Description:

Unless something new pops up, I promise to stop flooding your inbox—however I wanted to share with you what I have discovered. You may both know this already and if so, I apologize; my only thought in forwarding this to you is that I would hate to be sitting on a piece of information that you NEED to know, so again I apologize if you already know this. On that note, I found the source of the Lands with Wilderness Characteristics—It was an Order from Sec. of the Interior, Ken Salazar on December 22, 2010 and it is identified as “Order No. 3310”. In that order, referencing how and why the BLM shall inventory all BLM land for wilderness characteristics, Salazar writes this, “The BLM should develop recommendations, with public involvement, regarding possible Congressional designation of lands into the National Wilderness Preservation System.” I have been in countless meetings where we have questioned this whole process and designation and that it seems (to the vast majority of the public) like this is a new inventory from which Congress can designate new wilderness and we have ALWAYS been told, no—this is just to identify resources so we can manage that land appropriately. NO---it is to provide a list from which environmental groups and Congress can ‘shop’ to designate new wilderness areas, per Secretary Salazar’s own words. And I found another quote from Sec. Salazar in a letter dated 6-1-2011 referencing the Sec. Order 3310, where he states, “...the Dept. of the Interior will be soliciting input from members of Congress, state and local officials, tribes, and Federal land managers to identify BLM lands that may be appropriate candidates for Congressional protection under the Wilderness Act. I am directing the Deputy Secretary to work with the BLM to deliver a report to me and to Congress regarding those areas.” Salazar wrote this letter because in the Order 3310 he said to call LWWC “Wild Lands”; Congress subsequently said they would not fund ‘wildlands’ so this letter is where Salazar tells everyone to call those lands LWWC—and as quoted above, continues to affirm that this inventory is for more congressional designations of wilderness. In Order #3310, “Sec 6 Effective Date. This Order is effective immediately and will remain in effect until it is amended, superseded, or revoked, whichever occurs first.” Is that even a possibility—to revoke Order #3310? Thank you again for your time, Elise

Background: Governor Martinez has led a coalition of western states to devise recommendations to streamline federal oversight of oil and gas development and expedite its permitting. Due to BLM permitting delays, New Mexico fails to realize approximately \$831,000 per day in state severance tax and the federal government fails to realize approximately \$1,473,000 per day in federal royalties. Annually, that's over \$300 million lost to New Mexico and over \$500 million lost to the federal government from lands located in New Mexico alone. It would probably be beneficial for us to sit down at some point in the new year (after your meeting is over) so we can get caught up and Steve can get to know you and NCSL a bit better. In fact, Silver Peak is the only lithium producing mine in the US. I saw the Executive Order on Critical Minerals and read with interest the permitting section. I was wondering if we could connect so I can learn more about the current stage of the process and see if we can provide any input to help you formulate the report and recommendations. Hi Todd,As you might recall we met as you came into a short meeting that Mark Spencer and I were having with Tim Williams when Mark and I were at DOI in December. Say, I have a request and that is to see if you might be able to join the Recreational Aviation Foundation <http://www.theraf.org/> on Friday May 17th. We are having our every other year conference that we have where we bring our key volunteers together from across the country. This is an inward (our people) meeting and is not directed towards the general public. Since we have so many places that our worlds intersect we would like to have you join us for some part (or as much as you like) of our meeting. We would like for you to speak to the group. We will be starting on Thursday evening with a meet and greet and we will finish up on Sunday with breakfast before departure. We have Friday somewhat allocated to discussions with our partners. Would expect there to be somewhere around 100 folks in the audience. The place is State College, PA. If this can fit at all into your schedule I will fill you in on all details. Description:

Hey Todd and Jason, This is just a quick follow up on a conversation Todd and Brian, PERC's new Executive Director, had earlier today to make sure everyone is up to date. Before coming to PERC full time in January, Brian served as the Florida Fish and Wildlife Conservation Commissioner and is interested in getting PERC more actively involved in wildlife policy. Back in December, 2017, Brian met with Secretary Zinke and a small group of the state fish and wildlife executive directors to recommend a first-ever gathering of all the states' fish and wildlife conservation commissioners. The conference would be an opportunity to strengthen state and federal relations on fish and wildlife issues and could serve to broaden the base of support for the Department's work. Secretary Zinke gave the conference a thumbs up. Attached is a full memo with more details. We're wondering if the Department of Interior is still interested in holding a conference of this sort. If so, PERC would like to help contribute - perhaps as panel hosts or moderators. Please take a look, and give me a call with any thoughts or questions. We would love to help make this happen. Hope you both are doing well and have had a chance to catch your breath after the State of the Union! Hannah

I'm waiting on final details of the Governor's schedule, but I'm open Monday, 2/26, between 9:00 and 11:30; and Tuesday, 2/27, between 9:00 and noon for sure. Description:

Dear Todd; Thank you so much for agreeing to address the Energy Council's 2018 Federal Energy and Environmental Matters Conference, which will take place on March 15-18 at the Capital Hilton Hotel. You will be speaking to the Council on Saturday, March 17, at 9:30 a.m. on "Update on Federal Regulation" and specifically on the subject The Department of Interior, Federalism and the States as Partners. Enclosed is an Interim Agenda featuring confirmed speakers. Please plan on speaking for 15-18 minutes in order to leave time for a brief Q&A session. You'll also find attached a Speaker's RSVP form, as well as a Conference Registration form. The RSVP form should be completed with your audio/visual requirements and a three or four sentence abstract of your presentation. Our legislators will use the abstract after the conference; consequently, it should be the essence of the message you wish to leave with them. Should you care to use a computer-based presentation (e.g. PowerPoint), it is important that we receive a copy of it, in electronic form. This allows us to load the presentations, in advance, in order to keep the program on time and flowing smoothly. Unless requested otherwise, all electronic presentations will be consolidated for distribution, as a record of the Conference. You or your staff may up-load your presentation and the forms prior to the start of the conference, by going to cloud.h2global.com (no www. preceding). The username is tecppt and the password is 2018Federal. Open the folder labeled with your last name and click on the green up-arrow to begin the uploading process. If you have any questions, please contact me at (972) 243-7788 or by e-mail at lcameron@theenergycouncil.org. We have appreciated all your assistance as we put together this conference and are looking forward to welcoming you back to the Energy Council! Best regards, Lori

Description:

Alabama and Louisiana have requested that I travel back to their states in May to discuss the first Phase II disbursements, calculation methodology, etc., similar to the trips I made in 2016 and 2014 respectively. My question to you is - are there any restrictions on who I can meet with? Below I've listed the groups I met with in prior years. All of the information that I provide is, or will be, publicly available by the end of April. Alabama - 2016-Alabama State Lands Division, Dept of Conservation & Natural Resources -Baldwin County Commission - public hearing venue, including possible press -Mobile County Commission - public hearing venue, including possible press Louisiana - 2014-Coastal Protection Restoration Authority (included Rep. Garret Graves and Governor's staff in 2014) - public hearing venue, including possible press-Office of the Governor - Coastal Activities -Louisiana Department of Natural Resources Thank you, Karen L. Osborne Policy Analyst, Acting Legislative Specialist Office of Natural Resources Revenue, Director's Office (b) (6) karen.osborne@onrr.gov Warning: This message is intended only for use of the individual or entity to which it is addressed and may contain information that is privileged or confidential and exempt from disclosure under applicable law. If the reader of this message is not the intended recipient or the employee or agent responsible for delivering this message to the intended recipient, you are hereby notified that any dissemination, distribution, or copying of this communication is strictly prohibited. If you have received this communication in error, please notify the sender immediately by return e-mail. Good morning, The states are setting up their meetings for the week of May 7th, and it looks like they will be inviting others outside the local governments as well, including engineering firms or related businesses that are working on GOMESA-related projects. It's also possible that local media will attend. I hadn't heard back from you regarding any restrictions on who can attend - the 2016 meetings in AL were public meetings, so I'm going to assume these are fine unless I hear back from you. The material I'm presenting is not P&C - just an explanation of the methodology behind the calculations which we detailed in the regulations, and a look-ahead at how their allocations may change over time based on population and leasing changes. No information on estimates, other than what has already been published in the FY2018 budget documentation. If you have any questions, please let me know. Thanks, Karen

Description:

Alex, Wanted to follow up with you on something that we discussed briefly in our last meeting. On this email is Ben Cassidy who handles our recreation portfolio, Rick May (soon to be national adviser for recreation) and Tim who helps manage Governor relationships with me and Valerie who is the backbone of our office and runs my life. Would love to sit down and walk through what our plan/objective is to gather Recreation advisers and/or recreation points of contact in the Governors offices and get your thoughts on a few things and explore the idea of maybe doing something in Santa Fe this summer.

Wondering if we might be able to set that meeting up for next week? I had hoped to bring in a couple of the commercial scallop fishermen to meet with Todd and discuss first-hand the issues they have with the way BOEM sites offshore wind leases but the scallop season is running full tilt and all the guys are scalloping. Is there a day time next week Tuesday - Thursday, that works for Todd. I will have my colleague Dave Frulla with me. Thanks, Mike

Description:

Ross and Todd, Hope all is well. Hoping you two can put me in touch with the appropriate people to discuss a coal port lawsuit currently in federal court in Washington State. For background: Last year, the State of Washington denied necessary permits to expand export capacity at the Millennium Bulk Terminals in Longview, WA. The expansion project would allow for increased shipping capacity to export Montana and Wyoming coal (among the cleanest burning coal in the world) to Asia. Export capacity on the West Coast is just about tapped out, and unless we increase capacity, coal states have no way of fulfilling contracts with Asian countries who want to buy our product. The company proposing the expansion has filed a complaint in federal court over Washington's denial of necessary permits. This is a big deal for western coal states like Montana and Wyoming. It's also a big deal for international trade in general. We are joining Wyoming in filing an amicus in the case. I know responsible resource development is a top priority for the President—I think this is something we could really use the Administration's help on either through the appropriate agencies (DOJ, Commerce, US Trade Rep, State, Interior etc.) intervening or filing amicus briefs. Do you know who we should speak to about this? Any help would be appreciated. -- Eric Sell

Hello Jeff & Matt, I'm not sure if I've had a chance to formally meet either of you in person before, but as I am refining my list of external contacts, I realize I'm missing one of the titans of the right-of-center organizations... CATO Institute! I would very much like to set up an in person meeting here at the Department of the Interior to discuss some of the work our DOI team is doing on a variety of issues and how that may overlap with the free market/libertarian principles your organization so eloquently represents. I have CC'd our assistant Valerie Smith to coordinate a date and time with one or both of you, hopefully this coming week. I would like to also include the Director of our Intergovernmental and External Affairs office Todd Wynn to join us at this meeting. We very much look forward to meeting with you soon! Thank you,

Description:

attendees: Denise Bode, Michael Best Strategies on behalf of Plains AllAmerican Pipeline Kevin Swanson, Michael Best Strategies on behalf of Plains All American Pipeline Michi – thank you kindly for the introduction. It’s a testament to your freedom fighter nature that you would make this introduction. Todd – I would greatly appreciate the opportunity to read you in on a major energy infrastructure project that is being threatened by the Administration’s trade actions. We are hoping to build support from agencies that support domestic energy production. We have submitted a request to meet with Secretary Zinke, per the attached, but would appreciate your guidance on who handles the energy portfolio and who would be the best person to speak with. The issue at stake is the construction of a 550 mile crude oil pipeline from the Permian basin in West Texas to Corpus Christi. The Permian Basin is extremely constrained for pipeline transportation capacity and the 700k barrel per day capacity of this pipeline would vault the Permian basin (if counted as a country) to the 5th largest in the world ahead of Canada, China and Iran. On June 1st the temporary tariff exemption for the EU expires and if the Administration imposes any import quotas on the EU, it would prevent the pipeline from being built. Thank you for your consideration of this request. Best regards, Kevin O. Swanson Senior Associate

Description:

I'm looking forward to seeing you on Wednesday, June 6, for SLC's upcoming Energy & Environment Committee delegation to Washington, D.C. You are scheduled to brief the delegation at 9:00 AM. Attached to this email is the updated agenda and objectives of the meeting. The briefing will be held at the Hall of States (444 N. Capitol Street NW) in conference room 231. You'll need to check in with the security desk for a visitors badge, then take the elevator to the 2nd floor. If you're planning to provide materials or utilize a power point presentation, please bring printed copies of your presentation (10 copies will be enough). Confirmed delegates include: Representative Lynn Smith, Georgia Chair, SLC Energy & Environment Committee; Senator Ed Emery, Missouri Vice Chair, SLC Energy & Environment Committee; Representative Bill Sandifer, South Carolina Past Chair, SLC Energy & Environment Committee; Senator Robin Webb, Kentucky Member, SLC Energy & Environment Committee; Senator Dave Sypolt, West Virginia Member, SLC Energy & Environment Committee. Thank you again for lending your significant expertise to this delegation. As always, please let me know if you have any questions. Dear Todd, Greetings from SLC! I'm writing today to share some information about an upcoming SLC Energy & Environment Committee delegation to Washington, D.C., and to seek your assistance in scheduling a briefing from your colleagues at the Department of the Interior. A delegation of SLC Energy & Environment Committee members are scheduled to visit Washington, D.C., June 5-6, 2018, to engage in meetings with senior officials from the Department of Energy (DOE), Environmental Protection Agency (EPA), and Department of the Interior (DOI). Through targeted briefings, participants will gain a nuanced understanding of each agency's policy priorities. The delegation will comprise five senior members of the SLC Energy & Environment Committee, accompanied by two staff members. Attached to this email is a tentative agenda and overview of the delegation's objectives for the DOI briefing. To gain a deeper understanding of the relationship between conservation and energy independence, delegates wish to engage in dialogue with top DOI officials on the proposed expansion of the Outer Continental Shelf Oil and Gas Leasing Program. Additionally, the delegation wishes to receive a briefing on the objectives of the newly created Hunting and Shooting Sports Conservation Council. Briefings will take place on Wednesday, June 6, at The Hall of the States. We have allotted approximately one hour for the briefing, followed by 15 minutes of Q&A. As you will see on the agenda, three time slots (one per agency) are available and will be confirmed on a first-come-first-served basis. I look forward to working with you to arrange this briefing. So that we may begin scheduling briefings with other agencies, please let me know which time slot you and your colleagues prefer. As always, if you have any questions, please do not hesitate to reach out to me. All the best, Anne Roberts Brody, Policy Analyst, Southern Legislative Conference of The Council of State Governments (404) 633-1866, aroberts@csg.org, www.slcatlanta.org

Also, one more note just to clarify. Tracy Stone-Manning (NWF Assoc. VP for Public Lands) and Dwanye Meadows (WY Wildlife Federation Executive Director) will be joining us. They have been part of some of the correspondence but I don't see them on my invite so wanted to be clear. Thanks again and see you soon. Good afternoon Todd and Ben, I wanted to wrap together several pieces of correspondence to get us all on the same page. Todd and I spoke after our letter earlier this week. I mentioned that I should connect with Ben as well. Ben in the interim had reached out to Marcia, our new Artemis manager (cc'd here). We appreciate your outreach and consideration of the letter we sent. We would also appreciate sitting down with you sometime in the near future to speak about sporting community issues. We are scattered across the West but do get to DC once in a while. We may end up being in the DC and available to meet to meet in early June. I will keep you posted on those plans and other opportunities where we might connect. Please do the same and feel free to get in touch in the meanwhile should anything else arise. Thanks again for your time and enjoy your weekend.

Hello Todd, My name is Scott McClintock, and for the past year and a half I have been working on the State Department's Legislative Affairs team handling our nominations process. In July, I'll be going back to Mississippi to be Governor Bryant's Deputy Chief of Staff and Policy Director, where I'll be running most of our federal affairs. Doug Hoelscher gave me your information, suggesting that while I'm still in D.C. it would be good to put a face to a name in your shop. Would you have any availability for me to come drop by your office sometime next week for a brief visit? I look forward to both meeting and working with you in the near future. Best, Scott Scott H. Dave and Todd, While I was at the NCASI Southern Regional meeting there was a presentation on the Conservation without Conflict NAFO has promoted while working with EPA Region 4 on issues. During that it discussion it was mentioned there is a desire to expand this process to other agencies and regions around the country. With that, I thought there is no better agency to start those conversations with than the Department of Interior. Since the Interior is often a neighbor to private forestland owners. So, I wanted to connect the two of you. I think you both would greatly benefit from knowing each other and even though you may not overlap often this process could be beneficial for the Department of Interior and their stakeholders.
