Federal Subsistence Board

Government-to-Government Tribal Consultation Policy

Preamble

The Federal Subsistence Board (Board) recognizes that indigenous Tribes of Alaska are spiritually, physically, culturally, and historically connected to the land, the wildlife and the waters. These strong ancestral ties to the land, wildlife and waters are intertwined with indigenous ceremonies such as songs, dances, and potlatches. The customary and traditional way of life has sustained the health, life, safety, and cultures of Alaska Native peoples since time immemorial. To effectively manage the Federal Subsistence Program, the Board will collaborate and partner with Federally recognized Tribes in Alaska to protect and provide opportunities for continued subsistence uses on public lands.

The United States has a unique legal and political relationship with Indian tribal governments, which has been established through and confirmed by the Constitution of the United States, statutes, executive orders, judicial decisions and treaties. In recognition of that special relationship, and pursuant to direction given by the Secretaries of the Interior and Agriculture to implement Executive Order 13175 of November 2000, “Consultation and Coordination with Indian Tribal Governments,” and to meet the requirements of the Presidential Memorandum of November 5, 2009, “Tribal Consultation,” the Board is developing this Government-to-Government Tribal Consultation Policy. This Policy sets out the Board’s responsibility to engage in regular and meaningful consultation and collaboration with Federally recognized Indian Tribes in Alaska on matters that may have substantial effects on them and their members. This Policy also upholds the Congressional mandate to implement the provisions of the Alaska National Interest Lands Conservation Act (ANILCA) of 1980, P.L. 66-487, which, with its implementing regulations, defines the roles and responsibilities of the Departments of the Interior and Agriculture in administering subsistence management of fish and wildlife on Federal public lands.

Government-to-government consultation undertaken through the Board’s process is a direct two-way communication conducted in good faith to secure meaningful participation in the decision-making process to the full extent allowed by law. The Board will consider and respond to the Tribes’ concerns brought forth through the consultation process (as defined in this policy) before making final decisions.

Two Department-level consultation policies provide the foundation for this policy. They are the Department of the Interior’s *Policy on Consultation with Indian Tribes (2011)* and the Department of Agriculture’s *2010 Action Plan for Consultation and Collaboration*. This policy is consistent with the

Department-wide consultation policies, and it expands on them to apply the policies to the Federal subsistence management program.

The intent of this policy is to describe a framework under which the Board and Federally recognized Tribes in Alaska may consult on ANILCA Title VIII subsistence matters under the Board's authority.

Background

The Federal Subsistence Program, as established by ANILCA and implemented by the Secretaries of the Interior and Agriculture, is a multi-agency program consisting of five agencies: Bureau of Indian Affairs, Bureau of Land Management, U.S. Forest Service, National Park Service, and U.S. Fish and Wildlife Service. These bureaus and rural subsistence users maintain the opportunity for a subsistence way of life by rural Alaskans on Federal public lands while managing for healthy populations of fish and wildlife. The Federal Subsistence Regional Advisory Councils have a foundational role in the Federal Subsistence Program. By statute, the Board must defer to Federal Subsistence Regional Advisory Council recommendations related to the taking of fish and wildlife on public lands unless they are: a) not supported by substantial evidence, b) violate recognized principles of fish and wildlife conservation, or c) would be detrimental to the satisfaction of subsistence needs (ANILCA § 805(c)). The Board distinguishes the deference to Federal Subsistence Regional Advisory Councils from the Tribal government-to-government relationship enjoyed by Federally recognized Tribes, and this Policy will not diminish in any way either the consultation obligations towards Federally recognized Tribes or its deference obligations to the Federal Subsistence Regional Advisory Councils.

The Federal Subsistence Management Program regulations are published twice in the Code of Federal Regulations (CFR): 50 CFR Part 100 and 36 CFR Part 242. The regulations have four subparts. Subparts A and B are within the sole purview of the Secretaries of the Department of the Interior and the Department of Agriculture. Responsibility and decisions relating to the provisions of Subparts C and D are delegated by the Secretaries to the Federal Subsistence Board. Subpart C concerns Board Determinations, including rural and customary and traditional use determinations, while subpart D consists of the regulations for taking fish, wildlife and shellfish.

Goals

The goals of the Federal Subsistence Management Program are to:

1. Create and maintain effective relationships with Federally recognized Tribes in Alaska.
2. Establish meaningful and timely opportunities for government-to-government consultation.
3. Be responsive to requests from Federally recognized Tribes in Alaska to engage in consultation.
4. Work with Federally recognized Tribes in Alaska to improve communication, outreach and education.
5. Acknowledge, respect and use traditional ecological knowledge.
6. Recognize the importance of coordination, consultation and follow-up between the Federal Subsistence Board and Federally recognized Tribes in Alaska.

7. Integrate tribal input effectively into the decision-making process for subsistence management on public lands and waters while maintaining deference to the Federal Subsistence Regional Advisory Councils.

Consultation

1. Communication

It is the Board's intention that information sharing between Tribes and the Board/Federal staff will occur early and often. Information sharing includes, but is not limited to, sharing of traditional knowledge, research and scientific data. Communication between the Federal agencies and Tribes will occur in a timely manner to maximize opportunities to provide input to the Board's decisions. For in-season management decisions and special actions, consultation is not always possible, but to the extent practicable, two-way communication will take place before decisions are implemented. When Tribes bring up issues over which the Board does not have jurisdiction, the Board and Federal staff will provide Tribes with contact information for the state or Federal agency that can address the issue and will also provide the tribes' contact information to the relevant state or Federal agency

2. Roles and Responsibilities

Board members are responsible for implementing this policy and ensuring its effectiveness. The Native Liaison in the Office of Subsistence Management is the key contact for the Board's consultations with Tribes. The Native Liaison will also assist Federal land managers and Tribes with their consultations, as requested and as needed. Federal land managers and staff have a local relationship with Tribes and will maintain effective communications and coordination.

3. Topics for consultation are listed under the definition for "Action with Tribal Implications." They may include, but are not limited to:

- Regulations (e.g., taking of fish, wildlife and shellfish - harvest amounts, methods and means, cultural and educational permits and funerary/mortuary ceremonies; emergency and temporary special actions; customary and traditional use determinations and customary trade)
- Policies and guidance documents [Note: this is consistent with page 3 "Definitions" of DOI Policy "Departmental Action with Tribal Implication".]
- Budget and priority planning development [Note: this is consistent with page 16 USDA Action Plan for Tribal Consultation and Collaboration (Nov 2009) and page 3 "Definitions" of DOI policy – "Departmental Action with Tribal Implication" – specifically "operational activity".]
- Agreements (e.g. Cooperative Agreements, Memorandum of Understanding, Funding Agreements)

4. Timing

Timing of consultation will respect both the Federal subsistence management cycle and the Tribal timeframes for doing business. The requirement of early notification, methods of notice, availability of Federal analyses and time and place of Federal Subsistence Regional Advisory Council meetings and Board meetings are described in Appendix A of the “Federal Subsistence Consultation Implementation Guidelines.” A chart showing the Federal subsistence management cycle is in Appendix B of the same document

5. Methods

No single formula exists for what constitutes appropriate consultation. The planning and implementation of consultation will consider all aspects of the topic under consideration. The Board will be flexible and sensitive to Tribal cultural matters and protocols. Familiarity with and use of Tribes’ constitutions and consultation protocols will help ensure more effective consultation. Consultation may be prompted by a Federally recognized Tribe in Alaska or by the Board. Methods for correspondence, meetings, and communication are further described in Appendix A: “Federal Subsistence Consultation Implementation Guidelines.”

Accountability and Reporting

The Board will monitor consultation effectiveness and report information to the Secretaries, pursuant to the Department of the Interior and Department of Agriculture policies. On an annual basis, the Board will evaluate whether the policy has been implemented and is effective and what progress has been made towards achieving the seven goals outlined in this policy. The Board will actively seek feedback from Federally recognized Tribes in Alaska on the effectiveness of consultation, and the Board’s evaluation will summarize and reflect this feedback. The Board will modify the consultation process to incorporate needed enhancements, as identified through the annual review. The Board will provide Tribes an oral and written summary of the evaluation and changes, if any, in Board meetings with Tribes.

Training

Training on this policy for Federal staff will conform to the requirements of the Department of the Interior and Department of Agriculture consultation policies. The Board recognizes the unique traditional values, culture and knowledge that Tribes can impart and shall incorporate Tribes into the training for the Board and staff. The Board will accompany subsistence users in the field to gain direct experience in traditional Alaska Native hunting and fishing activities. In addition, Federal Subsistence Management training will be offered to representatives of Tribal governments and Tribal members on a regular basis as funding allows. A list of possible venues for training is included in Appendix C: “Venues for Training.”
