulting firm in Bismarck, North Dakota, and Ducks Unlimited. She holds a Ph.D. in Natural Resources Management/Communication and has professional experience working in the private, public, and non-profit sectors. A draft meeting agenda is included as an attachment to this email. Please RSVP with intentions for attendance to Mr. Brian Wright at bwright@usgs.gov, or (907) 201-0113, NLT 18-October-2017. In the meantime, please accept my sincere thanks for your continued support and participation in this critical and highly-beneficial activity, and I look forward to meeting with you in Anchorage. Best regards, Kevin

Description:

DOE will work with USGCRP to set up an initial scoping meeting regarding an inventory of existing and planned agency research activities that exploit observations prior to and after recent severe events with a focus on environmental parameters of particular importance to global change research. Events to be considered in this exercise include, but are not limited to, Hurricanes Harvey, Irma, and Maria, plus the major wildfires during the past month. To start the process, we will hold a one-hour telecon, where agencies can provide very brief (five minute) presentations detailing each interested agency's (1) existing investments in the impacted areas and (2) intended FY18 investments. The purpose of the telecon is to share information that would be useful for coordinating a research response across agencies to the unfortunate "natural disturbance experiments" provided by the recent natural disasters.

Hi Andrea - I wanted to reach out and introduce myself virtually and see if you had some time in the weeks ahead for a short meeting where I can introduce you to my organization- The American Geosciences Institute. I am the CEO/Executive Director for the Institute, which serves the entire spectrum of geoscientific professionals - greater than 250,000 professionals in the United States. We have 51 scientific member society organizations in total representing solid earth, oceans, atmospheric, and planetary sciences. We have a long partnership with the USGS and several other bureaus at the Department of the Interior. I hope that you had restful 3-day weekend and I look forward to finding some time to introduce you to the Institute. Regards, Allyson American Geosciences Institute Allyson K. Description:

MOVED FROM THURS NOV 2 Hi Verne and Kristine Andrea was recently briefed about the ACWI (Advisory Committee for Water Information) FACA Committee and was wondering if there was any communication or awareness between ACWI and the NSC International Water PCC. As you know, she recently participated in the sub-PCC meeting last month and she seems to believe there could be mutual interests. Andrea would like to set up an internal discussion on this during the week of Oct 30, when she returns from travel. We can identify a mutually acceptable date & time. Please include other appropriate people from Reclamation and USGS as necessary to discuss existing or potential opportunities for collaboration between the committees if none exist. If either of you are aware of any connections between the groups that would be helpful to share with her now. Thanks, for your cooperation to set this meeting up and let me know if you have further questions.

The DOI Invasive Species Task Force is meeting on November 7th and 8th to work on shared initiatives planned for FY 18. We'd be delighted if you could join us, together with Scott Cameron, at the start of our meeting on Tuesday, November 7 from 9-10 to meet the Task Force members and share your perspective. Scott will provide opening remarks followed by a discussion of the Secretary's priorities, intersections with invasive species, and opportunities for action. A reminder that the DOI Invasive Species Task Force is composed of bureau and office representatives and facilitates inter-bureau communication and coordination to strategically address the most pressing invasive species issues facing DOI. If you're not able to attend but another person from your team can, we'd welcome their participation as well. Please join us if you can!

From: Derrick White Date: Tuesday, October 31, 2017 at 4:35 PMTo:

"downey_magallanes@ios.doi.gov" Subject: Hello and could we comemeet with you! Downey - We represent Verde Technologies, the maker ofthe Deterra Drug Deactivation System (<http://deterrasystem.com>), aninnovative individual drug deactivation (disposal) system. The Deterra System is currently the only FDA approved pharmaceutical disposaldevice. It is a bag/pouch that you place your unwanted pharmaceuticals in and add water and seal. The drugs are rendered inert and the entirepackage is biodegradable. These two benefits are especially importantas we address the opioid epidemic and offer individuals the ability todispose of unwanted and unused drugs and do so in an environmentallyfriendly way. We have been making the rounds at some of the moreapparent agencies (FDA, HHS, EPA, etc) to introduce the company and itsproduct. And one of the agencies we thought would be helpful to meet with/receive guidance from would be Interior. A couple of reasons forthis. One, the current all-hands-hand-on-deck posture of the USGvis-à-vis the opioid crisis. And second, there is ongoing activity bythe US Geological Survey (in the form of studies or surveys) on theeffects of pharmaceuticals in the environment. We have the CEO of VerdeTechnologies, Mr. Jason Sundby, in WDC next week on Tuesday November7th and Wednesday November 8th, and would be grateful for theopportunity to come and meet with you or the appropriate staff youwould direct us to. A half hour of time would be more than sufficientand greatly appreciated. Thanks for the consideration, Downey! Regards,Derrick Derrick White

Description:

From: (b) (6) - Darryll Olsen > To: andrea_travnicek@ios.doi.gov; michelle_brown@ios.doi.gov > Cc: scott_cameron@ios.doi.gov; boss.consulting2@gmail.com > Subject: Columbia River ESA Litigation Andrea, > We wanted to provide to you Columbia-Snake River Irrigators Association's (CSRIA) reply to the U.S. Federal District Court's consideration for an evidentiary hearing, where the factual data and analyses confirmed the Idaho fish kill—about 65% of the run (2015 out-migration, 2017 returning adults). As you are aware, this resulted from the fish managers' decision to delay the juvenile fish transportation program and instead keep the fish in lethal in-river conditions—despite objections from NOAA Fisheries' scientific staff. > There is little doubt that U. S. District (Oregon) Judge Michael Simon will reject this motion, because he does not want to listen to anything that would contradict his obvious goal of impairing the hydro system, whether it helps fish or not. > The agencies' (Fish Passage Center and affiliates) fish kill cannot be ignored, although the Federal Hydro Operators/DOJ did not support CSRIA's evidentiary hearing motion (very odd?). This is not an issue that can be buried easily, as it involves thousands of ESA-listed species and hundreds-of-millions of BPA (ratepayer) dollars. > Nevertheless, what the above does affirm is that ESA Committee (God Squad) review will be the only means to stop 25-years of the ESA litigation, killing more Idaho fish, and falsely imposing billions-of-dollars of costs on Northwest power users. The Federal Hydro Operators should come to terms with this realization, rather than allow circumstances to get worse. > Our thanks for your consideration, > D.O., CSRIA > Board Representative > 509-(b) (6) > Darryll Olsen, Ph.D. > Pacific NW Project > 509-(b) (6) >

Description:

Many of you expressed interest in actions being taken to help prevent, contain, and control invasive species in the wake of Hurricane Harvey, Irma, and Maria. To capitalize on this interest, we are convening an internal coordinating call among those in the DOI invasive species community to describe actions underway and discuss considerations, needs, and potential tools, capabilities, and other resources that may be immediately available to those in affected areas. Please note that this is a voluntary call to provide a forum for discussion to begin to connect experts within DOI working on invasive species issues and help identify available assets. We realize that some of these experts may not be available as they are supporting on-the-ground response and recovery efforts and that should remain the first priority. Results of this discussion will be shared with those working on response and recovery efforts to apply as appropriate. If you have questions or suggestions in advance of the call, please let me know. Please feel free to share this invitation with other potentially interested individuals within DOI. Agenda to follow.

Description:

call in info: (b) (5) participant: (b) (5) leader: (b) (5) Per request of David Palumbo and Bob Wolf (see message below from Bob). I realize schedules are tight and a number of folks have conflicts but adding you to this invite for awareness because you're on the email chain. Key participants are David P, David M and Bob Wolf. - Harry

David et al, I'm fine with whatever is decided. I believe, however, that a conference call to understand the change in direction and where we are headed is important. We briefed Scott Cameron, Olivia Ferrier, and POB leadership last Thursday and got their concurrence to adjust power assessments in FY 2019. The Department wanted considerably more supporting documentation to make the case with OMB as part of the Passback/Appeal process next week. Further, we still have language changes unrelated to the power assessment issue that we're working with OMB.

Who: Kerry Rae, Andrea Travnicek

Description:

Dear Senior Executives, Senior Leaders and Senior Professionals, TheDepartment's Executive Resources Board has selected you to serve on theDepartment's Performance Review Boards. For those of you who have not served before, Performance Review Boards read the performance appraisals of Senior Executives, Senior Leaders and Senior Professionals and make recommendations for 1) the summary rating level, and 2) any pay increases and performance/incentive awards. Serving on a PRB is a valuable experience that helps individuals gain a better perspective of SES/SL/ST performance management across the Department and ensures the summary rating levels are in accordance with the performance standards for critical elements. We will be holding training for the Performance Review Boards on December 1 from 10am to 11am in room 1548 at the Main Interior Building. We will also be providing a Web Ex and conference line for those outside the DC area. Even if you have served on a PRB in the past we ask that you attend the upcoming training session to meet the other individuals with whom you will serve and learn the details of DOI's performance recognition framework. If you cannot serve on a PRB panel because of extensive travel in December or other issues, please let me know as soon as possible so we may select an alternate. Thank you in advance for participating on the PRB.

Description:

Attendees: Please send a representative if you cannot attend. Purpose: meet to define the universe of potential legislation we'd advance as part of the FY 19 budget, and start narrowing down that list to what we actually want to pursue. That narrower list would be presented to the Dep Sec ideally no later than the end of next week. The universe of possibilities includes: 1. what we sent to OMB as part of the budget request 2. what was in the infrastructure package 3. what was in the supplemental appropriations bill data call 4. other ideas emerging recently

Description:

Good morning Kerry and Michelle, I hope this email finds you both well. I'm reaching out in the hope of setting up a meeting with Dr. Travnicek before the holidays. The purpose of the meeting would be to discuss how NWRA can be of assistance and help the Department achieve its goals over the next few years. We have our Leadership conference coming up in January. During this conference the Association sets its priorities for the coming year. Having a solid understanding of Water and Science's goals will help us set our priorities. We have a bit of flexibility in our schedule but a meeting on Monday, December 4th or Monday December 11th would work well on our end. Kris Polly will join me for the meeting. Please let me know if I can provide any additional information and if a date other than the 4th or 11th would be preferable. Thanks very much- Ian

Description:

ExCom Members, The Executive Committee GeoPlatform Workshop will be held on Friday, December 8 from 9:00am - 3:00pm at the Department of the Interior (1849 C Street, NW) in the Kiowa Conference Room. The Kiowa Room is in the basement level of the DOI building adjacent to the DOI cafeteria. The objectives of the workshop are to: Assess the current state and value of the GeoPlatform Develop a shared commitment to address problems, mitigate threats, and leverage strengths and opportunities Identify short-term & mid-term actions for moving forward Attached below is a draft agenda for the meeting. Also attached is a set of questions for your consideration prior to the meeting. We would like you to think about these questions, discuss with appropriate people within your organizations, and come prepared to discuss these topics. While we would like to keep the meeting relatively small, please let us know if there are others within your organizations who you think should attend this meeting, especially if you are unable to attend. If you have not yet responded, please confirm the attendees from your organization to Lucia Foulkes (lfoulkes@usgs.gov) by Friday, December 1. We will provide the names of attendees to DOI Security for entrance into the building. Once again, we appreciate your active engagement in this process, and look forward to a productive session. Please let us know if you have any questions about the workshop or the agenda. Regards, Ivan B. Interior's Office of Policy Analysis Seminar The Power of Partnerships:

Collaborating to Control Asian Carp Panelists: ● Jon Amberg-Research Fisheries Biologist, Upper Midwest Environmental Sciences Center, USGS ● Robin Calfee-Supervisory Research Biologist, Columbia Environmental Research Center, USGS ● Greg Conover- Large Rivers Coordinator, USFWS ● Teresa Lewis-Center Director, Midwest Fisheries Center, USFWS ● Aaron Woldt-Deputy Assistant Regional Director for Fisheries Region 3, USFWSTopic: Invasive Species - Asian Carp Date: Monday, December 11, 2017Time: 12:15-1:45 PM (Eastern) Place: Rachel Carson Room (Basement Cafeteria of the Main Interior Building, 1849 C St., NW, Washington, DC 20240) Webcast: www.doi.gov/events How are research and management agencies coming together to control the spread of Asian carp, a highly invasive species spreading throughout the Mississippi River Basin and poised to enter the Great Lakes? Please join the Office of Policy Analysis on December 11 for a panel discussion describing innovative strategies that the US Geological Survey and the US Fish and Wildlife Service are undertaking with multiple agency partners to address this invasive species. Of immediate concern is the detection this June of an adult Asian carp within nine miles of Lake Michigan. If populations establish in the Great Lakes, they could cause billions of dollars in damage to sport and commercial fisheries, recreation, and fish and wildlife habitat. Panelists will discuss how each of their respective agencies are approaching this challenge, coordinating strategies among multiple agencies at the state and federal level, and collaboratively implementing solutions to this large-scale problem. Description:

For those in the DC area, please join us following the Office of Policy Analysis Seminar on Asian carp for an informal round table discussion with the USGS and FWS panelists. Panelists: ● Jon Amberg-Research Fisheries Biologist, Upper Midwest Environmental Sciences Center, USGS ● Robin Calfee-Supervisory Research Biologist, Columbia Environmental Research Center, USGS ● Greg Conover- Large Rivers Coordinator, USFWS ● Teresa Lewis-Center Director, Midwest Fisheries Center, USFWS ● Aaron Woldt-Deputy Assistant Regional Director for Fisheries Region 3, USFWS Potential discussion topics proposed by the panelists: 1. What are other examples of successful partnerships, tools, and approaches to prevent, eradicate, and control invasive species? How can lessons learned best be applied to address other species of concern, and used in other regions? 2. What is the Federal responsibility for combating invasive species? What is the State responsibility? What should be the role between research versus management? If research is needed, how do we establish realistic timelines for obtaining needed information? How important is it to establish realistic expectations for control efforts? 3. With respect to responsibility for funding control efforts, what are the roles and expectations for Federal, State, and local agencies? If additional resources are needed what are some suggested strategies to obtain those resources? 4. How do we assess the costs/benefits of certain actions, and how do we effectively determine where those actions should be implemented to most effectively impact positive response in the target population?

Description:

The USGS recently released a report detailing a digital three-dimensional hydrogeologic framework model for the Rio Grande transboundary region of New Mexico and Texas, USA, and northern Chihuahua, Mexico. This work is part of the USGS-Reclamation cooperative Rio Grande Transboundary Integrated Hydrologic Modeling project. The overall objective of the project is for the USGS to provide modeling tools that Reclamation can use to support their Rio Grande resource management responsibilities and decisions. This briefing will provide an overview of the project, including the science and the utility of the science, as well as how the recently released report fits into the larger project. *UPDATED* Webinar Instructions Topic: RGTHIM USGS-USBR Date: Thursday, January 4, 2018 Time: 9:00 am, Mountain Standard Time (Denver, GMT-07:00) Meeting Number: 287 280 893 Meeting Password: (b) (5)

Despite the meeting being a bit disjointed, we did end up having a productive meeting with Jim and the folks on the phone. I recall you said you would be in ND over the holiday break but would also be working a bit. Would it be possible to schedule a time for a phone call with Dolores and I so we can have a more relaxed conversation about One Federal Decision and DOI's role in the cross-agency team working to help achieve the goals set out? Dolores and I are both working some next week and would welcome a time to chat with you, but if next week does not work the week of January 2 would be fine too. Please propose a time, or if you would like me to reach out to Michele to schedule it I can do that too. Enjoy your holiday time in North Dakota, stay warm! Description:

Dear Dr. Travnicek, Kevin Gallagher recently reached out to you on my behalf about setting up a day of shadowing with you. I am thrilled to have the opportunity to learn about your role and how you got to where you are today. I am working to schedule a number of shadowing experiences while I am in the D.C. area. Right now, it looks like the best week for me to travel out there, based on everyone's schedule, will be the week of January 8th. Will you be available that week for me to shadow you, and if so, is there a day that might work best? If possible, it would be helpful to know the best day and a potential alternate day since I am trying to schedule a number of these experiences that week. I would be happy to chat with you over the phone if that would be easier. Description:

Hi Michelle and Reggie -- Per my conversation with Andrea and then with the Commissioner and the Deputies, we need to schedule a meeting for Monday afternoon on coordination related to California water issues. There are many people in Reclamation and ASWS involved in different aspects of CA water issues -- drainage, storage, Waterfix and so on. That gives the potential for confusion, crossed signals and problems. In response, Commissioner Burman suggested that there be a meeting with the major players to strategize about coordination on CA Water Issues -- roles and responsibilities and coordination between the region, Reclamation's front office and ASWS. Can you set up a meeting with the following people for Monday afternoon: 1) Brenda Burman 2) Adrea Travnicek 3) Austin Ewell 4) Alan Mikkelsen (he will be in town on Monday) 5) Mat Maucieri 5) Dave Palumbo I don't need to be invited, but would like to be cc:ed on the appointment. thanks. let m know if you have any questions. Description:

Adding Conference Room number 6641 Dear all, Happy holidays! We have rescheduled this Executive Briefing specifically for you with JessicaSweet, the NGA IC Portal Manager, to provide some insights from the growth of the National Geospatial-Intelligence Agency's (NGA) centralized Community GIS Portal. We hope this time would be an opportunity for open discussion about what strategic and practical lessons can be applied to the National GIS Portal as part of the FGDC's Geoplatform Offering. The NGA's community-centered ArcGIS Portal has grown over the last 3 years to include 70,000+ users from across 50+ federal agencies across the national security community. It has become a center of gravity for data sharing, collaboration and experimentation with Web GIS workflows. NGA IC Portal Lessons for the GeoPlatform Friday, January 12, 2017 9:00am - 11:00am Department of Interior, DC Headquarters, Room 6641 1849 C St NW | Washington, DC 20240 Special Guest Speakers and Facilitators: * Jessica Sweet, NGA Community Portal Manager * Tracy Toutant, Former NGA Community Portal Manager, Current Esri NGA Account Manager The proposed agenda with invitees is attached. However, this is meant to be a discovery session and discussion, so if you have any specific questions for Jessica or Tracy, please respond by Tuesday, December 5, to give some time to think about a helpful response. Jack Dangermond, Esri CEO, also would like us to share with you some context on Esri's vision for a National GIS Portal in this 5 minute video and presentation that envisions building on the model working in the Intelligence Community for the civilian GIS community with public data. Kindly RSVP if you plan to join. Looking forward to hearing from you and an insightful conversation. Best, Adam Adam J. Description:

Jan 23, 2018 - [RESCHEDULED] Good morning, Today's Town Hall Meeting with Secretary Zinke has been postponed until Thursday, Feb. 1 at 2:00 p.m EST. The Town Hall will be webcast live, but staff with offices in the Udall Main Interior Building are strongly encouraged to attend the event in the Sidney Yates Auditorium, to prevent network congestion. For those who can't attend, the event will be streamed at www.doi.gov/events. Please send your questions for the Secretary to reorg@doi.gov, no later than COB Tuesday, Jan. 30. See you then! - - - After a year in office, I can tell you that Secretary of the Interior is a wonderful, challenging, and fulfilling job. The beauty and importance of our public lands cannot be overstated and serving as their chief steward is a responsibility I take seriously. From protecting our national treasures to thoughtfully managing our natural resources, the dedicated men and women of the Department are outstanding public servants. I'm proud to work with all of you. In 2017, we increased access to public lands for millions of sportsmen and women, restored trust with citizens and local leaders, and provided regulatory relief that put our Nation on the road to energy dominance. We forged strong relationships with tribal communities, developed innovative solutions to water challenges, promoted traditional uses of public lands, and ensured that Theodore Roosevelt's conservation ethic lives on. I am proud of all we have accomplished for the benefit of the American people and excited to do even more. My top priority for 2018 is to reshape the Department in a way that offers a better conservation stewardship model for the next 100 years. By reducing redundancy and administrative barriers, we will share resources more efficiently, improve coordination, and empower the frontlines to better serve our Nation and our citizens. Last week, I hosted senior Interior leaders from across the country for brainstorming sessions here in Washington, D.C. to discuss our ideas to reorganize the Department and plan for our future. I want to share with you some of the ideas that came out of those sessions and next steps, as well as reflect on what we accomplished together in 2017, and our goals for 2018. I also want to hear about any ideas, concerns, or observations you have. So next Tuesday, January 23, at 2:00 pm, please join me for a Town Hall Meeting. You may attend the event in the Sidney Yates Auditorium at the Main Interior Building in Washington, or be part of the discussion online at www.doi.gov/events. Sincerely, Secretary Zinke

Description:

Michelle:First, This email is to confirm with you that a delegation from the Columbia River Inter-Tribal Fish Commission will meet with Deputy AsstSecretary Andrea Trevniecek on at 10:30 am on Thursday, February 8th.Tribal leaders appreciated the opportunity to have an initial meetingwith Dr. Trevniecek last September, they would like to continue the conversation with her regarding the Columbia River Treaty negotiations,the tribes participation in those negotiations and developing agovernment-to-government consultation framework so the tribes can workwith collaboratively as part of the U.S. delegation to the negotiations.The following tribal leaders are in this delegation:Casey Mitchell, Secretary, Nez Perce Tribal Executive Committee (NPTEC)and CRITFC ChairmanLeland Bill, Yakama Nation CRITFC TreasurerJonathan Smith, Warm Springs Fish and Wildlife CommitteeThey will be supported by Jaime Pinkham, the Commission's ExecutiveDirector, Charles Hudson, the Commission's Director forIntergovernmental Affairs and me.I've included this link to the page on Commission's website whichprovides an overview about the tribes' treaties with the U.S.:https://www.critfc.org/member_tribes_overview/treaty-q-a/Second, I spoke with Dr. Travnicek about setting up a webinar sessionso that the technical work group for the 15 Columbia Basin tribes canprovide her with a briefing on the tribes modeling efforts onintegrating ecosystem-based function, including fish passage andreintroduction, into a modernized Columbia River Treaty with Canada.This webinar briefing session would require a one and a half (1.5) hourtime block. Can you suggest a few days over the next few weeks thatwould allow for a webinar session for 1.5 hour technical briefingsession?Because of the time difference, I think we would be looking at an afternoon session.I've attached the materials that the tribes' technical work group usedto brief Jill Smail, the Chief Negotiator at the State Department forthe Columbia River Treaty. Additional background materials can be foundhere:<https://www.critfc.org/tribal-treaty-fishing-rights/policy-support/columbia-river-treaty/definition-of-ecosystem-based-function/>Please let me if you have any questions or if you would like anyadditional materials in advance of the meeting.Thanks, JimJim Heffernan, Policy Analyst - Columbia River TreatyColumbia River Inter-Tribal Fish Commission700 NE Multnomah Street, Suite 1200Portland OR 97232Direct dial: (503) 731-1303 Cell phone: (503) (b) (6) Reception: (503) 238-0667hefj@critfc.org

Description:

On Feb 15, 2018, at 1:49 PM, Janie Thompson <jthompson@cassidy.com> wrote:
Dr. Travnicek, I work for Ormat, the geothermal company out of Reno. Ormat is in the process of expanding a power plant on BLM lands in Mammoth, CA and in so doing, is working with USGS to instrumenting new wells for groundwater monitoring. See the attached Groundwater Monitoring Plans. The NEPA process is complete and all the necessary permits have been issued, but local water officials in Mono County still contend that the Casa Diablo IV project threatens local groundwater supplies. Unfortunately one local USGS official has made a number of public statements in support of the MCWD's position, making claims about the integrity of the subsurface that haven't been peer-reviewed or otherwise substantiated by USGS. This has become especially problematic as the local water district continues to seek resolution in the courts. Paul Thomsen from Ormat will be in DC on Friday, February 23 on another matter, and we were hoping to be able to walk through this issue with you then. We could also go through how the geothermal industry works with USGS in general (usually it's a positive engagement and we want to continue to be good partners). Are you and/or any of your appropriate colleagues free that day 8:30-10:30 am or 12:30-3 pm for a brief conversation? I also dropped a line to Don Cline but believe he is traveling that day. Many thanks, Janie Thompson

Description:

Subject: Request for a briefing with leadership from the state Fisheries chiefs from the Mississippi Interstate Cooperative Resource Association to discuss Asian carp. Description: State Fisheries chiefs from the Mississippi Interstate Cooperative Resource Association (MICRA) requested a briefing with DOI/Bureau leadership to discuss Asian carp. They are in town for National Invasive Species Awareness Week and meeting with Federal agency representatives and Congressional offices. MICRA identified potential discussion topics focused on aquatic invasive species and touching on issues of interest to both USFWS and USGS. Potential discussion topics include implementation of the National Invasive Species Act, MICRA and DOI strategies for Asian carp control, implementation and evaluation of needs and opportunities for Asian carp control in the Mississippi River Basin, and streamlining DOI grant funding process, The MICRA representatives that plan to be in attendance are listed below. The fourth representative has not been confirmed. Brian Canaday, Missouri Department of Conservation, Fisheries Division Chief, and MICRA Chairman Larry Pugh, Mississippi Department of Wildlife, Fisheries, and Parks, Fisheries Bureau Director, and MICRA Chairman-elect Frank Fiss, Tennessee Wildlife Resources Agency, Fisheries Division Chief, TBD

From: Mike Cuffe [mailto:mcuffe@interbel.net] Sent: Thursday, February 22, 2018 12:40 PM To: andrea_travnicek@ios.doi.gov; 'michelle_browm@ios.doi.gov' Subject: Possible visit Monday Feb. 26? Andrea, Some folks from PNWER, Pacific NorthWest Economic Region, hopeto meet with you early on Monday, Feb. 26. We see CRT Negotiator JillSmail at DOS at 10:30 am so need time to get there, but are freeearlier Monday. The PNWER group would include CEO Matt Morrison, Project Manager Steve Myers and myself, Rep. Mike Cuffe from Montana. PNWER is a non-profit association including Alaska, Montana Oregon, Washington, Idaho, British Columbia, Alberta, Saskatchewan, Yukon, and NorthWest Territories. It has the "Gold Standard reputation" regarding relations between the two countries. Discussion would center on selenium, Kootenai River, and Lake Kooanusas as well as similar concerns between BC and Alaska, and possibly something in Washington state, although I don't have anything specific on that. Hoping to see you Monday, Rep. Mike Cuffe 1-406-293-1247

Andrea, The CSC university directors finally settled on a time to visit DC and have started making appointments. Our university legislative affairs folks are encouraging us to spend most of our time at the House. When those meetings are finalized, I'll let you know if we have openings to come to DOI. I know you said that you wanted another visit and perhaps have us meet your new boss. Do you happen to have any available times on Monday or Tuesday? If it doesn't work out this time around, we'll be back when things aren't quite so hectic. Sorry for the short timeline on this! Best, _____ Dr. Renee A. McPherson

Description:

Stephanie Showalter-Otts, Director, National Sea Grant Law Center, requested a briefing to provide an overview of the Building Consensus in the West initiative and efforts to address invasive mussels. Building Consensus in the West is an initiative of the Western Regional Panel on Aquatic Nuisance Species. The goal of the WRP initiative is to develop a multi-state vision for watercraft inspection and decontamination (WID) programs. With funding from the U.S. Fish and Wildlife Service, the National Sea Grant Law Center and the Association of Fish and Wildlife Agencies have been supporting state efforts to harmonize laws, regulations, and policies through the development of a model legal framework. This briefing will provide an overview of the Building Consensus initiative and the model legal framework for state WID programs, and provide information on the ongoing efforts of states to reform statutes and regulations to align authorities with the model framework. This briefing will also discuss challenges associated with implementation of WID programs at multi-jurisdictional waterbodies, such as Lake Mead, and consider how the model legal framework and other Building Consensus efforts might assist with federal efforts to implement or support state efforts.

***** All, We have been asked by NAS to also hold Monday, March 12 at 3:30p EST for a briefing on their Review of the Draft NCA4. While they still hope to be able to brief us this Thursday (per email below), there are a number of logistical hurdles that need to be cleared internally at NAS, so they have asked us to put a calendar hold for Monday, as well. Again, we apologize for the short notice - and continue uncertainty on the exact timing - but we are doing a complicated bureaucratic dance between the NAS and NCA4 community to get the Review in the hands of the authors ASAP. Please keep your eye out for an additional calendar invite (HOLD) for Monday, March 12 at 3:30p EST. Thank you, Dave

Dear Colleagues: Unfortunately, we will have to move this WWF pre-briefing due to unavoidable schedule conflicts here at State Department. Instead of March 6, we hope that you will be available on Wednesday, March 14 from 11:00 am - 12:00 pm DC time. (Agencies - please pass this message to your senior leadership not on this email). As before, we will make our conference line available for remote participation: 1-(b) (5) access code (b) (5) We are also moving to a larger conference room (HST 3940) which can accommodate more people and has DVC capacity for interaction with our Embassy in Brasilia. Draft Agenda: * Overview of World Water Forum and Key Policy Points (DOS - Aaron Salzberg) * Discussion/Qs and As on Political and Technical Sessions (All) * Local Security and Logistics (Embassy Brasilia) This meeting will be open to all US government WWF attendees. Please RSVP so that I can put you on the building access list, and come to the 21st Street (Diplomacy Center) entrance, which is closest to the meeting room - 3840. Thank you for your understanding and patience. I will send out a new calendar invitation shortly. Sun Mar 18, 2018 - Fri Mar 23, 2018

Where: Brasília - Brasilia, Federal District, Brazil

Calendar: tickler

Created by: William Lukas

Who: Andrea Travnicek, Kerry Rae

Description:

<http://www.worldwaterforum8.org/> The World Water Forum is the world's biggest water-related event and is organized by the World Water Council (WWC), an international organization that brings together all those interested in the theme of water. Its mission is "to promote awareness, build political commitment and trigger action on critical water issues at all levels, to facilitate the efficient conservation, protection, development, planning, management and use of water in all its dimensions on an environmentally sustainable basis for the benefit of all life on Earth". Founded in 1996 with its permanent headquarters in the French city of Marseille, the World Water Council is an international multi-stakeholder platform organization bringing together nearly 400 institutions from every horizon, from nearly 70 countries around the world. By providing a platform to encourage debates and exchanges of experience, the World Water Council aims to reach a common strategic vision on water resources and water services management amongst all stakeholders in the water community. In the process, the Council also catalyzes initiatives and activities, whose results converge towards its flagship product, the World Water Forum. The World Water Forum contributes to the dialogue of the decision-making process on water at the global level, seeking to achieve the rational and sustainable use of this resource. Given its political, technical and institutional scope, one of the Forum's main features is the open, democratic participation of actors drawn from different sectors, making it an event of the greatest importance on the international agenda. The World Water Council organizes the Forum every three years together with the respective host country and city. To date, there have been seven editions of the World Water Forum, in different countries, on four different continents. In 2014, Brazil's candidature to host the event was successful and Brasilia was selected as the host-city for the event. Accordingly, in 2018, Brazil will be hosting the 8th edition of the World Water Forum. It will be the first time the event is held in the Southern Hemisphere.

All day 8TH WORLD WATER FORUM

Sun Mar 18, 2018 - Fri Mar 23, 2018

Where: Brasília - Brasilia, Federal District, Brazil

Calendar: tickler

Created by: William Lukas

Who: Andrea Travnicek, Kerry Rae

Description:

<http://www.worldwaterforum8.org/> The World Water Forum is the world's biggest water-related event and is organized by the World Water Council (WWC), an international organization that brings together all those interested in the theme of water. Its mission is "to promote awareness, build political commitment and trigger action on critical water issues at all levels, to facilitate the efficient conservation, protection, development, planning, management and use of water in all its dimensions on an environmentally sustainable basis for the benefit of all life on Earth". Founded in 1996 with its permanent headquarters in the French city of Marseille, the World Water Council is an international multi-stakeholder platform organization bringing together nearly 400 institutions from every horizon, from nearly 70 countries around the world. By providing a platform to encourage debates and exchanges of experience, the World Water Council aims to reach a common strategic vision on water resources and water services management among all stakeholders in the water community. In the process, the Council also catalyzes initiatives and activities, whose results converge towards its flagship product, the World Water Forum. The World Water Forum contributes to the dialogue of the decision-making process on water at the global level, seeking to achieve the rational and sustainable use of this resource. Given its political, technical and institutional scope, one of the Forum's main features is the open, democratic participation of actors drawn from different sectors, making it an event of the greatest importance on the international agenda. The World Water Council organizes the Forum every three years together with the respective host country and city. To date, there have been seven editions of the World Water Forum, in different countries, on four different continents. In 2014, Brazil's candidature to host the event was successful and Brasilia was selected as the host-city for the event. Accordingly, in 2018, Brazil will be hosting the 8th edition of the World Water Forum. It will be the first time the event is held in the Southern Hemisphere.

Description:

Holland & Hart represents FMC Lithium. <http://www.fmclithium.com/> FMC is the third largest lithium producer in the world and the only fully integrated lithium production company in the United States (located in Bessemer City, NC). Over the past few years, FMC has briefed officials who work on international trade issues at the Department of Commerce about the lithium industry in light of the increasing importance of lithium to domestic manufacturing, including energy storage. FMC has not yet briefed anyone at the Department of the Interior. Given the responsibilities of the United States Geological Survey under President Trump's Executive Order and Secretary Zinke's Secretarial Order addressing critical minerals reserves and development, FMC thought it would be helpful to talk to you about its operations and activities both in the United States and globally. Tom Schneberger, Vice President of FMC Lithium, would come down from Philadelphia for the meeting.

Ms. Brown: As we discussed this morning, I am writing to request a visit with the Assistant Secretary and representatives of FreeportMcMoRan, an Arizona-based mining company with an interest in their reorganization effort currently underway at the Department of the Interior. They will be in DC Tuesday April 3, and they would be greatly appreciative of some time with you to discuss their perspective on the relationship of the states and the watersheds, particularly the Lower Colorado River Basin. We know that the Assistant Secretary understands the importance of the project and how it pertains to watersheds in the Pacific Northwest, and my clients would like to brief him on some of the issues in the Southwest. We are also visiting with Susan Combs at 9A on April 3, and perhaps there might be a convenient time afterward for Dr. Petty. Thank you for your assistance with this request. L. As we go forward with 2020, we would identify its budget and any change in milestones based on funding level or change in requirements. I think its important to keep track over time on changes. Also, the template was in excel, but i put it into word as it easier to update using sharepoint or google. If this is an issue let me know. Once we can agree on a revised template I will do a datacall to update the milestones based on the 2018 enacted and 2019 PBR. Thanks

Description:

** Please find the presentation for today's briefing attached to this invite. **The new Open File Report, A conservation paradox in the GreatBasin—Altering sagebrush landscapes with fuel breaks to reduce habitatloss from wildfire, is a synthesis of published information thatassesses the potential effectiveness of fuel breaks to alter wildfirebehavior in the sagebrush ecosystem and look at the ecological cost andbenefits of using this technique. Although no press release is planned,the USGS will request review/approval for national-level social mediaposts. This is a high-profile product for BLM and has the potential tobe picked up by the media.Shinneman, D.J., Aldridge, C.L., Coates, P.S., Germino, M.J., Pilliod,D.S., and Vaillant, N.M., 2018, A conservation paradox in the GreatBasin—Altering sagebrush landscapes with fuel breaks to reduce habitatloss from wildfire: U.S. Geological Survey Open-File Report 2018-1034, 70 p., <https://doi.org/10.3133/ofr20181034>. Description:

NEC will be hosting a PPC on Critical Minerals on April 10th from 3:00pm - 4:00pm in EEOB 229. Below is a summary of what we will be discussing in the meeting and a WAVES link to provide access to the White House Campus. <https://events.whitehouse.gov/?rid=YP8QGRGCTD> On December 20, 2017, President Trump signed Executive Order (EO) 13817 titled, A Federal Strategy to Ensure Secure and Reliable Supplies of Critical Minerals. The EO states that it is the policy of the Federal Government "to reduce the Nation's vulnerability to disruptions in the supply of critical minerals." To achieve this goal, the EO directed for the Department of the Interior (DOI) to publish a list of critical minerals. Next, after consulting with relevant agencies and White House components, the Department of Commerce was directed with submitting a report to the President that includes: (i) a strategy to reduce the Nation's reliance on critical minerals; (ii) an assessment of progress toward developing critical minerals recycling and reprocessing technologies, and technological alternatives to critical minerals; (iii) options for accessing and developing critical minerals through investment and trade with our allies and partners; (iv) a plan to improve the topographic, geologic, and geophysical mapping of the United States and make the resulting data and metadata electronically accessible, to the extent permitted by law and subject to appropriate limitations for purposes of privacy and security, to support private sector mineral exploration of critical minerals; and (v) recommendations to streamline permitting and review processes related to developing leases; enhancing access to critical mineral resources; and increasing discovery, production, and domestic refining of critical minerals. On February 26, 2018, DOI published a draft list of critical minerals and provided a comment period that closed March 19, 2018 (83FR 7065). The Commerce-led report is due September 14, 2018. NEC and CEQ would like to convene a PCC to discuss: (1) the comments DOI received on its draft list of critical minerals; and (2) the forthcoming Commerce-led report.

Description:

Holland & Hart represents FMC Lithium. <http://www.fmclithium.com/> FMC is the third largest lithium producer in the world and the only fully integrated lithium production company in the United States (located in Bessemer City, NC). Over the past few years, FMC has briefed officials who work on international trade issues at the Department of Commerce about the lithium industry in light of the increasing importance of lithium to domestic manufacturing, including energy storage. FMC has not yet briefed anyone at the Department of the Interior. Given the responsibilities of the United States Geological Survey under President Trump's Executive Order and Secretary Zinke's Secretarial Order addressing critical minerals reserves and development, FMC thought it would be helpful to talk to you about its operations and activities both in the United States and globally. Tom Schneberger, Vice President of FMC Lithium, and one other government affairs staffer would come down from Philadelphia for the meeting. Contact: Kelly A. Created by: William Lukas

Who:

Linda Huey, Michelle Mebane, David Applegate, Andrea Travnicek, Trent Richardson, Timothy Petty, John Haines, Ryan Nichols, ASWS Conference Room, Kerry Rae, Michael Blanpied, William Lukas, William Leith, Austin Ewell

Description:

ASWS would like a briefing on recent and current activities by the SESAC and NEPEC FACA committees. SESAC - Scientific Earthquake Studies Advisory Committee The Scientific Earthquake Studies Advisory Committee (SESAC) was created in 2002 by legislation reauthorizing the National Earthquake Hazards Reduction Program (NEHRP). The SESAC meets several times each year, and provides advice and direction to the USGS Earthquake Hazards Program. The committee's membership and procedures are compliant with the Federal Advisory Committee Act (FACA). NEPEC - National Earthquake Prediction Evaluation Council The National Earthquake Prediction Evaluation Council (NEPEC) was created in 1980 by legislation reauthorizing the National Earthquake Hazards Reduction Program (NEHRP). The Council provides advice and recommendations to the Director of the U.S. Geological Survey on earthquake predictions and related scientific research, in support of the Director's delegated responsibility under NEHRP to issue timely warnings of potential geologic disasters. The Council's membership and procedures are compliant with the Federal Advisory Committee Act (FACA). NEPEC meetings are announced on this web site, and also published in the Federal Register in compliance with the notification requirement of section 10(a)(2) of the FACA. However, as stated in P.L. 101-614, the Council shall be exempt from the notification requirement when meeting on an urgent matter. [LC: (b) (5) LC: (b) (5)]

Description:

Joe Krahn <jk@paragonlobbying.com>Apr 9 (2 days ago)to MichelleHi, Michelle - I hope all is well with you.As you may recall, you helped arrange a meeting between Interior/Reclamation officials and the Imperial County Board ofSupervisors last year regarding Salton Sea restoration efforts. TheBoard of Supervisors is sending a small contingent to DC the week ofApril 23rd and I was hoping you could help facilitate a follow-upmeeting between our group and the right folks at Interior. Inparticular, the group would want to discuss a recent request made bySens. Feinstein and Harris, as well as Representatives Juan Vargas andRaul Ruiz, to establish an interagency Salton Sea Working Group (pleasesee the attached letter for reference). This is something that ImperialCounty strongly supports.Our group has availability on either Wednesday, April 25th or Thursday, April 26th. Attendees would be as follows:- Supervisor Ray Castillo (Board Chairman)- Supervisor Michael Kelley- Tony Rouhotas, Jr., County Executive Officer- Rebecca Terrazas-Baxter, Intergovernmental Relations Director- Joe Krahn, Imperial County Federal Representative- Hasan Sarsour, Imperial County Federal RepresentativePlease let me know if you need any additional information.Thank you!JoeJoe KrahnImperial County Washington RepresentativeJoe KrahnParagon Government Relations Phone: 202.898.1444Email: jk@paragonlobbying.comWebsite: paragonlobbying.comAddress: 220 Eye Street, NE, Suite 240, Washington, D.C. 20002

Background- On December 20, 2017, President Trump issued Executive Order 13817 to reduce the Nation's vulnerability to disruptions in the supply of critical minerals. The Order called for 2 reports. The first report, a draft list of critical minerals, was published on February 16. The Department of Commerce, in collaboration with other agencies, is developing a second report, due August 15, 2018. This report will cover 5 topics. BLM is the lead for "Recommendations to streamline permitting processes to expedite critical mineral activity". We are inviting your agencies to participate in developing this section of this report.

Description:

Dear SGCR Principals (& Plus Ones and SC members), Thanks for completing the Doodle poll. While no time worked for everyone, this time (Mon, May 7 at 2p EDT) worked for the most agencies. We won't have a formal agenda, but will use this time to answer questions and for agencies to share plans and experiences in clearing the report through their agency. Thanks for making the time! Dave ***** Dear SGCR Principals, Plus Ones, and NCA4 Federal Steering Cmte members, We are pleased to announce that - after hard work from our hundreds of volunteer authors and the NOAA TSU staff - the Fourth Order Draft of NCA4 is ready for Final Federal Review and Clearance. Comments are due by 5p EDT Friday, May 18. Per OSTP's direction, SGCR Principals are to submit agency comments (by Friday, May 18) and provide final agency approval (by Friday, June 8) of the report. As a reminder, my email on Wednesday had materials to facilitate any intra-agency briefings that may be necessary. The draft report can be accessed at the USGCRP Review and Comment (R&C) site -- review.globalchange.gov -- using the agency-specific credentials already in possession of your R&C site POC (see list below). Additional instructions and context are included on the R&C site's landing page. Contact Natalie Bennett if you have any questions (NBennett@usgcrp.gov). As a reminder given the extensive (six rounds of) internal and external reviews to date, the final review and clearance process within respective agencies should focus on high-level, showstopper issues. We suggest your particular attention to the following issues and encourage including proposed solutions: The accuracy of scientific findings Presentation of material in ways that are policy neutral A couple Principals have requested a special interim call to discuss how agencies will handle this review and clearance process. To help with scheduling such a call for the week of May 7, please complete this Doodle poll by COB Tuesday: (b) (5)

I know of your continuing interest in the topic of critical minerals and wanted to extend an invitation to you to participate in an upcoming meeting of our National Academies Committee on Earth Resources on Wednesday, May 9, on "Critical minerals and materials: Opportunities, challenges, and needs for U.S. manufacturing, economy, and security." The meeting will run from 09:30am to 3:30pm at our National Academies Keck Center, 500 Fifth Street, NW. Speakers will include individuals from the U.S. Geological Survey, Materion, Rio Tinto, 3D Systems, General Motors, the Colorado School of Mines/Critical Materials Institute, Nevada Bureau of Mines and Geology, and the Department of Energy. I will have a firm agenda available for you during the first week of April. We anticipate lively, thoughtful presentations and discussion during the day and would welcome you to join us for the event should your schedule permit. Please let me know if you have any questions in the meantime. Best wishes, Elizabeth

Description:

Hi All, As many of you may know, Mission Brazil works to identify opportunities for US firms to provide environmental technology solutions to Brazil. In this vein, FCS Brazil is convening a conference call to discuss a water desalinization project in the Brazilian state of Ceara (info below). While the project is still in the early stages, we would like to identify U.S. solutions so that U.S. companies are able to fully participate in the bidding process once it begins. Please feel free to forward your colleagues who are interested in or knowledgeable of U.S. desalinization technologies that may be relevant to Brazil. Project information: Fortaleza, Ceará - Desalination of seawater for human consumption (the Castanhão dam that supplies Fortaleza is below 4% of capacity). The desalination project will produce up to 1,000 liters / second of potable water for the metropolitan region of Fortaleza. The budget for the project is estimated at R\$ 500 million. The project will be a PPP - The winning company will build and operate the plant under a 30 year concession from CAGECE. The Spanish GS Inima and Acciona Água SA, were selected through bidding process and are currently doing technology and cost analysis, environmental impact evaluation, and related studies. Dow Water Solutions, Koch Membranes and GE Water (which is no longer U.S., is likely to have manufacturing plants in the USA), are U.S. membrane manufacturers established in Brazil and are well positioned to supply technologies to the company that will build the plant. The U.S. membrane companies in Brazil are aware of this opportunity. Since they are experienced and have local presence, they are likely to be selected as suppliers. Description:

*** For those joining by phone, the presentation for the USGS WaterUse Briefing is attached. ***USGS scientist Melinda Dalton will provide background and an overview of two forthcoming USGS publications regarding water use. One is the forthcoming circular entitled "Estimated Use of Water in the United States in 2015," a national compilation of water use data issued by the USGS once every 5 years for the entire U.S. The second is a mandatory Congressional report, authorized under the SECURE Water Act, that summarizes USGS progress towards a national assessment of water availability and use. This National Water Census report is the second in a series of reports to Congress that explains how the Water Census has progressed towards goals from 2013 to 2017. These reports have been highlighted in the USGS Weekly Report and are scheduled for completion later this month. [LC: (b) (5)]

Cox, Edward Fri, May 18, 3:59 PM (5 days ago) to me Michelle, My name is Ed Cox and I am with Prime Policy Group. We represent MAPPS - a national association of firms that are engaged in surveying, photogrammetry, satellite and airborne remote sensing, aerial photography, hydrography, aerial and satellite image processing, GPS and GIS data collection and conversion services. We would like to request a meeting with Assistant Secretary Tim Petty to discuss the importance of the 3DEP program run by USGS. Assistant Secretary Tim Petty and I worked together in the U.S. Senate for many years when he was with Senator Risch. Please send him my best. Joining me in the meeting would be the following: Brian Raber, President of MAPPS John Copple, Board Member and Legislative Affairs We don't need much time - 30 minutes would be more than sufficient. Ideally, the week of June 4th - on the Monday, Tuesday or Wednesday work best for our schedules. However, if availability is limited, we would happily take advantage of a later date. Thank you so much for your consideration. Best, Ed Cox Prime Policy Group 801-369-2655

"michaelle_mebane@IOS.doi.gov" Subject: Meeting Request for Jim Kennedy re Rare Earths
Reply-To: JJ Brown Michelle, Hi, thanks for taking my call. I'm a former Orrin Hatch staffer and know Tim from those days. I'm working with a coalition that's behind a proposal to bring back the Rare Earth value chain to the United States. Currently China has a monopoly on the manufacture of Rare Earth parts and uses that monopoly to its untold benefit. We have been working closely with the White House, the Pentagon, and Secretary Ross on this proposal, and the White House has asked us to brief Interior on the matter. The proposal does not address mining, but is based on input from USGS and other scientific data. Dr. Ned Mamula, who was on the Trump Transition team has specifically endorsed this proposal. An Op-Ed is attached (with a brief summary) which Ned Mamula wrote for The Hill. Our industry expert, Jim Kennedy, is in town this coming week, Mon-Thurs morning (18th-21st), and he would love to be able to brief the assistant secretary during that time. He is especially free on Wednesday, but we will try to make room for Mr. Petty at his availability. Thanks, very much. JJ Brown ThinkPolicyConsulting, LLC 703 (b) (6) cell jjbrown@thinkpolicy.org

[Webinar] Federal Accounting Standards Advisory Board (FASAB): Accounting for Risk in Climate Change and Adaptation (Robin Gilliam, FASAB) OVERVIEW: Please join us for a webinar presentation from Robin Gilliam, an assistant director at the Federal Accounting Standards Advisory Board (FASAB). As the project lead for the risk assumed project, Robin will share how FASAB is addressing how to report on risks, including climate change. She will discuss the FASAB due process in publishing an accounting standard, and how enterprise risk management (ERM) and cost-benefit analyses may support the development of risk assumed accounting standards. She will also review how USGCRP Federal subject matter experts on adaptation and resilience can assist FASAB in understanding climate adaptation and resilience as it relates to the costs associated with asset impairment and investment. This webinar is open to all Federal participants, and will begin at 10AM ET on June 20, 2018. You are welcome to attend in-person at the USGCRP NCO, or join via webinar (Robin Gilliam will present in-person). **NOTE: Please do not forward this calendar invite (due to incompatibility between different software applications). You are welcome to copy and share the webinar information via email to your Federal colleagues. -- ATTENDEE INFORMATION: *In-Person Attendees* USGCRP National Coordination Office 1800 G St. NW, Suite 9100 Washington, DC 20006 DIRECTIONS: Enter the building, go through security (left side of the lobby - you'll need a government-issued ID and will go through a metal detector), and take the elevator to the 9th floor. Andrea Travnicek, SGCR Contacts, SGCR Principals and Plus Ones, Conference Room: A, tmiller@usgcrp.gov, amelvin@nas.edu, amcqueen@usgcrp.gov, IWG Co Chairs & Coordinators, NCOinternal

Description:

Overview: This SGCR brown bag will focus on the recently released report "Improving Characterization of Anthropogenic Methane Emissions in the United States", featuring members of the report committee Steven Wofsy (Harvard University) and Lisa Hanley (independent consultant). This report summarizes the current state of understanding of methane emissions sources and the measurement approaches and evaluates opportunities for methodological and inventory development improvements. It focuses on emissions from the four largest anthropogenic source categories in the U.S.: agriculture (enteric fermentation and manure management), petroleum and natural gas systems, landfills, and coal mining. This report will inform future research agendas of various U.S. agencies, including NOAA, EPA, DOE, NASA, USDA, and NSF. Report Description: Understanding, quantifying, and tracking atmospheric methane and emissions is essential for addressing concerns and informing decisions that affect the climate, economy, and human health and safety. Atmospheric methane is a potent greenhouse gas (GHG) that contributes to global warming. While carbon dioxide is by far the dominant cause of the rise in global average temperatures, methane also plays a significant role because it absorbs more energy per unit mass than carbon dioxide does, giving it a disproportionately large effect on global radiative forcing. In addition to contributing to climate change, methane also affects human health as a precursor to ozone pollution in the lower atmosphere. Report Highlights and the full PDF (free to download) can be found here: <https://www.nap.edu/catalog/24987/improving-characterization-of-anthropogenic-methane-emissions-in-the-united-states> - LOGISTICAL INFORMATION - FOR IN-PERSON ATTENDEES: USGCRP NCO, Conference Room A 1800 G St. NW, Suite 9100 Washington, DC 20006 *Please allow extra time to go through standard security (scanner, metal detector) FOR REMOTE ATTENDEES: Call-In Number: (b) (5) (toll-free (b) (5)) Passcode: (b) (5) Web Link: (b) (5) *First time PGI user? ** Remote participants: Please join by dialing into the conference line and joining the Google Hangout. BE SURE TO MUTE YOUR COMPUTER AND DISABLE THE CAMERA. ** In June, the USGS will announce a forthcoming energy resource assessment of the Eagle Ford Shale in Texas. The Eagle Ford Shale extends from the Mexico-U.S. border in southern Texas north through San Antonio towards Waco. The Eagle Ford has been an active oil and gas producing region for the past decade. USGS previously assessed the Eagle Ford in 2011. Using a geology-based assessment methodology, the USGS will assess estimates of undiscovered, technically recoverable resources of oil and natural gas. A news release is planned, and USGS expects to offer Congressional briefings.

NEC will be hosting a Critical Minerals PCC on Monday, June 25th from 11:00am - 12:00pm in EEOB 472. WAVES Link: <https://events.whitehouse.gov/?rid=39FW426JJ7> Colleagues, On December 20, 2017, President Trump signed Executive Order (EO) 13817 titled, A Federal Strategy to Ensure Secure and Reliable Supplies of Critical Minerals. The EO states that it is the policy of the Federal Government "to reduce the Nation's vulnerability to disruptions in the supply of critical minerals." To achieve this goal, the EO directed for the Department of the Interior (DOI) to publish a list of critical minerals. Next, after consulting with relevant agencies and White House components, the Department of Commerce was directed with submitting a report to the President that includes: (i) a strategy to reduce the Nation's reliance on critical minerals; (ii) an assessment of progress toward developing critical minerals recycling and reprocessing technologies, and technological alternatives to critical minerals; (iii) options for accessing and developing critical minerals through investment and trade with our allies and partners; (iv) a plan to improve the topographic, geologic, and geophysical mapping of the United States and make the resulting data and metadata electronically accessible, to the extent permitted by law and subject to appropriate limitations for purposes of privacy and security, to support private sector mineral exploration of critical minerals; and (v) recommendations to streamline permitting and review processes related to developing leases; enhancing access to critical mineral resources; and increasing discovery, production, and domestic refining of critical minerals. Commerce has a goal of transmitting the report to the White House by August 15, 2018. In order to meet this ambitious deadline, all of the agencies involved in writing the report will need to remain engaged. Description:

Sent on behalf of USDA Undersecretary for Farm Production and Conservation, Bill Northey Dear colleagues: As co-chair and sponsor of the National Drought Resilience Partnership (NDRP), I would like to extend to you an invitation to a meeting of the NDRP Principals Committee on June 29, 2018. The interagency NDRP provides policy-level coordination of Federal resources and programs designed to build national capacity for long-term drought resilience. Over the last 2 years, NDRP has completed or made substantial progress on all 27 actions outlined in the Action Plan developed in 2016. We will be discussing this progress, as well as NDRP's vision moving forward. The impacts of drought on our national economy are staggering. Together, the leaders of NDRP agencies will develop an updated approach for supporting State and local watershed-scale strategies for building long-term drought resilience. Our broader aim is to reduce the risk drought poses to the economy while simultaneously promoting the President's plan for rebuilding water infrastructure and rural prosperity. The meeting will be held from 10:00 a.m. - 11:30 a.m. Friday, June 29, at the Department of Agriculture's Jamie L. Whitten Building. A draft agenda is enclosed and additional read-ahead materials will be provided in advance of the meeting. Shelby Callaway [shelby.callaway@wdc.usda.gov] will be following up with scheduling information. Please contact Shelby with any questions. Sincerely, Bill Northey Under Secretary for Farm Production and Conservation US Department of Agriculture

Description:

Conference Room: ASWS 6641; Conference Line: (b) (5) Conference Passcode: (b) (5) All, Andrea asked to have a follow-up call this week/early next week on the Q&A we had provided earlier this month (attached) after the Secretary's visit to North Dakota. She most specifically was interested to discuss the RRA portion (acre limitation) and any paths moving forward, as well our discussion on combining the Garrison Agreements into two. Looking at Andrea's schedule, she has few openings this week, outside of Friday afternoon, after 3:30pm EST. Does this time work? (Realizing a few folks will not be available given the # included on the invite, hoping to have input from DKAO/GPRO/Denver) Outside of Friday, early Monday next week at 3:30pm EST is the next best, although given the holiday I'm expecting next week to be difficult in general. Given the RRA portion is the only portion Denver related, I figured we'd start with that discussion so that Karl and/or Stephanie would have the option to take off if they'd prefer. Thanks, Nate

Dear Tim, I truly enjoyed the opportunity to meet you last week at the AASG meeting. And I know that I'm not alone in saying that the entire assembly appreciated your taking the time to contribute to the event. Your participation was very important at a number of levels. You and I had briefly discussed the possibility of Dr. Gregory Symmes, the Executive Director of my Division on Earth and Life Studies at the Academies, and me making arrangements to visit with you at the MIB, and perhaps also with Dr. Reilly, if schedules could be arranged. I'm quite keen to follow up on some of the items we had discussed regarding areas of shared interest. If you're still positive toward a meeting, I'm happy to help coordinate the schedules on our end if you could recommend someone on your team with whom I could communicate about your schedule (and Jim's, if appropriate). Many thanks again for making the trip out to Delaware. Best wishes, Elizabeth Elizabeth A. As you know, I left USGS back in January and have been a Principal here at Dewey Square Group in Sacramento ever since. I am reaching out on behalf of one of my clients, Nestlé Waters North America. Do you have any time to connect about an emergency/disaster response initiative they'd like to get going in partnership with DOI, California's Office of Emergency Services, and maybe Red Cross. I know you are busy, so anytime you have, I will make work on my end. Thanks for considering. -Justin

Hello Andrea, Hope you're well. I wanted to follow up on the quick conversation we had at the IJC Semi-Annuals reception about a month ago; wonder if you might have time to meet to discuss some of our on-going bilateral water issues? As I mentioned, I'd be grateful for your perspective on these issues given your history and expertise, as well as perhaps get your take on our broader engagement with the IJCand Canada from the vantage point of your current position. I'm around most of June - happy to be flexible on timing! 8am - 4:50pm FGDC/DHS Sponsored Disasters Workshop July 24/25 Only

Where: NOAA Auditorium, 1301 East West Highway, Silver Spring, MD 20910

Calendar: Eldrich Frazier

Who: Andrea Travnicek

Description:

Please note the dates are July 24th and July 25th only. Thank you for your patience with the updates and changes to this invite. All, I am providing the final information for the OGC Disasters Workshop DHS/FGDC/USGS and other agencies are sponsoring. [Note Updated Agenda] Disasters CDS Workshop at the NOAA Auditorium Start: Tuesday, 24 July, 2018 - 08:00 End: Wednesday, 25 July, 2018 - 16:00 Location: NOAA Auditorium and Science Center 1301 East-West Highway Silver Spring, Maryland USA Website Announcement: <http://www.opengeospatial.org/pressroom/pressreleases/2811> Registration online is closed. US Citizens may register in person at the event. Agenda: <http://www.opengeospatial.org/ogcevent/180724noaacds> Local Information and Travel: http://www.ago.noaa.gov/about/ago_directions.html Call or text me if you have any questions : 301-659-3082 More Information on the Event : OGC Invites you to the Disasters CDS Workshop at the NOAA Auditorium, Silver Spring, MD Workshop will shape future activities to be led by OGC regarding disaster preparedness & response, and will inform potential Disaster Spatial Data Infrastructures (SDI). Contact: info@opengeospatial.org The Open Geospatial Consortium (OGC) invites you to the second Disasters Concept Development Study Workshop on July 24-25, 2018 at the NOAA Auditorium in Silver Spring, MD. The Disasters workshop is being organized by the Open Geospatial Consortium (OGC) and sponsored by the Department of Homeland Security (DHS), the Federal Geographic Data Committee (FGDC), the US Geological Survey (USGS), and other Government agencies. The workshop is hosted at the NOAA Auditorium in Silver Spring, MD. The workshop is part of the OGC's Disaster Concept Development Study, and will shape future activities to be led by OGC regarding disaster preparedness & response, and to inform development of potential Disaster Spatial Data Infrastructures (SDI). According to NOAA, in 2017 in the United States there were 16 major natural disasters with costs that exceeded 306 billion dollars, shattering previous annual records. Can we save more lives and reduce damages by providing better discovery and access to data that will improve mitigation, preparedness, response, and recovery of disasters? The ability to effectively share, use, and re-use geospatial information and applications across and between governments and Non-Government Organizations (NGOs) in support of disaster response and resilience is dependent upon having a Spatial Data Infrastructure (SDI) already in place when disaster strikes. The Open Geospatial Consortium (OGC) is bringing together key stakeholders in the natural hazards disaster communities to advance the emerging Disaster SDI by conducting a study and developing a set of pilots over the coming years. OGC's Disasters Interoperability Concept Development Study (CDS) will assess the current state of data and product exchange technologies as used in disaster planning, response, and recovery. The information gained in the CDS will aid in developing a series of future pilots that will in turn advance the state of Spatial Data Infrastructures (SDIs) that support disaster risk reduction across the globe. Specifically, the purpose of this workshop is to guide future OGC Innovation Program Activities by: Engaging executive level participants to understand the most important challenges Bringing together diverse sponsors to understand challenges that may translate into requirements for pilots that will kickoff in October 2018 Engaging different stakeholders in disasters Helping participants better understand activities occurring at OGC and other key organizations Engaging operational and technical stakeholders to gather and share information on the current state for using geospatial data and services during natural disasters, including:- Understanding what data, applications, tools, and services stakeholders need- Understanding what data, applications, tools, and services are available- Understanding discoverability, accessibility, and usability challenges- Understanding interoperability challenges and integration opportunities- Identifying gaps in data, applications, tools, and services For more information on the Disasters Concept Development Study visit the Disasters Interoperability Concept Development Study webpage or email tidol@opengeospatial.org. For more information on the Disasters CDS Workshop, including the agenda and how to register, visit the Disaster CDS Workshop at NOAA Silver Spring event page on the OGC website. Registration for the workshop is free but mandatory. About OGC The Open Geospatial Consortium (OGC) is an international consortium of more than 525 companies, government agencies, research organizations, and universities participating in a consensus process to develop publicly available geospatial standards. OGC standards support interoperable solutions that 'geo-enable' the Web, wireless and location-based services, and mainstream IT. OGC standards empower technology developers to make geospatial information and services accessible and useful within any application that

Ryan Nichols, ASWS Principal's Schedule, Timothy Petty, Austin Ewell, Kerry Rae, Andrea Travnicek

Description:

*** INCLUDES TRANSIT TIME - CARPOOL WITH ASLM *** ::Rough Schedule -

ITINERARY ATTACHED:: While this is still TBD and entirely flexible, we were planning to leave DO at 12:00 noon on 7 August for the approximate 2.5 hour ride to the port facility in Lewes, DE. Assuming a 2:30 pm arrival, a 1.5 hour ship tour, and an ~ 3 hour trip back, arrival time at DOI could be around 7:00 pm. - - - - This is a formal invitation to leaders at the Department of Interior, the U.S. Geological Survey, and the Bureau of Ocean Energy Management to visit the research vessel (R/V) Hugh R. Sharp at the University of Delaware marine facility in Lewes, Delaware (700 Pilottown Rd.) sometime after 2:30 pm on Tuesday, August 7. The dock is ~3 hours' drive from Reston/Sterling at off-peak times, and no special equipment other than closed-toe, sensible shoes is necessary. That afternoon, the ship will be nearly fully rigged and undertaking final preparations for our departure at 5 a.m. on Wednesday, August 8 to begin the 21-day MATRIX (Mid-Atlantic Resource Imaging Experiment) airgun seismic program. MATRIX is led by the USGS Gas Hydrates Project and is jointly sponsored by the USGS Coastal-Marine Hazard and Resources Program (John Haines), BOEM (Matt Frye), and the U.S. Dept. of Energy's Methane Hydrates R&D Program. MATRIX will acquire up to 1500 kilometers of seismic data to constrain the distribution of gas hydrates and shallow gas on the U.S. Atlantic margin between approximately Hudson Canyon and Cape Hatteras at water depths as great as 3500 meters (~11,500 feet). The program will fill in a gap in modern exploration seismic data on this margin and cross areas considered by BOEM to be strong prospects for the occurrence of gas hydrates. Thank you for your continued interest in this program. Carolyn Ruppel (on behalf of myself and Nathan Miller)

Because Lake Okeechobee management is within the authority and responsibility of the Jacksonville District, DOI and the OASA have asked COL Kirk to address this matter in the short term. In preparation for a closed door, leadership roundtable discussion with Congressman Mast on 17 August, COL Kirk would like to gather the technical team to review three primary items: 1) how did we manage the lake in 2017-2018 and why 2) what flexibility does LORS currently provide 3) what is the plan and timeline to complete the LORS21 study COL Kirk would also like the FDEP and/or SFWMD to discuss the multiple efforts the state is undertaking to address the degraded water quality and associated effects in Lake Okeechobee and the northern estuaries - both short and long term. Tasha: Would appreciate your help in arranging if possible. Thanks somuch.From: Nancy Prowitt Sent: Monday, July 23, 2018 5:08 PMTo: 'susan_combs@ios.doi.gov'Cc: Katharine Macgregor - US Department of Interior(Katharine_macgregor@ios.doi.gov)Subject: Meeting Request Regarding Permit Application for moving thesite of the annual Miami Yacht ShowDear Susan:My good friend, Kate MacGregor suggested that I contact you about thefollowing matter.We would like to discuss a permit application to with you and yourstaff regarding the relocation of the annual Miami Yacht Show from itstraditional location in Miami Beach to an area just north of downtownMiami. The Miami Yacht Show has contributed significantly to the stateand local economies since its inception over 30 years ago generating anestimated \$486 million in total economic output, \$31.8 million in saletax and \$187 million in labor income impacts last year with totalestimated sales by Florida businesses reaching \$252 million.The proposed new venue for the Miami Yacht Show has added land forexpansion and its proximity to the other trade shows runningconcurrently during the same weekend (the International Boat Show onVirginia Key and the boat show on Watson Island), and will facilitatean interconnected system of events with combined vendor and customerservices. This collaborative effort will produce one of the world'slargest boat and yacht trade show events and will be a catalyst forensuring the continued growth of the marine industry in South Florida.The Army Corps has issued public notice, and referred the applicationto the USFWS and the National Marine Fisheries Service (NMFS) on June29. In order for the show (scheduled for February 2019) to be held inthe new venue, expedited reviews are crucial due to the short timeframe. It should be noted that the venue is only temporary and will betaken down (as it always is) immediately after the trade show. Pleaseseen attached, copies of the Army Corps public notice and referral tothe USFWS.If possible I would like to bring in Mr. Ricardo Strul, the ChiefFinancial Officer and Mr. Andrew Doole, the General Manager, InformaGlobal Exhibitions, to meet with you the week of July 30th (preferablyJuly 30th or 31st) to describe more fully the planned collaborativeindustry initiative for the 2019 show. If those times don't work out weare glad to look at other dates. Please let me know if these might work.Thank you very much for your consideration.Kind regards,Nancy Nancy Gibson ProwittPresident & COOAlcalde & Fay2111 Wilson Boulevard, 8th FloorArlington, Va. 22201Main Number: 703-841-0626Direct Dial: 703-(b) (6) Cell Phone: 703-(b) (6)

Description:

Hi Andrea - welcome to FWP! Could I come by to introduce myself and tell you about yesterday's meeting with the Secretary on the prairie chicken issue? Have been talking to David D, Todd (Willens), John T, Susan, Jim Cason, and others about this and looking forward to getting your take. The decision point is becoming acute. Quick background on me: I lobby on wildlife issues almost exclusively, usually from hunt/fish angle, but long experience with ESA at CEQ, Senate, Gov Kempthorne admin, and in the field as an actual biologist once upon a time. Looking forward to working with you. Regards -Greg cell: 202-(b) (6) Greg Schildwachter

EOP/WHO wrote: South Dakota, North Dakota & Wyoming White House Conference, August 30, 2018 - 1:00 pm - 4:00 pm I. PURPOSE To brief attendees on Administration priorities and to build and maintain relationships with key local and state leaders. II. BACKGROUND The White House Office of Intergovernmental Affairs plans to host state and local elected officials from South Dakota, North Dakota & Wyoming. IGA is halfway through a two-year long initiative to host county commissioners and state legislators from across the nation at the White House for conversations on improving the Federal-local relationship and to advance shared priorities. Connecting state and local elected officials with White House officials and officials in the federal departments and agencies improves relationships, promotes federalism, and advances shared priorities. This event will include state representatives, state senators, council members, sheriffs, mayors, and guests from South Dakota, North Dakota & Wyoming. We also attempt to schedule a White House tour for attendees which would take place prior to the conference.

Description:

Good morning Tasha, I will be accompanied by Michael Schulz, who is the North American lead on CITES and logistics administrator for Early Development research for Covance. He therefore has responsibility for permitting for non-human primates and biological samples and forecasting related to this. Covance is the drug development business of Laboratory Corporation of America (LabCorp), which focuses on diagnostics. Covance is involved in research and development of innovative drugs and treatments from early bench work, to pre-clinical testing with animals, all phases of clinical trials, and continuing through support for bringing products to the market. Its clinical trial business operates globally with major facilities in the US, UK, Germany, and Switzerland. As indicated previously, we are very keen to discuss options to further streamline the "simplified procedure" permitting for biological samples from non-human primates to reduced delays and support bringing new medicines more quickly to patients. Thank you and looking forward to meeting you tomorrow. Speak at the NRA Hunting and Wildlife Conservation Committee Meeting

Where: Westin Arlington Gateway, Arlington VA

Calendar: Andrea Travnicek

Created by: Tasha Robbins

Who: Tasha Robbins, Andrea Travnicek

Description:

Hey Tasha, I wanted to help coordinate Andrea going to this meeting on 9/6 at 2pm. Is there a bio that you can provide on Andrea that I can share with the NRA? Also below is an email with more information regarding the meeting: Good chatting with you this afternoon. Given all the positive achievements at Interior highlighted in your updates, I thought it seemed a plausible idea to possibly have the appropriate person come and speak during our September 6th Hunting and Wildlife Conservation Committee meeting. I have attached the makeup of our committee. It is well attended by much of the leadership as well. Topics of discussion to name a few could include achievements to date, vision going forward, and anything related to poaching. This past weekend with Richard and our sub-committee, we decided the organization should potentially explore efforts to take on the challenges of illegal poaching. We are in the early stages of the effort to get a proposal to the board for action. Your assistance and insight could help greatly as we formulate a strategy going forward to help create the awareness necessary to discern the differences between hunting and poaching and why all outdoor enthusiasts should seek to end all forms of poaching. Lastly, when you have time, I would like to separately explore my idea for a "Hunter and fisherman's tool kit" concept whereby we build a bridge between the accomplishments at Interior with respect to enhanced public access for hunting and fishing at our refuges and elsewhere and the tools necessary to assist the public in taking advantage of the opportunity. I see the potential for partnerships where we engage some of the big outdoor retailers, NRA, etc. to help grab young and old potential newbies to the outdoors with all the information necessary to get started. We all know that we need to reverse the trends affecting the decline in hunting and fishing licenses and what better way than to celebrate renewed opportunity than with mentoring and the tools necessary to help reverse the trends. Best, Trig

Description:

----- Forwarded message ----- From: Easley, Daniel C Date: Fri, Aug 17, 2018 at 11:41 AM Subject: [EXTERNAL] meeting request To: Jean_parrish@ios.doi.gov Good afternoon, Further to our earlier conversation, I'd like to respectfully request a meeting with Susan Combs to discuss Candidate Conservation Agreement with Assurances (CCAA) and Dunes Sagebrush Lizard-related policies. I would likely bring 2-3 subject matter experts from our Texas offices. I can get you a list of attendees once we firm up a meeting date/time. We would offer the following dates: 8/30, 8/31, 9/4-9/7. If those dates aren't workable, we could also be available the week of 9/10. Thank you in advance for your assistance in securing a meeting. Please don't hesitate to call me if you have any additional questions. Meet w/James Callan and the ND Grain Growers leadership RE: Conservation

Where: AS/FWP Conf. room - 3144

Who: Tasha Robbins, Andrea Travnicek

Description:

Hello Tasha, Good speaking with you over the telephone and below is the email I had sent to Andrea on August 23. Our schedule has been filling out since then, and we could now meet next Wednesday at 10:00 a.m. or 10:30 a.m., or Thursday at 9:30 a.m. Thanks and best regards, -Jim Founder/CEO - James Callan Associates LLC Email: jamescallan@msn.com Tel: 202.681.1003 Cell: (b) (6) Connect: jamescallanassociates.com | LinkedIn | Twitter From: jamescallan@msn.com Sent: Thursday, August 23, 2018 1:00 PM To: 'Andrea_Travnicek@ios.doi.gov' Subject: Request for meeting - ND Grain Growers Hello Andrea, Nice visiting with you over the telephone. As discussed, the ND Grain Growers leadership will be in DC next month and we would like to meet with you. Would either late afternoon on Sept. 11 - say 4 p.m. work for you or 11 a.m. or 1 p.m. on Sept. 12? Joining the meeting would be Jeff Mertz, president, Dennis Haugen, first vice president, John Weinand, immediate past president, Robert Ferebee, board member, Dan Wogsland, executive director, and me. The main issue for us centers around conservation. Several of the ND commodity groups (Grain, Corn and Soybeans) are concerned about a new conservation program in the Senate Farm Bill entitled the "CRP Easement Program". This new program would appear to take expired CRP program acreage "permanently" out of crop production by placing a "permanent easement" on the acreage. Concerns expressed by the board members of the groups line up with North Dakota's history of USF&W permanent easements. Who is going to manage the program? Please let me know if you need anything further. I look forward to hearing from you. Best, -Jim Founder/CEO - James Callan Associates LLC Email: jamescallan@msn.com Tel: 202.681.1003 Cell: (b) (6)

Description:

Hi Tasha, Per the below emails, would it be possible to meet with Andrea on Thursday? I am currently free between 7:30 and 9:30 and between 10:30 and 1:30 that day. Would any time during those periods work for Andrea? Thanks very much, Ed - Stewardship for America with Integrity and Excellence - --- Please note that a current or former employee who discloses information to an agency ethics official or a Government attorney does not personally enjoy an attorney-client privilege with respect to such communications. Thanks Andrea Sent from my iPhone On Sep 10, 2018, at 6:32 AM, McDonnell, Edward wrote: Hi Andrea, Your 278e reports correctly indicate that you were and are a Director on the Alumni Foundation and Prevent Child Abuse, rather than an employee. It's just that, under the pledge, any entity for whom one was/is a Director is considered a "former employer" for the purposes of the pledge restriction. That's just how they decided to define that term when they issued the Executive Order. In addition to Allete and Nexus, I also have Kraus Anderson as a former client of yours at Lockridge in my notes. Is that correct or should I change my notes? If you'd still like to meet later this week, I'd be happy to see you. I could work out a time with Tasha, if you'd like. Have a safe and productive trip! Meeting w/Tim Kehoe and Dennis Rodoni RE: Ranching at Point Reyes National Seashore

Where: AS/FWP Conference room - 3144

Calendar: Andrea Travnicek

Created by: Tasha Robbins

Who: Todd Willens, Tasha Robbins, Catherine Gulac, Ryan Hambleton, Andrea Travnicek

Description:

Update: Believe the meeting participants have been downsized to Tim Kehoe (dairy rancher) and Dennis Rodoni (county supervisor) - both in DC that week on other business, I understand. Thanks! Let me know if you need anything. Hi Tasha, This is the meeting I just spoke about with you. Todd would like the 45 minute meeting to include Andrea and Ryan and to hold it in your space. Your office will be the lead and can invite Todd. Tuesday, September 24 2018 2:00pm - 2:45pm EDT I'm cc'ing Cicely so she knows about the meeting and can inform the ranchers since we don't have their contact information and you can be in contact with her. Thanks, Tasha! Cathy Catherine Gulac U.S. Department of the Interior Office of the Deputy Secretary 1849 C St, NW, MS-7328 Washington, D.C. 20240 202-208-6291 Office / 202-208-1739 Direct / 202-208-1873 Fax Catherine_Gulac@ios.doi.gov ----- Forwarded message ----- From Muldoon, Cicely Date: Tue, Sep 4, 2018 at 2:30 PM Subject: confirming meeting To: Cathy, thank for the assistance with this - will let the ranchers know 9/24 at 2 p.m. is a go. Should I give them your name and number to get into Main Interior on a guest pass? The ranchers who have requested a meeting with Todd are Tim Kehoe (dairy) Mike Giammona (beef) Bill Niman (beef)\ David Evans (beef) they may also be accompanied by Dennis Rodoni (still confirming), who is a county supervisor here in Marin County. They know Todd is aware of litigation and current planning related to ranching at Point Reyes and has an interest in this subject. They would like the chance to speak personally with him about their experiences ranching in Point Reyes National Seashore. Please let me know if I can provide any more information - the meeting does not include the NPS, the ranchers just asked for assistance in setting this up. Thank you! Cicely

Andrea - could we catch up on developments on lesser prairie chickensince our meet last month? I've got updates and alerts(!). On balanceit looks like you all are still in a strong position, but time is akiller as financial collapse is underway with one of the key players. Also would like to intro you to my colleague Michael Powelson who hasopened up possibilities for a helpful USDA role to DOI's benefit (andeveryone). Could we find a time late morning tomorrow or any time onWednesday? William can help coordinate. Thank you. -Greg cell: (202)

Where: Capitol Visitor Center (CVC), conference room SVC 201-200

Calendar: Andrea Travnicek

Created by: Tasha Robbins

Who: Tasha Robbins, Andrea Travnicek

Description:

8:30 a.m. - 1:00 p.m. Business Meeting Getting There If taking Metro, there are two subway stops within walking distance of the Capitol Visitor Center: * Union Station (Red Line) - Located at First Street NE, and Massachusetts Avenue. * Capitol South -(Blue & Orange Lines) Located at First Street between C and D Streets, SE. This is closest to the CVC entrance. By cab or rideshare, you should go to the CVC entrance on 1st Street NE (near East Capitol, across from the Supreme Court building). Entering the CVC The Capitol Visitor Center is a remarkable underground facility located under the east plaza of the Capitol. From the west side of 1st Street, go down the ramp or stairs and enter through the north doors of the CVC. (See attached maps.) Once you go through security, go through the doors to the hallway and make a right, then a left, and go down the escalator. Turn left at the bottom of the escalator and go to the United States Senate Appointment Desk to register. ACHP staff will be positioned at strategic locations to guide you. If you get disoriented, call Tanya at 240-375-5226. Note that you are not permitted to bring outside drinks through security. There will be the customary coffee and tea service in the meeting room, but no food. Please let anyone in your office who was planning on attending know about this location change. We look forward to your active participation in our meeting and want to do our best to avoid folks going to the wrong place. Chairman/Committee Chairs Meeting The Chairman/Committee Chairs Meeting will be held as usual on Thursday morning before the business meeting, but we will be meeting in the Architect of the Capitol's conference room in the Capitol (SB-10). A separate notice will be sent to committee chairs. Please do not hesitate to contact Tanya or me if you have any questions. John

Meet w/Timothy Male Executive Director Environmental Policy Innovation Center RE: Monarch Butterfly Conservation

Where: AS/FWP - 3144

Calendar: Andrea Travnicek

Created by: Tasha Robbins

Who: Tasha Robbins, Andrea Travnicek, FWP - 3144 Conference Room Scheduler

Description:

Dear Andrea, I know Susan Combs from a mutual friend in Texas and met with her this summer to provide a heads up about this meeting request and potential partnership with energy companies, but know that role over Fish, Wildlife and Parks has transitioned to you (congratulations!). I am writing to request a meeting on October 9th or 19th (or potentially 8th) on behalf of American Electric Power, NiSource, Inc., the National Rural Electric Coop Association and the Minnesota Department of Transportation with yourself, to advise you of a major monarch butterfly conservation initiative we are developing in collaboration with more than 30 energy companies, transportation agencies, and industry partners. U.S. Fish and Wildlife Service staff at the Regional and field level have been extremely helpful and engaged as partners in developing this CCA). However, we ask for your time for a few reasons: The initiative involves the development of a national, 48-state-wide Monarch Butterfly Candidate Conservation Agreement with Assurances for transportation agencies and energy companies. This agreement would create regulatory certainty and fuel voluntary conservation across a bigger enrollment area than any previous candidate agreement in history. This agreement must be developed and permitted faster than any previous agreement, because of the regulatory deadlines associated with the potential listing process for the butterfly. We are aware that almost every previous CCAA agreement has faced unanticipated delays associated with legal, USFWS and Departmental review. We know how much of a priority the Trump Administration has placed on efficient processes and accelerating government action, especially where energy and infrastructure is involved. We'd like to meet with you to describe this initiative and discuss any input you may have on ways that we could help achieve some of your goals as we try to move this agreement forward. We are also asking to meet with Jim Kurth and have a separate meeting request to Mary Neumayr at CEQ, who I've worked with previously. Iris Caldwell, cc'd on this message and lead coordinator for this initiative, is coordinating schedules for officers at the companies who will join this meeting. She can work with Tasha (who I think helps schedule in your office?) to find a time that works for all. Although other executives from the 30 companies and DOTs were interested in coming to DC for the meeting, we wanted to keep it a practical size. The meeting would include the following (and probably one technical person from each - so about 10 people in total): John McManus, Vice President for Environmental Services, American Electric Power Kelly Carmichael, Vice President for Environmental Policy, NiSource Nancy Daubenberger, Assistant Commissioner, Minnesota Department of Transportation A leadership team member from the National Rural Electric Cooperative Association Could you let me know if we could work with Tasha to schedule the meeting? Ideal dates when everyone can be here are October 9th and 19th (but everyone can also meet on Columbus Day if you will be in the office that day). Thanks so much, Tim Timothy Male Executive Director Environmental Policy Innovation Center 1015 15th Street NW, Suite 600 Washington, DC 20005

Description:

Hosted by the Office of the Assistant Secretary for Water & Science -contact Bill Lukas or Kerry Rae for more information:Congress mandated that an independent scientific review panel provide progress reports on Everglades restoration efforts. The National Academies of Science most recent report, Progress Toward Restoring the Everglades: The Seventh Biennial Review, 2018, will be released on October 17. Stephanie Johnson, study director for the National Academies project, will present key findings and lessons learned over the course of the seven reviews. National Academies of Sciences, Engineering and Medicine's Fourteen Years of Reviews of Everglades Restoration Progress The Comprehensive Everglades Restoration Plan (CERP) was approved by Congress in 2000 as a multibillion dollar, multidecadal plan with 68 projects to restore the South Florida ecosystem, which includes Everglades, Biscayne Bay, and Big Cypress National Parks, A.R.M. Loxahatchee National Wildlife Refuge, and Miccosukee and Seminole Tribelands. Congress also mandated that an independent scientific review panel provide biennial reports of progress, and since 2004, the National Academies have convened committees of experts, who volunteer their time to this endeavor. In addition to reviews of restoration progress and monitoring, each biennial report examines 1-3 focal issues that the committee judges are impacting restoration progress or are likely to impact progress in the near future. These reports have had important impacts on the trajectory of the restoration, including providing the impetus for the Central Everglades Planning Project. The committee's seventh report, Progress Toward Restoring the Everglades: The Seventh Biennial Review, 2018, will be publicly released on October 17th. Stephanie Johnson, study director for the project, will provide an overview of the 2018 report and key findings and lessons learned over the course of the seven reviews. <http://nas-sites.org/cisrerp/>.

Water and Science Seminar on Everglades - Hosted by Tim Petty

Where: 5160

Calendar: Andrea Travnicek

Created by: Tasha Robbins

Who: Tasha Robbins, Andrea Travnicek

Description:

Dear Colleague, I want to invite you and a member of your staff to attend a special Water and Science seminar on the Everglades that I'm hosting on Wednesday, October 31, at 2:30 p.m. in room 5160. Congress mandated that an independent scientific review panel provide progress reports on Everglades restoration efforts. The National Academies of Science most recent report, Progress Toward Restoring the Everglades: The Seventh Biennial Review, 2018, will be released on October 17. Stephanie Johnson, study director for the National Academies project, will present key findings and lessons learned over the course of these seven reviews. Please see below for more information. To keep the discussion informal, I am only inviting select individuals from the Office of the Secretary and the bureaus. As Interior has many bureaus and offices engaged in Everglades activities and are also working in the large landscape context, this in-depth review of restoration in the Everglades should be of interest. Please look for a calendar invite soon. Best, Tim Petty Assistant Secretary for Water and Science

Description:

Team- Next week I am meeting with Kate and Todd to go over ouream- Next week I am meeting with Kate and Todd to go over our 2018 priorities and discuss 2019/2020 potential priorities. Please work with Aurelia and Ryan to update the spreadsheets for 2018. I know we met on that a few weeks ago and reviewed but see if there have been any changes in the last few weeks. Please have those sheets updated by Friday and work with Ryan. Also if you could have 2019/2020 potential priorities provided by Friday also that would be great. And then we will have a meeting with each bureau on Tuesday to discuss before my meeting on Thursday. Thank you for your time and effort on this. Good morning Tasha - At the suggestion of Susan, I am writing to schedule a meeting with Andrea Travnicek for this Thursday. I am concurrently seeking a meeting with Susan on the same subject that day. The subject is briefing on ESA issues in the Permian. Susan would like to coordinate with Andrea if possible on scheduling (and I have copied Cathy and Jean here too for Susan's scheduling) so Susan and Andrea can both attend at the same time. However, if that is not possible, then we can keep the two meetings separate (if Andrea even has an opening on Thursday). My schedule on Thursday is flexible. I am seeking at least 45 minutes for the meeting if possible, but would take an hour if time is available. Thank you as always for your time and assistance. I really appreciate it. -Bret Sumner

Description:

Event Memo: [https://\(b\) \(5\)](https://(b) (5))

(b) (5), (b) (6) Andrea, Casey, and Brian, Our office has been working closely with the American Legislative Exchange Council to have their state legislators from two task forces come in to DOI and discuss a variety of issues effecting their state. Our OIEA office invites you 3 to attend this meeting with ALEC in the Secretary's Conference room from 11:30am - 12:30pm on November 28. Due to their annual conference going on that week, this was the only time we were able to arrange with them to come in as a group. If you are unable to be there, please let me know. There is no press and this is a closed meeting. No need for WAG or public speaking forms to be completed The two Task Forces coming are 1) Energy, Environment, and Agriculture 2) Federalism. About 30 mostly western state legislators (WA, MT, UT, OR, ND, SD, ID, NM, NV, CO, etc.) will be in attendance and this will be a great opportunity for them to discuss Sage Grouse, permitting on federal lands ESA reform, wild horses, and more. These state legislators are often chairs or sit on committees in their respective states that specifically deal with DOI issues, so we hope to answer any questions they may have. Closer to the 28th, I will follow up with an agenda of the items we plan to discuss and attendees. - I have also asked Susan Combs to join us in order to discuss Re-Organization and she will be available from 12:15pm - 12:30pm

Calendar: Andrea Travnicek

Created by: Tasha Robbins

Who: Tasha Robbins, Andrea Travnicek, Ryan Hambleton

Description:

Tasha, Thanks again for setting up the recent meeting for Nancy McNally and me with Andrea Travnicek to discuss the possible addition to the Bayou Sauvage National Wildlife Refuge. Nancy and I greatly appreciated the opportunity to meet with Andrea to discuss this important project. Until recently, I served on the Board of Directors of the Student Conservation Association (SCA), a group that has supported young people for the past 60 years by providing opportunities to high school, college and post graduate students to work on public lands throughout the country, including on many units of the National Park System and the National Wildlife Refuge System, over the years. Jaime Matyas, the SCA President and CEO, and I would greatly appreciate an opportunity to meet with Andrea at her convenience to provide Andrea with a brief introduction to the SCA and the important work that the organization has done with the Park Service and the Fish and Wildlife Service. Jaime and I are available to meet with Andrea at her convenience the week of November 26 if she is going to be in town. If so, just let me know what date(s) and time(s) might work best for her. If not, we also have some availability the following week (the week of December 3). Please let me know what might work best for Andrea. I look forward to seeing you and Andrea then. In the meantime, I hope that you and your family have a wonderful Thanksgiving. Thanks, as always, for your time and consideration. Alan L. Description:

NOTE: In light of the government closure on Wednesday, December 5th, we have rescheduled the happy hour for Tuesday, December 4th. We hope you all can still make it! Please join us on Wednesday, December 5th from 5:30 to 7:30 at Prequel (919 19th Street NW, Washington, DC) for a happy hour to wish Jhoset Burgos Rodriguez farewell and good luck on his next adventure. Prequel is right across the street from our usual meeting place, Elephant and Castle. Stop by just to say hello (and, sadly, goodbye) or settle in and join us for a while. It might be your last chance to get together with Jhoset until life brings you to Puerto Rico or him back to

Heath Would be glad to get a meeting set up with you. I am on travel this week so if you would coordinate a call or meeting with Tasha and Maureen that would be great. Thanks so much and look forward to meeting you. Andrea Sent from my iPhone On Nov 2, 2018, at 1:30 PM, Heath Heikkila wrote: Ms. Travnicek - I am writing in the hopes of scheduling an introductory meeting with you. I will be in Washington, D.C. next week and available for meetings Wednesday, November 7 through Friday, November 9. I will also be back in early December if you are unavailable next week due to the short notice. I am the Director of Government Affairs for the American Forest Resource Council (AFRC). AFRC represents the forest products industry in five Western states - Washington, Oregon, California, Idaho and Montana. AFRC primarily represents forest products manufacturers and focuses on issues affecting the management of public forests - Forest Service, BLM lands in Oregon, and Department of Natural Resources (DNR) in Washington state. AFRC is engaged in many critical fish and wildlife issues that affect the management of these forests. Over the last year I have been in contact with Ms. Aurelia Skipwith regarding fish and wildlife issues in the Northwest. AFRC has also been in touch with Todd Wynn and Tim Williams in the Office of External and Intergovernmental Affairs. I've copied them here. With Aurelia's recent nomination to serve as the Director of the U.S. Fish and Wildlife Service (!) I thought it would be good to formally connect with you in your role in Fish, Wildlife and Parks. Please let me know if you might be able to accommodate a short meeting. Thank you. Greetings DOI Leadership and SESCO DP Supporters, As you know, the Department recently made selections for the Senior Executive Service Candidate Development Program (SESCDP) - Class #20. See attachment. The SESCO DP is a year-long training program designed to prepare high potential employees for the SES. You all have played a significant role in identifying our future leaders and/or have graduated from our SESCO DP program. As part of their first week orientation we are extending you an invitation to informally meet with the newest class on Monday (afterwork). See below. You will have multiple opportunities to engage with this cohort over the next year so stay tuned for more details. I also want to personally thank you for your effort in making this a reality. Thanks, Ray

Briefing for Andrea Travnicek re: Quivira & Water Rights (Update on Congressional request in addressing Quivira NWR water impairment. The refuge was established to provide and protect unique inland salt marsh and sand prairie habitat for migratory birds in the Central Flyway and other wildlife. Critical to sustaining these important habitats is the Refuge senior water right of 14,632 acre-feet, which is a surface right dependent on flows in Rattlesnake Creek. Without this water right, the Refuge would not receive the water necessary to fulfill the congressionally approved purpose.) Description:

This is a follow-up to previous meetings with BLM, the Solicitor's Office, and BLM regarding a potential precedent setting federal land management model. The Owyhee Basin Stewardship Coalition (OBSC) is comprised of ranchers and local business people in Malheur County, Oregon. Several members of the OBSC would like to discuss their proposal with appropriate DOI officials. No actions sought. The meeting is an intro to the principals of the OBSC and is intended to provide a briefing on this innovative approach to Western collaboration on public land use. This proposal would create a model approach to primarily BLM lands within Malheur Country, Oregon. It would create a mechanism for local control with the focus on health of public lands.

Description:

Hi Tasha, I am looking forward to the meeting on Wed. I wanted to request permission for Eric Kildahl to join me in the meeting. Eric is a fellow landowner in Glacier and can add additional details to the landowner experience we are planning to share with Assistant Secretary Travnicek. Also, can you provide me with the address for our meeting? I want to make sure we come to the right place! Thanks and kind regards, Jack

Description:

Awaiting answers to questions for the ethics preparation 12.3, followup email sent on Friday, Dec. 7. We are in the midst of GenerationEnergy. More natural gas and oil is produced in the United States than any other country in the world. At the same time, U.S. carbon dioxide emissions are at their lowest levels in a generation, largely because of the growing role played by clean natural gas. Our industry is an economic engine, supporting 10.3 million jobs - to produce, deliver and refine natural gas and oil - as well as jobs associated with energy development and the personal spending of our workers. Guided by smart policies and regulations that unleash innovation and progress, natural gas and oil are playing a powerful role in America's economic progress and will for generations to come. Join me and industry leaders from coast to coast at the 2019 State of American Energy luncheon. Sincerely, MIKE SOMMERS
President and CEO, API

All, Recently, National Park Foundation donated the birth and life homes of MLK to the National Park Service. National Park Foundation is working with the donor (who is staying anonymous at this time, until an agreed upon time for a reveal), Bernice King and Family, the King Center, on an event to commemorate this monumental event. I believe discussions are happening at the regional park level and want to make that all parties are aware of communications and participation for a potential commemoration in February. Please pass along this invite if someone should be included in this meeting. Thank you.

Who: Tasha Robbins, Andrea Travnicek

Description:

Good Afternoon, According to the information DHS sent us at the end of January, you have not completed your GETS/WPS testing for this quarter. If you have not completed this test, please take five minutes to do so by next Thursday, February 14th. Remember, in order to complete a successful testing you must make two calls - a GETS call and a WPS call. To make your GETS call use the information on the front of your card: 1. Dial the red access number 2. After the tone, enter your black pin number. If you do not enter the number fast enough, a person will get on the line to ask you to read it to them verbally. 3. When prompted, dial the number you are trying to reach. You must stay on the line until that call is connected or it won't count. For easy reference, feel free to call my cell: 202-(b) (6) To make your WPS call, dial *272 from your work cell phone and then the number you are trying to reach. Description:

Andrea, I hope you're doing well. As you may know, the National Park Foundation's (NPF) Board of Directors will be in Washington for our annual Hill Day on February 27. They will have meetings to educate members of Congress and their staff about the Foundation as well as legislative efforts to address the National Park Service's deferred maintenance backlog. From 5 to 7 p.m. that evening, the Foundation will host a reception in the Capitol Visitor Center. It would be great to have you join us. We expect more than 100 people from the Hill, NPF corporate sponsors, and national park partners. The Foundation has also invited Chairman Murkowski, Ranking Member Manchin, Chairman Daines, Ranking Member King, Senate sponsors of the Restore Our Park Act, as well as Chairman Grijalva, Ranking Member Bishop, Chairwoman Haaland, and Ranking Member Young to attend and speak about their leadership on behalf of our national parks. The full invitation is attached. NPF Board Chair Bryan Traubert and I will be speaking, and NPS Deputy Director Smith will offer remarks. Please let me know if I can provide further information and if you'll be able to join us. Thanks, Will

Calendar: Andrea Travnicek

Created by: Tasha Robbins

Description:

Please block off two two hour windows for me the week of April 1st to work on this and then we can see what may need the week of April 15th to finish it. Thanks. Andrea Travnicek, Ph.D. Principal Deputy Assistant Secretary for Fish and Wildlife and Parks Exercising the Authority of the Assistant Secretary for Fish and Wildlife and Parks Office of the Secretary U.S. Department of the Interior work: 202-208-0969 cell: (b) (6) ----- Forwarded message ----- From: de la Vega, Scott Date: Fri, Mar 22, 2019 at 3:32 PM Subject: Important financial disclosure notice To: Scott de la Vega DOI logo Notice: Public Financial Disclosure Reports You may now begin working on your annual financial disclosures in Integrity--these reports are due on or before May 15, 2019. The Department of the Interior now uses Integrity for all public financial disclosure reports. Integrity is a secure, online system the U.S. Office of Government Ethics created for electronically filing and reviewing public financial disclosure reports (OGE Form 278e, OGE Form 278-T). STOCK Act Requirements Ensuring the highest ethical standards is vital to preserving the public trust. Department of the Interior officials are expected to take steps to carry out their duties in a way that complies fully with their legal obligations, including those under the Stop Trading on Congressional Knowledge Act of 2012 (STOCK Act). The Act prohibits all executive branch employees from using nonpublic information for private profit, engaging in insider trading, or intentionally influencing an employment decision or practice of a private entity solely on the basis of partisan political affiliation. Additionally, there are two very important and ongoing obligations you have under the STOCK Act: Periodic Transaction Report Requirement - The STOCK Act requires that you file a Periodic Transaction Report (OGE Form 278-T) within 30 days of receiving notice of a covered financial transaction, but no later than 45 days after the transaction occurs. You must also report covered transactions of your spouse and dependent children. You can submit these reports using Integrity. Covered transactions under the STOCK Act include any purchase, sale or exchange greater than \$1,000 of stocks, bonds, commodity futures, and other securities - this does not apply to Excepted Investment Funds. Failure to timely file a 278-T may result in a \$200 late filing fee. Notification of Post-Government Employment & Recusal - The STOCK Act also requires that you file a statement notifying your ethics official of any negotiations for or agreement of future employment or compensation with a non-federal entity within three business days after commencement of the negotiation or agreement. However, we encourage you seek advice or file the statement before entering into discussions with a potential employer to obtain advice from your ethics official. Employees who file this notification statement must also file a recusal statement whenever there is a conflict of interest or appearance of a conflict of interest with the entity. You can find more information about this requirement on the DEO's web page on Seeking Non-Federal Employment. We've also linked a fillable notification and recusal form - the form must be submitted to your ethics official. If you have any questions about these or any other ethics requirements, please do not hesitate to contact the Departmental Ethics Office (DEO). Integrity Information and Resources Integrity training session Integrity is intuitive and user-friendly, but if you'd like formal training to help you get comfortable with using Integrity, please join us for the final 30-minute WebEx file training session: Monday, April 8 at 3:00 p.m. EDT Click on the link to view the WebEx session--no need to pre-register. Description:

Hi Tasha, Principle Deputy Assistant Secretary Andrea Travnicek has agreed to a meeting with Mark Gruman (Chief of Staff), Micah Chambers (Senior Legislative Assistant), and myself (Senior Policy Advisor) from Senator Cramer's office on April 8 and request your assistance to find a specific time and location. Sounds like late morning might work best and I'll need to appear via conference call, but Mark and Micah will be there in person. Thanks for your help. Created by: Tasha Robbins

Who: Tasha Robbins, Roslyn Sellars, Ionie Spence, Margaret Everson, Andrea Travnicek

Description:

Tasha and Roslyn, I hope all is well. Mark Emmerson of Sierra Pacific Industries and I will be in town on April 8 and 9, and we were hoping to provide a briefing to Andrea Travnicek and Margaret Everson on recent developments concerning wildlife coordination in California as it related to Northern Spotted Owl and California Spotted Owl. There have been some recent partnerships formed on this issue that we would like to discuss. We would also like to provide an update on SPI's HCP process, and answer any questions parties may have. Could you check schedules and see if Andrea and Margaret would have 15-20 minutes to meet with us on April 8 or 9? From our side, April 9 in the morning prior to 1130 Eastern would be best for us. Thanks in advance. Jim Lynch
